Re: Water License No. G-24032

Mr. Rex S. Jensen
Melba, Idaho

Dear Mr. Jensen:

On September 15, 1959, we sent you the License and Certificate of Water Right No. G-24032 with other certificates.

Our copy of the license shows "Amount 2.4 c.f.s." at top, in the upper right hand corner, where the amount should be 0.97 c.f.s. to agree with the balance of the license and the engineer's report.

Kindly notify us immediately if your license shows the proper amount 0.98 c.f.s. and if it does not kindly return the license to this office in order that correction can be made.

Very truly yours,

Dear Mr. Jensen:

We enclose Certificates of Completion of Works and Licenses and Certificates of Water Right on Permits No. G-24032 and G-24421, also License and Certificate of Water Right on Permit No. 20584.

We also enclose departmental receipts No. G-4032 and No. 29726 in the amount of \$66.50 covering fees on four permits.

The license was not issued on Permit No. 20585, as we must have the affidavit showing Chrystal R. Evans is the same person as Chrystal J. Jensen. We have contacted the office of the Idaho Land and Map Service in connection with this and upon receipt of the affidavit the license will then be issued.

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

Enclosed is the Application for Amendment to Permit No. G-24032, as approved by the Acting State Reclamation Engineer and recorded in the Department of Reclamation in Book 85 of Permits at Page 24032 amending the list of land as described on record to read as follows: "Township 1 South, Range 2 West, B.M. Section 25: N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$; Section 26: N $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, making a total of 280 acres". This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

Dear Mr. Jensen:

This acknowledges the depositions of Holder and two Witnesses and the Affidavit of Publication in The News Tribune, in proof of completion of works and beneficial use under Permit No. G-24032.

Before a permit can be licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Permit No. G-24032

**Proof of Application of Water to Beneficial Use
and Completion of Works**

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Rez S. Jensen, residence 2 miles north and 2 miles west of Melba, Idaho. Occupation is farming and P. O. Address is Melba, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #G-24032, date of permit is May 2, 1953 and the date of priority is April 24, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well, drilled to a depth of 800', cased 200' with 12" casing. The depth of the water is actually 50'. This is equipped with 30 h.p. motor and discharge of pump is 75". SW. NW. Sec. 25, T. 1 S. - R. 2 W.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The ditches from this well are capable of carrying 150" of water. There are probably 3½ to 4 miles of ditches. Everything is by gravity irrigation. No sprinkler system. I measured this discharge by a Sipoletic Wier.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. I irrigate 10 acres in the NE ¼ SW ¼ of Sec. 25, 20 acres in the NW ¼ SW ¼ and 8 acres in the NE ¼ SE ¼ of Sec. 26. I have spent between \$4,000 and \$5,000.00 for this particular development. As a matter of fact the entire well for the whole project has been around \$10,000.00 but the proportionate share to this land that I am irrigating is around \$4,000.00 or \$5,000.00.

Also in Section 26, NW ¼ NE ¼, 15 acres irrigated, NE ¼ NE ¼, 15 acres, SE ¼ NE ¼, 30 acres. In Section 25, SW ¼ NW ¼, 10 acres irrigated, in T. 1 S. - R. 2 W., B.M.

24032

Ans Only for irrigation.

Ans. This is the minimum amount of water that can be applied. I need 1" to the acre here
as some of this water goes on some other land.

Ans. I am not the person who took this out. George McDonough actually took this out. I purchased the land with all the water rights and I have furnished a deed to Dept. of Rec.

Ans. This well was drilled sometime ago, just as soon as the permit was allowed, and I have put it to beneficial use during all the period. The actual land here was in the entry of George McDonough, my son-in-law and have used this water on the land for several years during the entire period of the permit.

Ans. Under Permit #20581, part of this land is covered by a pond. This is the only

Permit No. G-24032

Proof of Application of Water to Beneficial Use
Deposition of Witness
and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Jerome Evans, age 42, residence 1515 North 11th St. Occupation insurance.
P. O. Address is 1515 North 11th St., Boise, Idaho.

