RE: Permits Nos. G-24423, G-24425+

Mr. Lon Bolen
Route 1
Eagle, Idaho

Dear Mr. Bolen:

We have had an inquiry as to the status of the above numbered Permits for wells, in the name of yourself and Zuma Bolen, together with a statement that you are awaiting measurement of these wells by someone from this department.

Perhaps you have misunderstood our letter of September 11, 1953, in which we sent you these permits. Although your application stated that the works were completed, we allowed the statutory minimum of two years or until September 2, 1955, within which to make your proofs of completion of works and beneficial use, but stated that these could be made at any earlier date that you were prepared to make them.

This department does not make an inspection to measure the wells and the land irrigated until after the proofs have been made.

If you are prepared to make the proofs at this time, we shall be glad to send you the necessary forms and instruction upon request.

Very truly yours,

MARK R. KULP
