— LEGAL NOTICE —

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 7th day of November, 1957, at Parma, County of Canyon, State of Idaho, before Ernest Anderson, a Notary Public, proof will be submitted of the completion of works for the diversion of .60 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G.23209 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Jesse Transue.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is .60 cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is .60 cubic feet per second.

4. The point of diversion of said water is within the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Twp. 5 North, Range 5 West of Boise Meridian, Canyon County, Idaho.

5. The place where said water is used is upon the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Twp. 5 North, Range 5 West of the Boise Meridian, Canyon County, Idaho.

6. The date of priority which said user is prepared to establish is November 1, 1952.

REPORT OF ENGINEER

Permit No. G-23209

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Jesse Transue

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 31

T. 5 N R. 5 W., B.M. County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same: 12" x 58' well
ced to bottom. Peerless turbine pump. Driven by a
Stationary Gas Engine Unit (Case). Main line is 4"
steel (buried) laterals are $\frac{1}{8}$ in. long 3" port. Al.
32 - $\frac{1}{8}$ x $\frac{3}{16}$ nozzles.

H = 20 feet. Draw down to bottom of well.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

40 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 31., Twp. 5 N., Rge. 5 W., B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: _____

He has more motor and pump than he has water.
All sprinklers operate well but pressure is
only 20" at head of lateral. 25 inches is max.
for today's operation.

This examination was made on the 18 day of February, 1953

INSTRUCTIONS TO EXAMINERS

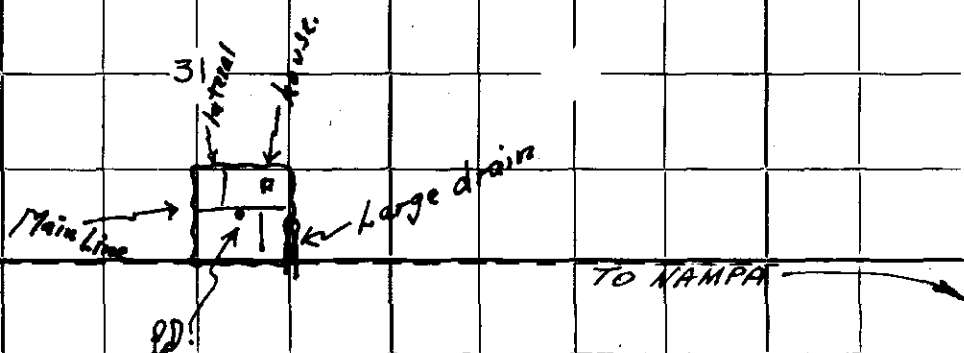

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RECEIVED
NOV 8 1957

Department of Reclamation

November 7, 1957.

Department of Reclamation,
State of Idaho,
Mark R. Kulp,
State Reclamation Engineer,
Boise, Idaho,

Dear Sir:

Re: Permit G-23209.
Application No. G 36980.
Jesse Transue,
R#2. Parma, Idaho.

Yesterday, in my office, appeared the holder, Jesse Transue, and his two witnesses, namely, J. T. Bittiek and F. R. Dunaway, on depositions of application of water to beneficial use and completion of works. The hearing was held yesterday, November 6th, at 10:00 A. M.,

There are enclosed the following instruments in regard thereto, to-wit:-

1. Deposition of Jesse Transue, holder
2. Deposition of J. T. Bittiek, witness
3. Deposition of F. R. Dunaway, witness
4. Affidavit of Publication.

If there is further data that you need, let me know and I will endeavor to supply the same. I have never seen the land or the pumping plant, and am not familiar with the same in any respect.

If there are any further charged let me know, and I will collect from Mr. Transue and forward the same to you.

I notice a discrepancy in the date as shown in the published notice. It gives the time of hearing as of November 7, 1957, at 10:00 A. M. It was actually held at 10:00 A. M., on November 6th, 1957. This is now the afternoon of November 7th, and no one has appeared as of this date, and if you should need an affidavit to the effect that no one appeared in opposition thereto on the 7th, I will make such an affidavit for you.