Ques. 2. Are you acquainted with Rex S. Jensen, the holder of Permit No. G-24032? How long have you known him and where does he reside?

Ans. I have known him for over 15 years and I know he lives 2 miles north and 2 miles west of Malba, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-24032, and are you familiar with its provisions and conditions?

Ans. Yes. 2

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Drilled well. This is drilled to 800', cased 200' with 12" casing. This is equipped with 30 h.p. motor. The ditches are 3 1/2 miles in length and adequate to carry all the water conveyed here.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 150" and I have seen this much conveyed

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the water here and I estimate it delivers 75". I have seen the land irrigated and I know about what the well does pump.

24032

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. in T 1 S - R 2 W, Sec. 25, SW¹/₄NW¹/₄, 10 acres, NE¹/₄SW¹/₄, 10 acres, NW¹/₄SW¹/₄, 20 acres. In Section 26, NE¹/₄SE¹/₄, 8 acres, SE¹/₄NE¹/₄, 30 acres, NE¹/₄NE¹/₄, 15 acres, NW¹/₄NE¹/₄, 15 acres. This is all cultivated land, and all improvements made have been a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

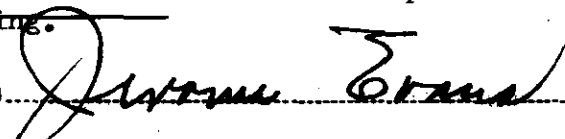

Ans. Good lava ash soil and raises good crops when it is irrigated. You can't raise anything unless you work the soil and put artificial water on it. It takes at least 1" to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

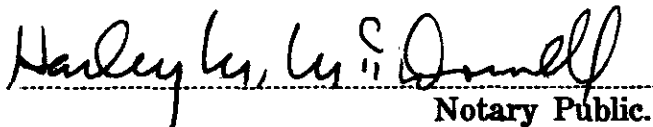

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I originally did surveying down here for Rex and helped him on his crop improvement plan when this started, and I have been familiar with it through all this time. I have gone down there probably once or twice a year since that time. I usually hunt on that in the fall and I have occasion to see the crops that are raised and I have seen the water this is producing.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Mervin J. Christensen, age 46, residence 1803 Larch St., occupation is
appraiser, P. O. address is 1803 Larch St.

Ques. 2. Are you acquainted with Rex S. Jensen, the
holder of Permit No. G-24032? How long have you known him and where does
he reside?

Ans. I have known him for the last 12 years and know that he lives 2 miles north
and 2 miles west of Melba, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-24032, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion and describe works for con-
veying water from point of diversion to place of use.

Ans. From a drilled well, drilled to a depth of 800'. This is cased 200' with a
12" casing. This is equipped with a 30 h.p. motor. This is all by gravity and
the ditches are between 3 $\frac{1}{2}$ and 4 miles in length.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. They will adequately conduct 150" here, because they conduct other water as
well as this.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the water produced here and I would guess, knowing the land and
seeing the land surveyed, that it waters the land adequately and he has a surplus,
and I have seen the water running through the ditches and from my experience in
seeing water irrigating land, I think it is 75".

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

T 1 S - R 2 W., B.M.

Ans. Irrigation. In the NE¹/₄NE¹/₄, 15 acres, NE¹/₄NE¹/₄, 15 acres, SE¹/₄NE¹/₄, 30 acres, NE¹/₄SE¹/₄, 8 acres, all in Section 26. In Section 25, SW¹/₄NW¹/₄, 10 acres, NE¹/₄SW¹/₄, 10 acres and NW¹/₄SW¹/₄, 20 acres. There is no natural meadow land, and all improvements have been a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No Power. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a good sandy clay loam soil, very productive when irrigated but it requires artificial irrigation and you need at least 1" to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I originally helped measure out this land and worked with Rex on setting up these works when he started and I have had an opportunity to see this several times since then, and I know it is all in good order, and he has developed land from this irrigation.

RE: Permit No. Q-24032

Date March 1, 1958

Mr. Geo. Edward McDonough
% Rex Jensen
Malba, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. Q-24032 are due not later than May 2, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
