Water District No. _____

Priority December 12, 1952

THIS IS TO CERTIFY that E. HUGH McNICHOLS
of Rt. 1, Meridian, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 12, 19 52; that Permit No. G-23387
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
.24 second feet, was issued thereunder on January 29, 19 58, showing that said works
were completed on the 5th day of October, 19 57; and that on the 5th
day of October, 19 57, E. HUGH McNICHOLS

of Meridian, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of an artesian
well, a tributary of subterranean, for the purpose of Irrigation and domestic
use, under Use Permit No. G-23387 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6256 on the 29th day of January, 19 58;
The right hereby confirmed dates from December 12, 19 52;

The Point of Diversion is located
in the NE 1/4 SW 1/4, Sec. 19, Tp. 4 N., R. 1 W., B. M. County Ada

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .24 cubic feet per second

Description and location of use:

APPLICATION FOR PERMIT 63-2917

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 31160
Permit No. G- 23387
District No.

1. Name of Applicant: **E. HUGH McNICHOLS**
Postoffice address: **Rt. 1, Meridian** County: **Ada** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **0.5** or Idaho
Miners' inches **25** or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum **125**
3. Source of water supply: **Subterranean (artesian)**
4. Location of point of diversion or well is in the **NE** $\frac{1}{4}$ of the **SW** $\frac{1}{4}$ of Section **19**
Twp. 4 N., Rge. **1 W.**, B.M., County of **Ada**
5. Water is to be used for: **Irrigation, domestic, stock water, fire protection**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: **Cased well, 3" diameter X 570 ft.**
8. Estimated cost of works: **\$ 1,970.00**
9. (a) Is reservoir to be used? **No**
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Five(5)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **Water right under Pioneer Irrigation Dist.**
 - (a) **7/10" per A.** (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Bv _____ **Agent.**

Re: Permits No. G-23387 & G-23132

Mr. E. Hugh McNichols
Route #1
Meridian, Idaho

Dear Mr. McNichols:

This confirms receipt of the relinquishment of Permit No. G-23132.

Enclosed is the Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-23387, confirming the right with priority of December 12, 1952, to your use of .24 second feet of water from an artesian well, with the point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, for irrigation of 12 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, Township 4 North, Range 1 West, B.M.

Enclosed also is departmental receipt #G-3112 for \$7.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and two dollars for the License fee.

Very truly yours,

M. H. R. KULP

Re: Permits No. G-23387 and G-23132

Mr. E. Hugh McNichols
Route # 1
Meridian, Idaho

Dear Mr. McNichols:

Our field engineer's report on the inspection of the completion of works and application of water to beneficial use under the terms of Permits No. G-23387 and G-23132 shows that your well is capable of conveying .24 cubic foot per second (12 miner's inches) of water for irrigation of 12 acres. This amount is divided between the two permits -- .16 c.f.s. under Permit No. G-23387 and .08 c.f.s. under Permit No. G-23132. These permits are now entitled to the Certificate of Completion of Works and the Licenses and Certificates of Water Right.

Statutes require licenses to be consecutively numbered, each with its own priority date.

Upon receipt of the statutory fees, totaling \$12.00, we will issue the Certificate of Completion of Works and the License and Certificate of Water Right for each permit (five dollars for each Certificate of Completion of Works and two dollars for a license for each) as follows: Permit No. G-23387, with priority of December 17, 1952, for the use of .16 second foot of water and Permit No. G-23132, with priority of October 21, 1952, for the use of .08 second foot of water, all showing the point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, for irrigation of 12 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, Township 4 North, Range 1 West, B.M.

OR: Permit No. G-23132 can be relinquished and withdrawn and G-23387 issued for .24 c.f.s., with priority of December 12, 1952. The fee would then be \$7.00--(five dollars for the Certificate of Completion of Works and two dollars for the License).

We have enclosed a form for Relinquishment which you may want to sign, before a witness, and return it.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-23387This proof is for Completion of Works & Beneficial Use In Water District No. _____1. Name of applicant E. Hugh McNichols2. Source of water supply: Artesian Well3. Location of point of diversion: Is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19T. 4 N., R. 1 West County of Ada

4. Describe works as they exist, giving dimensions and capacities of same: Well is 4" x 570' cased 535' drilled in 1952 by well. No pump house - no protection. 4" pipe extends above ground approx. 2 feet. 3" pipe with gate valve discharges to NE into a sump concrete 3' x 4' with 15" concrete line 165' long to west into regular irrigation ditch.

5. Water is used for: Domestic and Irrigation, stock water & fire protection6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 19, Twp. 4 North, Range 1 West - 25 Acres

There is also 1" line connected to well below ground leads to house, cattle trough, chinchilla pens and yard. House has full plumbing - no intermediate tank - uses well pressure (25') only.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

G-23132 is dropped in order to get all water on one license.