Very truly yours,

Ernest Anderson

Permit No. G - 23209

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jesse Transue, P. O. Box 122, Parma, Idaho, (Now on R#2) Parma.
Well Driller and Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. No corporation-An individual only.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23209 November 6th, 1952. Dated of Priority-Nov. 6th, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground. Water to be developed by means of a pump operated with L. P. Gas. Point of location of well-in exact center of the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Township 5 North, Range 5 West of Boise Meridian

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. One -5 inch Peerless Pump. Will pump 50 inches. Well is a 12 inch steel casing, having a depth of 58 feet, with the water coming 20 feet from the surface. No canal. Water is conveyed from pump site to the land by means of private ditches after it has been put on the land by means of a sprinkling system. Number of nozzles not definatedly determined. Operate at a 40 pound pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation, on the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Twp. 5 N. R. 5 W. of B. M. Canyon County, Idaho. Acreage 40. Cultivated land. Land cleared, and one-half of it leveled. One 14x24 building erected, and a deep well dug therean. This deep well is used for household use, and is 350 feet deep and has a 6 inch casing.

G-23209

RMS

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation purposes only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Forty inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not a corporation.

Ques. 10. State when, how, in what amount and to what extent the water, diverted under above mentioned permit has been used.

Ans. Now ready for application in the Spring of 1958.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None-~~No~~ other water for said lands now. This land was originally under the Wilder Irrigation District, but later the land taken out from said district, for water purposes, and there is no ne water right for the same, now.

DEPARTMENT OF RECLAMATION
Department of Reclamation

Permit No. G 23209

Proof of Application of Water to Beneficial Use

Deposition of Witness *and Completion of Works*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. F. R. Dunaway, legal age, On Rural Route #3, Parma, Idaho.
P. O. Address: R#3, Parma, Idaho. Occupation-Farmer.

Ques. 2. Are you acquainted with Jesse Transue, the holder of Permit No. G 23209? How long have you known him and where does he reside?

Ans. I have known him for about 25 years. He now resides on a farm on R#2, Parma, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 23209, and are you familiar with its provisions and conditions?

Ans. It was read to me by Mr. Anderson. I am familiar with it.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water comes, or is to come, from a well 58 feet deep-Cased with a 12 inch casing-full depth. A 5-Inch Peerless Pump has been installed and is operated with L-P Gas. Water is to be distributed over the land under a 40 inch pressure by means of a sprinkling system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Oh, I estimate 40 to 50 inches. I have observed it in operation.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Just estimated it. Forty to fifty inches.

G-23209

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation purposes. The well is located in the approximate center of the SW₁ of the SE₁ of Sec. 31, Twp. 5 N. R. 5 W. of B. M., Canyon Co., I believe the said pumping plant will irrigate the same Cultivated land. Pumping plant installed... a cement building has been built on the land and a deep well, 350 feet deep dug for household water.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation. No power.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is of a sandy nature. It has been cleared, and a portion thereof leveled. It will take about an inch to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest in the same.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All I have seen is the pumping plant in operation. It is a good outfit.

(Signed)

F. R. Danaway

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Parma County of Canyon, State of Idaho, on this 6th day of November, A. Proof of Application of Water to Beneficial Use

Deposition of Witness *and Completion of Work*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. T. Bittick, Age 73 years, R#1, Parma, Idaho,
Dairyman,

Ques. 2. Are you acquainted with Jease Transue, the holder of Permit No. G 23209? How long have you known him and where does he reside?

Ans. I have known Mr. Transue for about 30 years. He resides
on R#2, Parma, Canyon County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 23209, and are you familiar with its provisions and conditions?

Ans. Yes. I am.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From a well. Place of diversion in the center of the SW $\frac{1}{4}$ of the
SE $\frac{1}{4}$ of Section 31, T. 5 N. R. 5 W. of B. M.. The irrigation works
consists of a well 58 feet deep, drilled with a 12 inch steel casing
operated with a 5 inch Peerless Pump. Water distributed by means
of a sprinkling system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. One second foot (50) inches. Yes, I have observed the pump
in operation.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. About 40 inches. Estimated.

J. 23209

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water to be used for irrigation. On the following described
lands, and none other, to-wit:- SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Town-
ship 5 North, Range 5 West of the Boise Meridian, Cultivated land,

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is sandy, and forty inches are necessary to
raised crops thereon.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Non interest whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the pump in operation.

Jesse Transue-Applicant
P. O. Box 122-Parma, Idaho.

I am enclosing herewith notice authorizing publication of NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE, in the above matter.

I will personally guarantee the publication costs.

Also, there is enclosed the original, for your signature and use, of the above designated NOTICE, etc., a copy of which has today been given to THE PARMA REVIEW, the local weekly newspapers, with instructions to publish the same in the next four issues, namely,

October 10th
October 17th
October 24th
October 31st

after which I am to be furnished the usual form of affidavit of publication to be sent you when proof is made. If, however, you have a particular form for making this affidavit of publication, the same should be sent to me, together with such necessary forms as I will need when making the proof on November 6th, 1957.

