=====

This transfer has been made to add a new point of diversion to the above three licensed groundwater rights as well as to reflect that individual wells under the three rights are connected. The individual rights share the same points of diversion. Approval of the transfer is recommended with the conditions below.

- 1) <<T07>> The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- 2) <<T08>> Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- 3) <<T09>> Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

RE: Expedited Application for Drilling Permit
Application for Transfer of Rights 63-02980, 63-03336, 63-07267
Possible Application for Permit for Additional Water and Acres

Dear Mr. Tiegs:

Enclosed are the necessary applications needed to add a well to your farm. Please review the following forms: application for drilling permit, application for transfer of water right, and application for permit to appropriate the public waters.

To obtain an expedited drilling permit, you must at least apply for a transfer to add a well to the above listed licenses that irrigate the acres shown in green on the transfer map (page 9). The transfer application requires a notarized signature and \$50 fee. The drilling permit requires a non-notarized signature on two pages and a \$200 fee. As we discussed during your 2/25/91 office visit, only the Regional Manager can approve your request for the expedited drilling permit due to the ground water problems in the Dry Lake area.

Additionally, you may apply for a new water right for all four wells to irrigate 311 acres that are not covered by any ground water right. Please see the application for permit for 6.22 cfs (311") for 311 additional acres. If such an application is submitted, other items of concern must be addressed prior to approval of the application. Refer to the "Large Diversion Information Requirement" attachment. Many of the responses could be briefly summarized because the wells would provide supplemental irrigation and most of the system is already in place. I regret that I forgot to mention the added information required in a large diversion application during our recent conversation. The large diversion response is required for any application for a new right involving more than 5 cfs (250") and/or more than 200 acres. You could adjust the new application to any number of acres less than 311 and to any amount of water less than 6.22 cfs (311"). If you file this application, please sign it on the inside of the last page and submit the proper fee.

Upon receiving at least the transfer application, well drilling permit application, and \$250 fee, I will ask the manager to review the information and respond to your expedited drilling request. Please contact me if you need anything.

