Dear Mr. Schober:

Enclosed is a partially completed Application for Transfer of Water Right No. 63-2907. This transfer, once approved, adds your new well located in the NE1/4NE1/4, Sec. 9, Twp. 2N, Rge. 2W.

This transfer is the result of a field examination for Permit No. 63-8672, conducted by Carter Fritschle on September 22, 1987. At that time Carter found the new well was being used to irrigate approximately 8.2 acres covered under your older license. Since your older well had originally been licensed for this ground, and the new well drilled later to supplement a decrease in output of the older well, the new well can be added to this license, giving it a priority date of 8/27/52 for the irrigation of the 8.2 acres. Your Permit No. 63-8672 will then cover the additional 23 acres not included on the license.

Please review this transfer application, and if all is as you would like, have your signature notarized and return the application to this office for processing. There is a filing fee of \$50 for a transfer application which must also be mailed in with the form. If you have any questions concerning this letter, please feel free to contact me.

Sincerely,

JAN SHURTE