I appreciate it very much that you authorized me to have publication made before you received the instructional letter, with the original of the NOTICE, etc.

I'll take all chances and guarantee publication costs.

If you have presently any further requirement as to a cash deposit, let me know and I will send it along.

Very truly yours

Ernest Anderson

DEPARTMENT OF RECLAMATION

RE: Permit No. G-23209

Date September 1, 1957

Mr. Jess Transue
P.O. Box 122
Parna, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23209, are due not later than November 6, 1957.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice of proof published in the designated county newspaper, at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-23209
Jesse Transue

Mr. Ernest Anderson, Attorney at Law
Parma
Idaho

Dear Mr. Anderson:

In reply to your letter of August 27, 1957, our records show that Mr. Jesse Transue requested two (2) years for making proof on this Permit No. G-23209.

The maximum time allowed for completing the works on a subterranean permit is five (5) years.

Therefore, an extension of time was granted by this office for three (3) additional years, or from November 6, 1954, to November 6, 1957, which is the maximum time that can be allowed according to statutes.

Very truly yours,

MARK R. KULP

G-23209

Permit No. G-23209

Application for Extension of Time

FOR COMPLETION OF WORKS

Jesse Transue, of ParmaState of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. G-23209

Under the terms and conditions of said permit, construction work thereunder was required to be completed by November 6th, 19 54

That he has heretofore performed the following work described under said permit:

That a eight inch well, sixty-two feet in depth, has been drilled on the farm described in the said permit. The said well has an eight inch casing in the same to the full depth of the said well; that as, yet, because of lack of finances, the pumping equipment and the distribution system has not been installed costing \$ 558.00

THAT he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

That this question is answered above, but by way of repetition, your permit holder has not been able to apply the water to beneficial use because of lack of funds to purchase a pumping system, such as the pump and electric motor and the pipe line distribution system.

WHEREFORE, He asks that the ~~Commissioner of Reclamation~~ ^{State Reclamation Engineer} extend the time for the completion of construction work under said permit, to November 6, 19 57

G-23209

ERNEST ANDERSON

ATTORNEY AT LAW
PARMA, IDAHO

RECEIVED
NOV 10 1954
Department of Reclamation

November 9, 1954.

Mr. Mark R. Kulp,
State Reclamation Engineer,
State of Idaho,
Boise, Idaho,

Dear Sir:

Re: Permit No. G-23209.
Jesse Transue-Box 122,
Parma, Idaho.
Permit Holder.

Mr. Jesse Transue has to-day been in to see me about the matter of making proof of completion of works and the application of water to beneficial use. He had with him your letter of September 1, 1954.

I note by this letter that proof was to have been made by November 6, 1954, which date is now past.

In this connection I will state, according to Mr. Transue, that he drilled an eight inch well on his land in Arena Valley (the exact description which you have on the application in your office). This well is to a depth of about sixty feet, with apparently a lot of water therein, altho it has never been pumped out so one cannot tell if the water will hold out. Nothing further has been done with this well other than the drilling of it, as aforesaid. The water has not been put to beneficial use.

The Transues' do not, presently, have the necessary money to buy the pumping and motor equipment, and to buy and install the necessary irrigation sprinkling system, which accounts for their inability, at this time, to make proof of completion of the works and the application of the water to beneficial use.

I am wondering if it will be possible for them to get an extension of time to make these proofs? If so, I will appreciate you sending me the necessary blanks, with instructions. Very truly yours,

Ernest Anderson

— LEGAL NOTICE —

**NOTICE OF PROOF OF COM-
PLETION OF WORKS AND AP-
PLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M., on the 7th day of November, 1957, at Parma, County of Canyon, State of Idaho, before Ernest Anderson, a Notary Public, proof will be submitted of the completion of works for the diversion of .60 cubic feet per second of underground waters from a well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G.23209 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Jesse Transue.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is .60 cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is .60 cubic feet per second.

4. The point of diversion of said water is within the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Twp. 5 North, Range 5 West of Boise Meridian, Canyon County, Idaho.

5. The place where said water is used is upon the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 31, Twp. 5 North, Range 5 West of the Boise Meridian, Canyon County, Idaho.

6. The date of priority which said user is prepared to establish is November 1, 1952.
