INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-22317

Comes now Hazel P. Munsey and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-22317. That the point of diversion is described in said permit as being located NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Twp. 3 N., R. 4 W. That he now requests that the point of diversion be changed to a point located SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23 Twp. 3 N. R. 4 W. That his reasons for desiring to make such change are as follows: After running the ditch surveys it was decided that the new location would cover more ground by gravity and without having to force the water up to the high point by surface pipeline.

That no one will be injured by such change and that such change will be made at Permit Holder's own risk.
Signed at Caldwell, Idaho, this 11 day of Sept. 1956.

HAZEL P. MUNSEY

Date of receipt at Department of Reclamation September 12, 1956.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. G-22317. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Mr. Tuthill,

This letter is in response to your letter to me of 2 August, 1993, and a follow up on our telephone conversation of 3 August, 1993.

As we discussed by telephone, it was not my intention to do anything inappropriate in reference to moratorium wells. We are trying to complete the paperwork to transfer the point of diversion of an older water right to this moratorium well. I have verbally discussed this with Steve Lester, and he is familiar with our application and also, what was being done.

The moratorium well in question has been shut down, and again, because of prior, verbal conversations with your department, I did not realize I was in error by pumping this well.

Sincerely,

R. A. Symms

Re: Application for Transfer of Right No. 63-02875

Dear Mr. Symms:

Before this office can proceed with advertising your recent transfer application to change the point of diversion of the above-referenced right, some clarification is needed. Please review the following information and make any necessary changes on the enclosed original application. Any changes made to the form should be initialed and dated by the person (yourself?) who signed the form. Approval of changes to the filing is needed for this notarized document.

1) The license was issued for 96 acres in E 1/2 of SE 1/4 Sec. 23 and SW 1/4 SW 1/4 Sec. 24. This is the right that can be changed. See pages 5 and 6 added to the transfer. (Modified pages 3 and 4 describe the adjudication claim filed on the license - remember that the licensed right is the entity that can be changed).

2) The transfer can show a new point of diversion for the license as reflected on page 1. However, the transfer is limited to the number of licensed acres, 96 acres. It appears from the bottom of page 1 that you want to irrigate 120 acres in Sec. 23 with this right. This cannot occur within a single irrigation season because such use constitutes an expansion of the right, and expansions are prohibited under Idaho Code 42-222 (transfer statute).

3) Therefore, the bottom of page 1 should be changed in one of three ways.

a) Water will be used on the 96 licensed acres (see page 5 of transfer for list).

b) Water will be used on 96 acres other than licensed acres (partial or complete change in place of use).

c) Water will be used on 96 acres per irrigation season within a 120 acre area (such as you showed in current transfer information). This would also be a partial or complete change in place of use. This is a rotation option that might be approvable in a transfer. You should specify this option if chosen.

4) For choices 3b or 3c, please submit proof of ownership of the acres in SWSW Sec. 24. Such proof was not included with the ownership documents that you provided.

5) Be sure that the place of use on page 1 and map on page 7 reflect the same information.

A reply within 30 days would be appreciated. Please contact me if you have any questions.

Dear Mr. Davis:

Returned herewith is your check in the amount of \$11.00 which we received with your letter of April 19. Also enclosed are Form 20 and assignment form.

Water License No G-22317 was issued to Hazel P. Munsey on October 10, 1958 showing 1.02 cubic feet per second, priority August 18, 1951, from a well in SE $\frac{1}{4}$ Sec. 23, to irrigate 35 acres in SW $\frac{1}{4}$ Sec. 24; 61 acres in E $\frac{1}{2}$ Sec. 23, T. 3 N., R. 4 W. Such a water right is transferred by deed and is not recorded in this office. The deed to the land should have included a description of the water right. Transfer of water right is necessary if the place of use of the water is changed.

Permit No. G-27947 was issued to C. H. Munsey for 2.0 c.f.s. priority May 25, 1959, from a well in SW $\frac{1}{4}$ Sec. 24, to irrigate SE $\frac{1}{4}$ Sec. 23; SW SW $\frac{1}{4}$ Sec. 24; NE $\frac{1}{4}$ Sec. 26, T. 3 N., R. 4 W. Permits are transferred by completion of the Form enclosed. Any change in place of use is by amendment to the permit.

We trust this answers your question.

Dear Mrs. Munsey:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Western Idaho Publishers, Inc., all submitted in proof of completion of works and beneficial use on Permit No. G-22317.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-22317

Comes now Hazel P. Munsey and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22317.

That the point of diversion is described in said permit as being located NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Twp. 3.N. R. 4. W..

That he now requests that the point of diversion be changed to a point located SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23 Twp. 3.N. R. 4.W..

That his reasons for desiring to make such change are as follows:
After running the ditch surveys it was decided that the new location would cover more ground by gravity and without having to force the water up to the high point by surface pipeline.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Caldwell, Idaho, this 11 day of Sept. 1956

Mrs. Hazel P. Munsey
2603 Indiana Avenue
Caldwell, Idaho

Dear Mrs. Munsey:

We wish to acknowledge receipt of your proof of application of water to completion of works and beneficial use on the above captioned permit. We observe under question 4 of your proof that you state that the well is located in the Northwest Corner of the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 23, Township 3 North, Range 4 West.

We wish to state that your permit calls for the location of the well to be in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23, Township 3 North, Range 4 West. Providing that you have changed the location of the well from which it was stated in the original permit to the SE $\frac{1}{4}$ SE $\frac{1}{4}$ we wish you would finish filling out the enclosed Application for Amendment to Permit to Appropriate the Public Waters of the State of Idaho, giving your reasons therefore and signing same and returning to this department so that the amendment can be placed upon your original permit record.