This examination was made on the 23 day of December, 19 57(Signed) E. H. Humphrey Examiner.

L 23387

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit Nos. G-23132 and G-23387

Mr. E. Hugh McNichols
Route # 1,
Meridian, Idaho

Dear Mr. McNichols:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavits of publication in the Idaho Daily Statesman, all submitted in proof of completion of works and water to beneficial use on Permit No. G-23132 and Permit No. G-23387.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. G-23387

Proof of Application of Water to Beneficial Use

Deposition of Holder and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. E. Hugh McNichols R1 Meridian Idaho
Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-23387 -> Dec. 17 1957 Dec. 12, 1952

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 19 T4N R1W
Point of diversion NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 19 T4N R1W

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Source is artesian well 4 inch casing
570 ft deep. Works of diversion is 160 ft
of concrete tile "15 inch" and open ditch
pressure of well is approx. 12 $\frac{1}{2}$ lbs.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic & irrigation use. water will
irrigate, substitute for canal water right, or add to
canal water right for 12 acres. - house, lawn
and garden use also fire protection is a direct
result of well. All land irrigated is diversified
in meadow or row crop.

Where? NE, SW, Sec. 19, 4N. - 1W. 25 acres

A23387

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water is used also for house use, stock use, fire protection, etc.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. uncertain as to amt. used

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Same

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Well has been used for domestic use stock use & for protection for 5 yrs. The amount is uncertain. Also for irrigation since Oct 1, 1937. have used full flow when needed.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Regulation 7 inches awft. of Pioneer water has been used for several yrs. with this additional water, I can shift water to other parts of farm when needed.

(Sign)

Permit No. G-23387

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. S. W. Matthews Middleton, Idaho 65 yrs. old

Occupation - Poultryman

Ques. 2. Are you acquainted with E. Hugh McNichols, the holder of Permit No. G-23387 and how long have you known him and where does he reside?

Ans. I have known E. Hugh McNichols for over forty years and he now lives 1 1/2 miles south of Star Idaho and 1/2 mi. west. It is

officially on the N.E. 1/4 SW 1/4 Sec. 19 TW 4N R 1W

Ques. 3. Have you read or heard read said Permit No. G-23387 and are you familiar with its provisions and conditions?

Ans. YES

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. NE 1/4 SW 1/4 Sec 19 TW 4N R 1W Water is conveyed by a 15" concrete tube 160' long and an open ditch

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen the entire flow of the well going through the tube

on the land and it will handle several times the amount of water

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. The source is an Artesian well, a 4" well with aprox. 12 1/2 lbs pressure

823387

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic use stock, fire protection and irrigation. Water can be used as supplementing, substituting or used alone as irrigation for approx. 12 acres of farm land. The above improvement will add a great deal to the value of the land and assure a better water supply on this farm as irrigation and domestic use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Natural pressure is used in house, to stock, garden irrigation

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Water under this permit will assure sufficient water for row crop or for any crop desired as it can be used alone, added to old water right or substituted for old water right.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Since completion of above works, I have seen the water from this well, flow into the ditch and onto the field.

(Signed)

Stanley Matthews

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Ada County of Ada, State of Idaho, on this 5th day of October, A. The water is conveyed through a 15" concrete tube 160' long
and an open ditch on to the field

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen the entire flow of this well flowing through this
tube and it will handle several times this amt.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. This Artisian well is a 4" well with approx. 12 1/2 lbs. pressure.

d 23387

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for domestic purposes, for live stock, fire protection and for irrigation. It can be used alone as irrigation can be substituted for the old ditch water right or can be used with the ditch water right on aprox 12 acres. This will assure sufficient water at all times and add a great deal to the value of this land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Natural pressure to the house, to the stock and on the garden.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This water flows on to some of Ada Co. best soil and will assure sufficient water at all times for any type of crop desired

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Since the completion of this works, I have witnessed the entire flow of this well as it flowed on to the land

(Signed)

W. J. Schmidt

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Star County of Ada, State of Idaho, on this 5th day of October, A. D. 1957.

Re: Permit Nos. G-23132
G-23387

Mr. E. Hugh McNichols
Rt. # 1,
Meridian, Idaho

Dear Mr. McNichols:

This acknowledges receipt of the notice of proofs of completion of works and application of water to beneficial use, under Permit Nos. G-23132 and G-23387, to be made at Star, Idaho, at 10:00 A. M. on the 5th day of October, before Sibyl Rudisell, Notary Public.

Today we have sent the notice to the Idaho Daily Statesman with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then send the affidavit of publication and statement of costs to you.

At 10:00 A. M. on the 5th day of October, at Star, Idaho, you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder must appear before Sibyl Rudisell, Notary Public to execute the enclosed depositions.

When returning the depositions to this office please be sure to include the affidavit of publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
