Mr. E. W. Ellingson

Dear Mr. Ellingson:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-25293 shows the well is capable of conveying 51 miners' inches (1.02 c.f.s.) of water for irrigation of 80 acres, and that the (well) point of diversion is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, whereas, the record of the permit lists the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, Township 2 North, Range 3 West, B.M. Therefore, it is necessary that the permit be amended and we enclose an application for amendment to the point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees totalling \$9.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (four dollars) confirming the right with priority of November 29, 1954, to the use of 1.02 second feet of subterranean water, with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, for irrigation of 80 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, Township 2 North, Range 3 West, B.M.
