Permit No. G-25316

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Lois A. Wheeler, residing at Rt. #2 Meridian, Idaho, and my occupation is "Schoolteacher". P.O. Address Rt. #2, Meridian, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Does not apply

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit Number G-25316, dated December 23, 1954, and date of priority of November 15, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well, 18" diameter, 302ft. deep and cased 15 ft. to bedrock with 18" steel casing. The well is located approximately four hundred feet south and 4 ft. east of the NW corner of the SW 1/4, Section 34, T1N, R1E, BM, Ada County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water is conveyed through 12", 10" and 8" main pipelines and applied to the land with 4" aluminum laterals each being 1300 feet long. Each lateral has 33 each, 30TNT rainbirds, with 11/64" nozzles. The pressure at the discharge of the pump with 15 full length laterals in operation is 70psi. The well depth is 302 ft. with 18" casing to 15 ft and the remainder is in the basalt. The static level of the well is 266 ft and when pumping at 6.5cfs the drawdown was insignificant (less than one inch).

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is to be used for irrigation and domestic purposes. The East 1/2 of Section 34, R1E, T1N, BM, Ada County, Idaho is presently irrigated 215 Acres of Barley and 65 Acres of Oats are being irrigated. The remaining 40 Acres are to be cultivated at a later date.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Francis Veach, Meridian, Idaho. (Original driller)
Kenneth D. Witt, Boise, Idaho (reamed well to 18" from 12")

B25316

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Does not apply

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch of water application per acre will amply irrigate the land for cultivation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Does not apply

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water was seen applied on the land during the month of June 1962 at an application rate of 2.8 second feet. The application was by the sprinkler system described above.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no source of waters other than those described above.

Meridian, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G-25316 are due not later
than December 23, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
