

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 13th day of July, 1960, at Boise, County of Ada, State of Idaho, before Violet Owensby, Notary Public, at 1900 Main Street, Boise, Idaho, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24862, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Guy E. Bradley, 2027 Latah Street, Boise, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 3, T1N, R1E, BM.

5. The place where said water is used is N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 3, T1N, R1E, BM.

6. The date of priority which said user is prepared to establish is April 12, 1954.

GEO. N. CARTER
State Reclamation Engineer.

License and Certificate of Water Right

Water License No. G-24862

Amount .92 c.f.s.

Water District No.

Priority April 12, 1954

THIS IS TO CERTIFY that ALFRED DUEROCK - Assignee - GUY R. BRADLEY
 of Boise, Idaho, made application for a permit to appropriate the
 public waters of the State of Idaho, dated April 12, 1954; that Permit No. G-24862
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
 .92 second feet, was issued thereunder on February 11, 1964, showing that said works
 were completed on the 13th day of July, 1960; and that on the 13th
 day of July, 1960,

GUY R. BRADLEY - Assignee - KARL WOODALL & SONS, Inc.

of Boise, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well
 , a tributary of subterranean flow, for the purpose of irrigation &
 domestic, under Use Permit No. G-24862 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
 12 of Licenses at page 7812, on the 11 day of February, 1964;

The right hereby confirmed dates from April 12, 1954;

The Point of Diversion is located

In the NE ¼ NE ¼, Sec. 3, Tp. 1 N, R. 1 E., B. M. Ada County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed .92 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
1 N.	1 E.	3	NE ¼ NE ¼	40	40
			NW ¼ NE ¼	40	34
			SW ¼ NE ¼	40	6
Total number of acres to be irrigated:					80

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
 of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
 11th day of February, 1964.

RALPH W. THOMAS
 Deputy State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

63-2986

Application No. G-32679
 Permit No. G-24862
 District No.

Assigned to Karl Woodard & Sons
Boise
Idaho Inc.

1. Name of Applicant: **ALFRED DUEROCK**
 Postoffice address: **1207 Columbus St., Boise County: Ada** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **2.4** or Idaho
 Miners' inches **120** or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Subterranean flow from wells**
4. Location of point of diversion or well is in the **NE $\frac{1}{4}$ NE $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$** of Section **3**
 Twp. **1 N.**, Rge. **1 E.**, B. M., County of **Ada**
5. Water is to be used for: **Irrigation and domestic purposes**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B. M.
 - (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B. M.
7. Kind of works: **Wells, pumps and ditches**
8. Estimated cost of works: **\$5,000.00**
9. (a) Is reservoir to be used?
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Five (5)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks: To be used in connection with a Desert Land Entry filed with the Bureau of Land Management, Boise, Idaho

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ALFRED DUEROCK Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 10:00 A. M. April 12, 1954

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-24862

Recorded in Book 88 Page 24862 Approved April 13, 1954

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before June 13, 1954 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before October 13, 1956

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before April 13, 1959

Witness my hand this 13th day of April, 1954

Water License No. 24862/63-2986

Mr. Joseph F. Slowiak
6895 N. Tonty
Chicago, Illinois 60646

Dear Mr. Slowiak:

On December 3, 1969, this office issued you a Water License No. 31719 in connection with your wells located in Section 3, T.1N, R.1E, B.M., in Ada County, Idaho.

At the time this permit was being reviewed and the license prepared, we failed to recognize the prior license which had been issued to Mr. Guy R. Bradley for irrigation of part of the land from one of the wells.

I will therefore appreciate it if you would return the license that was issued to you so that it may be amended to properly reflect the prior right held for irrigation of a part of the land within the NE $\frac{1}{4}$ of Section 3.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

Dear Ted:

I am enclosing a draft of an application for permit to be used by the church in filing for additional water from the two wells on the church farm. Please review this application as to completeness before having it signed and returned with the filing fee of \$45. We particularly need the correct mailing address in paragraph one.

I would also suggest that you consider filing something with this office to indicate the church's interest in the two previous water licenses Nos. 63-2986 and 63-3404.

If there are any questions concerning this, please let me know.

Very truly yours,

R. KEITH HICCINSON

Boise, Idaho

Dear Mr. Bradley:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-24862 shows the well is (xxx) capable of conveying 46 miner's inches, or .92 c.f.s. of water for the irrigation of 100 acres.

