MEMORANDUM

TO: File 63-02906
FROM: Sharla
DATE: June 15, 1992
RE: Transfer Review (No. 3936)

The above referenced transfer application proposes to change the point of diversion (well) under this right. Since this filing is for the change in point of diversion only, the standard conditions requiring the change to be accomplished within one year will not be added.

Advertising was completed correctly. Proof of ownership is not required.

There is no evidence in the file that the holder has obtained a drilling permit, therefore, the standard condition regarding drilling permit requirements will be added. The holder states that the old well will be abandoned - a condition to this effect will also be added.

The transfer can be approved with the following conditions:

T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

If construction of the well under this right was not initiated prior to July 1, 1987, commencement of well construction or diversion of water under this right is prohibited unless a drilling permit is obtained from the Department.

The well previously used to divert water in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, Twp. 2N, Rge. 3W will be abandoned in a manner approved by the department.

Re: Permit No. G-23012

Mr. Donald W. Frost
Route # 5
Nampa, Idaho

Dear Mr. Frost:

Our field engineer's report on the completion of works and application of water to beneficial use under the terms of Permit No. G-23012 shows that your well is capable of conveying 80 miner's inches (1.6 c.f.s.) of water for irrigation of 140 acres located in the S $\frac{1}{2}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 34, Township 2 North, Range 3 West, B.M. The record of the permit does not list the land in the S $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 34, therefore, it is necessary that it be amended. We have enclosed an application for amendment for your signature and ask that you return it.

Upon receipt of the amendment, mentioned above, and the statutory fees totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of August 27, 1952, to your use of 1.6 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 34, for irrigation of 140 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 34, Township 2 North, Range 3 West, B.M.
