NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE
Notice is hereby given that at 10
A.M. on the 10th day of December,
1956, at Boise, County of Ada, State
of Idaho, before Harley M. McDow-
ell, Notary Public proof will be sub-
mitted of the completion of works
for the diversion of 2.4 cubic feet per
second of the waters of subterranean
source and of the application to ben-
eficial use of said water, in accord-
ance with the terms and conditions
of Permit No. G-22504 heretofore is-
sued by the Department of Recla-
mation of the State of Idaho.
1. The name and postoffice ad-
dress of the person or corporation
holding said permit are Marvin R.
Cuddeback, Rt. 4, Caldwell, Idaho.
2. Said works of diversion will be
fully completed on the date set for
such completion, and the amount
of water which said works are cap-
able of conveying to the place of
use, in accordance with the plans
accompanying the application for
such permit, is 2.4 cubic feet per
second.
3. The use to which said water has
been applied is irrigation purposes,
and the amount applied to beneficial
use is 2.4 cubic feet per second.
4. The place where said water is
used is SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Section
32, T 3 N-R 3 W., B.M. Pt. of Diversion,
SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. T 3 N-R 3 W.,
B.M.
5. The date of priority which said
user is prepared to establish is

THIS IS TO CERTIFY that **MARVIN R. CUDEBACK**
of Route # 4, Caldwell, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 4, 19 51; that Permit No. G-22504
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.26 second feet, was issued thereunder on June 5, 19 57, showing that said works
were completed on the 8th day of December, 1956; and that on the 8th
day of December, 1956, **MARVIN R. CUDEBACK**

of Caldwell, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
subterranean ~~perennial~~ flow, for the purpose of Irrigation

, under Use Permit No. G-22504 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

10 of Licenses at page 6005, on the 5th day of June, 19 57;

The right hereby confirmed dates from December 4, 19 51;

The Point of Diversion is located

in the NW 1/4 SW 1/4, Sec. 32, Tp. 3 N., R. 3 W., B. M. Canyon County Canyon

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.26 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
3 N.	3 W.	32	SE 1/4 NW 1/4	40	20
			NE 1/4 SW 1/4	40	38
			NW 1/4 SW 1/4	40	37
			Total number of acres irrigated - - -		95

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

5th day of June, 19 57.

APPLICATION FOR PERMIT 63-2887

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-30245
Permit No. G- 22504
District No.

1. Name of Applicant: MARVIN R. CUDDEBACK
Postoffice address: Rt. 4, Caldwell County: Canyon State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 2.4 or Idaho
Miners' inches 120 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean, raised through a drilled well, by pumping
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 32
Twp. 3 N. , Rge. 3 W. , B.M., County of Canyon
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well, cased and equipped with a turbine type pump, distributed through sprinkler system
8. Estimated cost of works: \$5,000.
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five(5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Idaho as herein set forth.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. G-22504							
Comes now MARVIN R. CUDEBACK and represents to the State Reclamation Engineer of the State of Idaho; That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22504. That the point of diversion is described in said permit as being located SE¹/₄NW¹/₄, Section 32, T. 3 N., R. 3 W.B.M. That he now requests that the point of diversion be changed to a point located NW¹/₄SW¹/₄, Section 32, T. 3 N., R. 3 W.B.M. That his reasons for desiring to make such change are as follows: This is a more feasible well site. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Boise, this 10th day of December 1956 Marvin R. Cuddeback /s/ Date of receipt at Department of Reclamation December 14, 1956. APPROVAL OF STATE RECLAMATION ENGINEER I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-22504. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby. Dear Mr. Cuddeback

Statutes requires a field inspection in connection with the proofs on Permit # G-22504 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Tuesday, May 21, 1957

right after noon.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

E. N. Humphrey

Permit No. G-22504

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Marvin R. Cuddeback, residence 8 miles south and west of Caldwell, occupation is farming and labor, and P.O. Address is Rt. 4, Caldwell, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. As an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #G-22504, date of permit is December 8th, 1951 and the priority date I wish to establish is December 4th, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The water supply is subterranean, and the point of diversion is NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 32, T 3 N - R 3 W.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 40 H.P. motor, 25 H.P. sump pump, 1290' steel pipe, 1300' aluminum pipe mainline (Portable), sprinkler system. Well drilled to a depth of 278', cased to 250' with 12" casing. Depth to the water is 110', and this will discharge approximately 70 to 75 inches, determined by my experience in irrigating. I have a 1/4 mile of steel buried mainline, and 1/4 mile of aluminum mainline. The takeoffs are every 60' on the mainline and I have 2 aluminum laterals of 1320 feet each, and one aluminum lateral 520'. I run 40 heads each off from the 1/4 mile laterals (I have these jointed at 40' on the 3" pipe and 30' each on the 4" pipe. This would allow 13 sprinklers on the short line, or I have all

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use, together 93 takeoff heads and each one of these deliver 8 gallon per minute.