Upon receipt of the statutory fees, totaling \$ 13.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 8.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of April 12, 1954 to the use of .92 second feet of subterranean water with the point of diversion in NE¹NE¹₄, Sec. 3 for domestic use and irrigation of 100 acres in the NE¹₄ of Section 3, Township 1 North, Range 1 East, B.M.

Since your permit does not include the SE¹NE¹₄ it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$11.00, and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Boise, Idaho

Dear Mr. Bradley:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Idaho Daily Statesman, all submitted in proof of completion of works and beneficial use on Permit No. G-24862.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Notary Public for Idaho, Residing at Boise, Idaho.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE
Notice is hereby given that at 10:00 A.M., on the 13th day of July, 1960, at Boise, County of Ada, State of Idaho, before Violet Owensby, Notary Public, at 1300 Main Street, Boise, Idaho, proof will be submitted of the completion of works for the diversion of water at the rate of per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24862, heretofore issued by the Department of Reclamation of the State of Idaho.
1. The name and postoffice address of the person or corporation holding said permit is GEO. N. CARTER, 2027 Latah Street, Boise, Idaho.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.4 cubic feet per second.
3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.
4. The point of diversion of said water is NE 1/4 NE 1/4 Sec. 3, T1N, R1E, BM.
5. The place where said water is used is N 1/4 NE 1/4, SW 1/4 NE 1/4, Sec. 3, T1N, R1E, BM.
6. The date of priority which said user is prepared to establish is April 12, 1954.
GEO. N. CARTER
State Reclamation Engineer.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G24862

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ~~Ray Warner News~~ Guy R. Bradley, 2027 Latah St., Boise, Idaho

Occupation is farmer and truck operator.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Personal application

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. G24862, dated 4-15-54 First water applied to beneficial use on June 28, 1960

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is underground water. The ~~6~~ 12 inch steel case well to a depth of 270 ft. is located approximately in center of NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 3, T. 1 N.R. 1 EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well is 12-inch diameter, cased with steel pipe to depth of approximately 30 ft. At the bottom of the well there was further casing of about 40 ft. of perforated steel casing. Water stands at approximately 190 ft. Discharge pipe from the pump was 6 inch in diameter, the pump is a Western Land Roller Company centrifugal pump, rated to pump 75 miner's inches of water under 75 h.p. The stream of water was thrown at least 5 ft. from this horizontal discharge pipe before it hit the ground

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. I propose to use this water to irrigate my 120 acre tract which is described as the N $\frac{1}{2}$ of the NE $\frac{1}{4}$ and SW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 3, T. 1 N.R. 1 EBM.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Russel Cowe, Boise, Idaho

G24862

RT

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Not applicable

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I applied for permit myself.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I would state that I have actually pumped 80 miner's inches of water from this well and have distributed over 80 acres of my land through a network and system of private ditches. Water was applied to beneficial use on 28th of June, 1960 and irrigated 20 acres of grain during first crop year.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have no other source of water for irrigation.

(Sign)

Gay B. Bradley

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in *Bain*, County of *Ada*,

State of Idaho, on this *13th* day of *July*, A. D. 19*60*.

BOISE, IDAHO

RECEIVED
JUN 25 1950
Department of Reclamation

Permit No. G24862

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert M. Jewell, age 55, Vice President Farmer Oil Wholesale Co.,
reside 4311 Franklin Rd., Boise, Idaho

Ques. 2. Are you acquainted with Guy R. Bradley, the
holder of Permit No. G24862? How long have you known him and where does
he reside?

Ans. ~~I am acquainted with Guy Bradley who resides 2027 Latah St.,~~
Boise, Idaho. Have known him for about 15 years.

Ques. 3. Have you read or heard read said Permit No. G24862, and are you
familiar with its provisions and conditions?

Ans. ~~I have read the permit and am familiar with provisions and~~
condition.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. ~~Source of water is underground water. Point of diversion is in the~~
~~NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 3, T. 1 N.R. 1 EBM. Works include a 12-inch cased well to a~~
~~depth of 270 ft into which well there is installed a Western Land Roller Company~~
~~centrifugal pump powered and operated by a 280 h.p. Buda diesel engine. There~~
~~are ditches for distribution from place of diversion to place of use throughout~~
~~the N $\frac{1}{2}$ of the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 3, T. 1 N.R. 1 EBM~~

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. ~~I would estimate that I have seen 80 inches of water being distributed~~

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. ~~I have seen the well, the pump and the 280 h.p. Buda engine. At~~
~~the time that I saw the well being pumped it was throwing a full stream of water~~
~~out of a 6 inch pipe to a distance of at least 5 feet from point of discharge~~
~~I also would estimate flow to be in excess of 80 miner's inches.~~