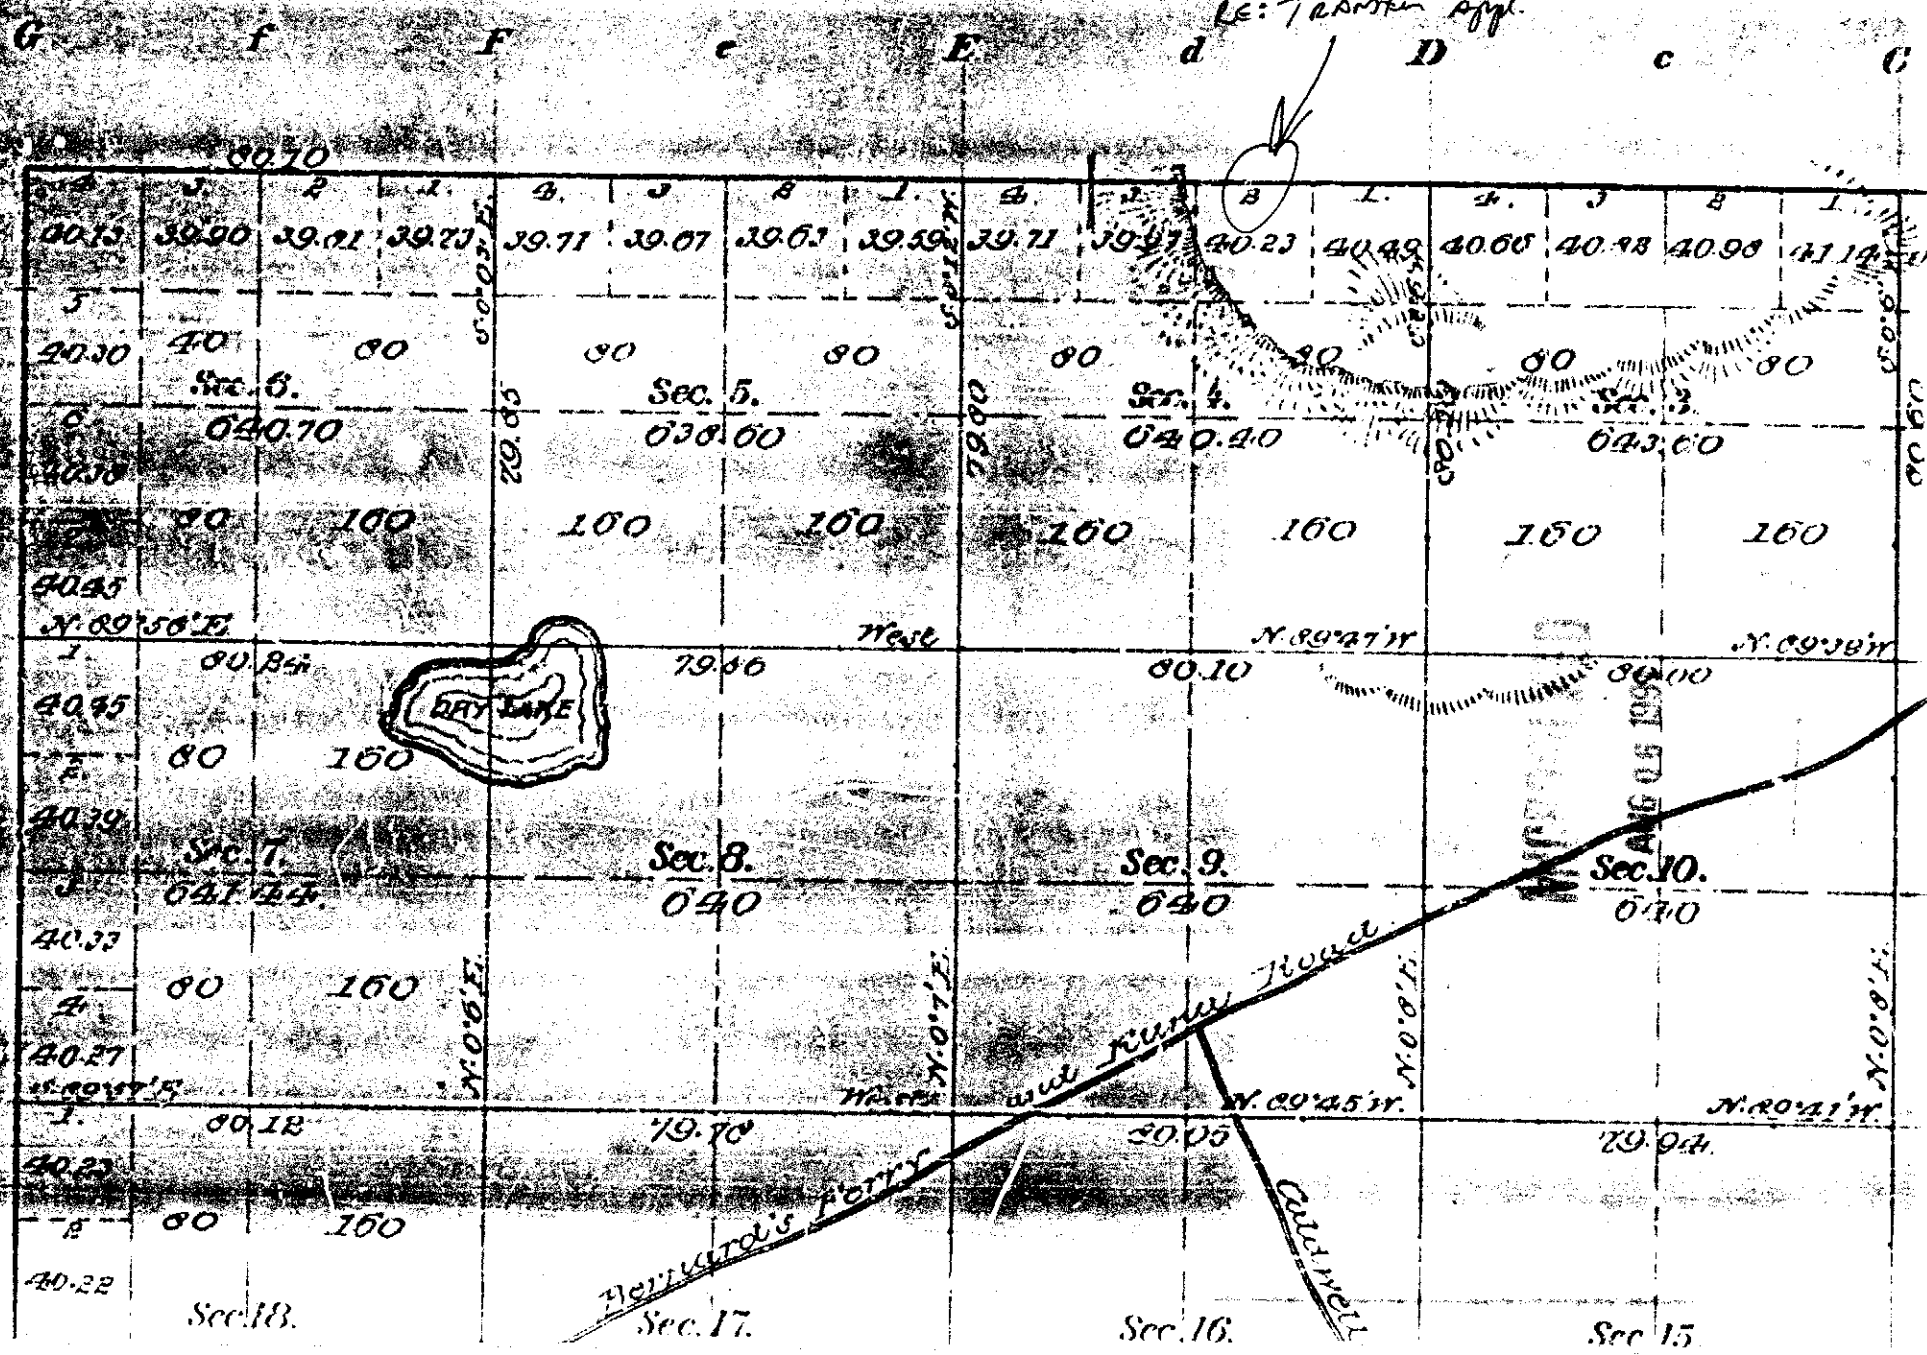

Sincerely,

Steve Lester

Re: Permit No. G-24688

Mr. Edwin P. Tieggs
Rt. # 4
Nampa, Idaho

Dear Mr. Tieggs:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24688. Final proofs are to be made before Dee Fischer, Notary Public, at First Security Bank, 101 11th Avenue South, Nampa, Idaho, at 10:00 A. M. on the 22nd day of January, 1959.

As of this date we have mailed the Notice to the Idaho Free Press, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary, that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CAPTER

RE: Permit No. G-24688

Date November 24, 1958

Edwin P. Tiegs
Rt. # 4
Nampa, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24688 are due not later than January 28, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