Ans. Water is used for irrigation on SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, T 3 N - R 3 W., B. M. (37 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 38 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$, 17 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$.) No natural meadow land, this is all cultivated, and I have cleared and broke the land and planted a crop on the 92 acres. I have spent over \$10,000.00 in applying this water and the improvements on this land.

G-22504

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The amount that I am now using^{is} the minimum amount of water for profitable cultivation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person originally applying for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This has been used for irrigating 92 acres of this land since 1953

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other lands, claims and rights claimed thereunder.

Ans. There are no other permits or water used appurtenant to the land that I have described herein. In the northern part of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, that I have not included in my irrigable area, some other water does go on this, but it is not a part of my system at the present time and it is not included in this proof as irrigable area.

(Sign)

Martin R. Caddelash

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada,

State of Idaho, on this 8th day of December, A. D. 1956.

Helen L. McDaniel

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO**

RECEIVED
DEC 19 1956
Department of Reclamation

Permit No. G-22504

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Harold G. Miller, age is 41, residence 5 miles SW of Caldwell, occupation
if farming, and P. O. Address is Rt. 4, Caldwell, Idaho.

Ques. 2. Are you acquainted with Marvin R. Cuddeback, the holder of Permit No. G-22504? How long have you known him and where does he reside?

Ans. I have known him 10 years and know that he lives in Caldwell, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22504, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean. The works consist of 40 h.p. motor and 25 h.p. sump pump. This
well is drilled to a depth of 278' and cased with 12" casing to 250'. He has
1/2 mile of mainline pipe and 2 aluminum laterals about 1300' each and one lateral
only around 500'. This is through a sprinkler system. The point of diversion
is in the NW 1/4 SW 1/4 Section 32, T 3 N - R 3 W.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the works will carry around 75 inches of water and I have seen this
much so conveyed

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver, which I would estimate to be around 75 miner's
inches. I estimate this by having seen water pumped from other wells.

G-22504

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. There is no natural meadow land and the improvements are all made as a direct result of this irrigation use. In the NW¹/₄ he irrigated around 37 acres, in the NE¹/₄ SW¹/₄ 38 acres; in the SE¹/₄ NW¹/₄ around 17 acres.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a sandy loam soil and it is very productive when irrigated, and it has to have at least the amount of water that is now being used. In fact through a sprinkler system this is probably not enough to raise all types of crops.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live about 4 miles from here, and I have seen this at least once a week and from the entire time since it was first developed.

(Signed)

Harold C. Miller

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 8th day of December, A. D. 19 56.

Permit No. G-22504

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Wayne Maybon, age is 37, residence is 9 miles SW of Caldwell, Occupation is farming and P. O. Address is Rt. 4, Caldwell.

Ques. 2. Are you acquainted with Marvin R. Guddeback, the holder of Permit No. G-22504? How long have you known him and where does he reside?

Ans. I have known him 10 years and know that he now resides 6 miles SW of Caldwell Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22504, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean. The place of diversion is NW 1/4 Section 32, T 3 N - R 3 W. The works consist of a well, with 40 h.p. motor, also a 25 h.p. sump pump and motor. This is through a sprinkler system with around 1/2 mile of mainline and portable laterals

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. This will convey 1 1/2 second feet of water safely to the place of use and I have seen this much water conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 75 miner's inches and I figure this by seeing other pumps discharging water.

G-22504

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation on SE $\frac{1}{4}$ NW $\frac{1}{4}$ about 17 acres, NE $\frac{1}{4}$ SW $\frac{1}{4}$ around 38 acres in the the NW $\frac{1}{4}$ SW $\frac{1}{4}$ around 37 acres. There is no natural meadow land, and the improvements have all been as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam soil very productive when irrigated. The amount of water he is now using is the least he can get by with.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live about 1 mile from this land, and I can look up there and see it practically every day since it was first developed, and I am very familiar with it.

Re: Permit No. G-22504

Mr. Marvin R. Guddeback
Rt. # 4
Caldwell, Idaho

Dear Mr. Guddeback:

We return for your file Application for Amendment to Permit to Appropriate the Public Waters of the State of Idaho which has amended the point of diversion from SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 32, T. 3 N., Range 3 West B.M. as described in the original permit no. G-22504 to read as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 32, Township 3 North, Range 3 West B.M.

This amendment has been recorded in this department in book 80 of Permits, page 22504. It should be attached to your permit to which it refers and of which it now forms a part.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

G-22504

RECEIVED
DEC 11 1956

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-22504

Comes now Marvin R. Cuddaback and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22504.

That the point of diversion is described in said permit as being located SE 1/4, Section 32, T 3 N - R 3 W., B.M.

That he now requests that the point of diversion be changed to a point located NW 1/4, Section 32, T 3 N - R 3 W., B.M.

That his reasons for desiring to make such change are as follows:

This is a more feasible well site.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, this 10 day of December 19 56

Marvin R. Cuddaback

Date of receipt at Department of Reclamation December 14, 1956

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-22504. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.