G24862

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. These waters were being diverted for irrigation purposes to grow crops. Mr. Bradley's place is a 120 acre tract and it is my judgment that his present system will carry the water over at least 80 acres of land. At the present time Mr. Bradley is in the process of constructing a pipeline to carry water to remaining 40 acre tract.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of land is clay type soil, is gentle rolling and slopes adaptable to flow irrigation. 5/8 of inch flow per acre should be adequate water supply.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was previously interested in this land myself as a possible project for reclamation through diversion of underground water. I am a close friend of Mr. Bradley and have been furnishing his truck operations with fuel for years and that during the progress of the drilling, testing and distribution of these waters I visited this property innumerable times out of personal curiosity for a property in which I was once interested.

(Signed)

Robert M. Jewell

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Bacon, County of Ada, State of Idaho, on this 13th day of July, A. D. 1960.

Permit No. G24862

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fay Warner Howard, age 42, farmer, 505 East Pine St., Meridian Idaho.

Ques. 2. Are you acquainted with Guy R. Bradley, the holder of Permit No. G24862? How long have you known him and where does he reside?

Ans. I am acquainted with him and he resides at 2027 Latah St., Boise, Idaho. Have known him about 8 years.

Ques. 3. Have you read or heard read said Permit No. G24862, and are you familiar with its provisions and conditions?

Ans. I have read it and am familiar with provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is underground water. Point of diversion is in NE $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 3, Twp. 1 N., R. 1 EBM. Works include a 12-inch cased well to a depth of 270 ft. into which well there is installed a Western Land Roller Company centrifugal pump powered and operated by a 280 h.p. Buda diesel engine. There are ditches for distribution from place of diversion to place of use throughout the N $\frac{1}{2}$ of the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 3, T. 1 N. R. 1 EBM.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen 80 ~~miner's~~ miner's inches of water pumped, which was not a full capacity flow, but is all ditches would handle.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount? The pump was guaranteed to deliver 75 inches with 75 h.p.. Mr. Bradley was using a 280 h.p. engine. The outlet pipe was a 6 inch pipe and the

Ans. stream was being thrown at least 5 feet from point of discharge. Based upon my years of experience of using irrigation water I would estimate the flow to have been in excess of 80 miner's inches.

J24862

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. These waters were being diverted for irrigation purposes to grow crops. Mr. Bradley's place is a 120 acre tract and it is my judgment that his present system will carry the water over at least 80 acres of land. At the present time Mr. Bradley is in the process of constructing a pipeline to carry water to remaining 40 acre tract.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of land is clay type soil, is gentle rolling and slopes adaptable to flow irrigation. 5/8 of inch flow ~~structure~~ per acre should be adequate water supply.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have had a curiosity as to the possibility of reclaiming the land involved and visited Mr. Bradley's property both during drilling of well, the testing thereof and the application to beneficial use. I have worked for Mr. Bradley and am close enough personal friend that I was interested in his project.

BY ATTORNEY

Mr. Guy R. Bradley,
2027 Latah St.,
Boise, Idaho.

Dear Mr. Bradley:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24862. The proofs are to be made at 10:00 o'clock A.M., on the 13th day of July, 1960, ~~1959~~, before Violet Owensby, 1900 Main St., Boise, Idaho, Notary Public.

As of this date we have mailed the Notice to the Idaho Daily Statesman with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G- 24862
Guy R. Bradley

Date: May 2, 1960

Judge C. E. Winstead
P. O. Box 1364
Boise, Idaho

Dear Judge Winstead:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 24862 are due not later than April 13, 1960

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Dear Mr. Duerock:

We enclose Permit No. G-24862 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we are sending to the Bureau of Land Management, two copies of this permit to be used in connection with your desert land entry.

We also enclose departmental receipt No. G-513 for \$7.50 which includes \$5.50 filing fee and \$2.00 for the extra copies.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 13th day of July, 1960, at Boise, County of Ada, State of Idaho, before Violet Owensby, Notary Public, at 1900 Main Street, Boise, Idaho, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24862, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Guy R. Bradley, 2027 Latah Street, Boise, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 3, T1N, R1E, BM.

5. The place where said water is used is N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 3, T1N, R1E, BM.

6. The date of priority which said user is prepared to establish is April 12, 1954.

GEO. N. CARTER

State Reclamation Engineer.

t—June 20, 27, July 4, 11.
