Dear Mr. Haight:

We return Mr. Leon C. Jones' application for amendment to include an additional point of diversion in Permit No. G-24518 which has been approved by the State Reclamation Engineer and recorded in this Department.

We also enclose approval for extension of time for completion of works to October 9, 1956.

This should be attached to the original permit of which it now forms a part.

If the second well has been completed and Mr. Jones is prepared to make proof of completion of works and beneficial use at this time, he may do so but it is not really required until October 9, 1956.

Before these proofs are made, the law requires publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made.

The proof may be made at Caldwell or Boise or any place convenient for Mr. Jones but the time must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is authorization for us to have the notice published at applicants expense in the designated county newspaper.

Gentlemen:

24518

We enclose herewith application for amendment of water permit No. 25418 executed by Leon C. Jones. As discussed with you previously, this amendment is for the purpose of including a second well within the described area so that he may obtain and use the total of 80 inches of water originally applied for.

Inasmuch as Mr. Jones has been using this water to irrigate 80 acres of land this past season, upon approval of this amendment by the Department, Mr. Jones will be in a position to prove up on this permit and obtain his final papers. Therefore, as soon as the Department has given its approval of the amendment, we would appreciate your sending us the necessary papers so that we can assist Mr. Jones in proving up. Since Mr. Jones' permit does not expire until October 9th, it is our understanding that there will be no need for an extension of time, provided he gives notice of his desire to prove up within thirty days after October 9th. We also understand that since the irrigation season is over for this year, and the wells have been shut down, there will be no inspection by the Department until next spring. If we are in error regarding the time within which this proving up may be done, please let us know, and we will have Mr. Jones execute an application for extension of time.

Mr. Lloyd Haight

Dear Mr. Haight:

In making a recheck of Mr. Leon C. Jones' application for amendment to the point of diversion in Permit No. G-24518, we note what appears to be a typeographical error in the new location of the well.

The amendment shows the new location in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 13, Township 13 North, Range 4 West, B.M. We think this should be 3 North, Range 4 West, B.M.

If that is right, will you please correct the amendment and we will correct our office records accordingly.

Very truly yours,
