Notary Public for Idaho, Residing at Boise, Idaho.

Well No. 1
NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00
A. M., on the 14th day of December,
1953, at Boise, County of Ada, State of
Idaho, before J. M. Lampert, Justice of
the Peace, proof will be submitted of the
completion of works for the diversion of
1.15 cubic feet per second of the waters
of subterranean pumped well in the SW¹/₄
SE¹/₄ Section 5, Twp. 3 N., Rge. 2 E.
B. M., and of the application to beneficial
use of said water, in accordance with the
terms and conditions of Permit No.
G-22310 heretofore issued by the Depart-
ment of Reclamation of the State of Idaho.

1. The name and postoffice address of
the person or corporation holding said per-
mit is The Village of Garden City, 201
West 33rd Street, Boise, Idaho.

2. Said works of diversion will be fully
completed on the date set for such com-
pletion, and the amount of water which
said works are capable of conveying to
the place of use, in accordance with the
plans accompanying the application for
such permit, is 1.15 cubic feet per second
(1.045 gpm).

3. The use to which said water has
been applied is municipal water supply
system—domestic, culinary, recreational,
irrigation sprinkling, industrial and com-
mercial purposes, and the amount applied
to beneficial use is 1.15 cubic feet per
second (550 gpm).

4. The place where said water is used
is within the corporate limits of the Vil-
lage of Garden City and surrounding
areas, Sections 5, 6, T. 3 N., R. 2 E., B. M.

5. The date of priority which said user
is prepared to establish is August 4, 1951.

MARK R. KULP,
State Reclamation Engineer.

4t—Nov. 16, 23, 30; Dec. 7.

9-22310

State of Idaho
License and Certificate of Water Right

Water License No. G-22310

Amount 1.15 second feet

Water District No. _____

Priority August 4, 1951

THIS IS TO CERTIFY that THE VILLAGE OF GARDEN CITY
of Garden City, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated August 4, 19 51; that Permit No. G-22310
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.15 second feet, was issued thereunder on March 24, 19 55, showing that said works
were completed on the 16th day of July, 19 54; and that on the 16th
day of July, 19 54,

THE VILLAGE OF GARDEN CITY

of Garden City, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
~~exposed~~ (subterranean flow), for the purpose of municipal water supply
, under Use Permit No. G-22310 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5470, on the 24th day of March, 19 55;
The right hereby confirmed dates from August 4, 19 51;

The Point of Diversion is located
in the SW 1/4 SE 1/4, Sec. 5, Tp. 3 N., R. 2 E., B. M. Ada County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.15 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			The Village of Garden City, located in Sections 5 and 6, Twp. 3 North, Range 2 East, B.M.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
24th day of March, 19 55.

MARK R. KULP

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 30027
Permit No. G- 22310
District No.

Carlyle W. Briggs
Briggs Engineer Building
619 Grove St., Boise, Idaho

1. Name of Applicant: THE VILLAGE OF GARDEN CITY
Postoffice address: Route 8, Boise County: Ada State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 2.2 or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean from well -gravel water strata
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 5
Twp. 3 N. , Rge. 2 E. , B.M., County of Ada
5. Water is to be used for: Municipal water supply-domestic-culinary-recreational, irrigation, sprinkling-industrial
6. If for municipal, industrial or recreational purposes, give:
within corporate limits of the Village and surrounding areas
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section 5 & 6 , Twp. 3 N.
Rge. 2 E. , B.M.
 - (b) Waste water or sewage effluent is to be returned to Boise River
at a point in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 32 , Twp. 4 N. , Rge. 2 E. , B.M.
7. Kind of works: Drilled well, 10 $\frac{1}{2}$ " I.D., cased- 130-150 ft. deep- pump and motor
8. Estimated cost of works: \$ 8,000.00
9. (a) Is reservoir to be used? 4,000 gal. underground pressure tank.
(b) Capacity of reservoir: For equalization of pump pressures only.
10. The time required for the completion of such work and complete application of the water to the proposed use is Four (4) years.
11. If applicant is a corporation, give: Applicant is a municipal corporation.
 - I. (a) Date and place of incorporation: 1949, by Ada County Commissioners.
(b) Amount of capital stock: \$ (c) Amount paid in: \$
 - (d) Names and addresses of ~~directors~~ Trustees: Roy C. Titmus, Chairman; Frank Thornton, Roy Oberst, Charles Ostrom, J. W. Ingham, Laura Dawson, Village Clerk; Carlyle W. Briggs, Engineer; J. M. Bampert, Attorney.
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 - (b) Treasury stock: (c) Bonds to be issued:
 - (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

THE VILLAGE OF GARDEN CITY Applicant.

By Carlyle W. Briggs Agent.

Date of first receipt at Department of Reclamation: 11:55 A. M. August 4, 1951

Re'turned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-22310

Recorded in Book 80 Page 22310 Approved August 22, 1951

REPORT OF ENGINEER

Permit No. G-22310

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Village of Garden City, Garden City, Idaho

2. Source of water supply: Subterranean, from a well

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5

T. 3 N. R. 2 E. County of Ada

4. Describe works as they exist, giving dimensions and capacities of same: The well is 800' by 10" diameter, cased 296'. The water strata is down 700' and is a soft, warm artesian water. The well is located as indicated on the filing map accompanying the Permit. Pump is a Johnston Deep Well Turbine, No Serial No. The motor is a G. E. 40 h.p. Serial No. 6328323. There is a right angle drive between the electric motor and the pump so that it could be driven by a gas engine if necessary. The deliver is to the South and then to the West through an 8" steel line and into the Garden City water system. There is a 3,000 gallon tank buried outside the building to the East. Well is in a portion of the Garden City shops which is located back of the Garden City Hall. The room is 8' by 13'9" by 8' high with a concrete floor and is built so (see below)

5. Water is used for: Municipal water supply for Village of Garden City.

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Village of Garden City and surrounding area, in Sections 5 & 6, Twp. 3 N., Range 2 E., B. M.
See map accompanying the filing Permit.

(Question 4 con't.) that the roof, which is hinged, can be turned back so that a derrick can be used to lift the pump out or lower it into the well. Switches and controls are AB and Trumbull. Main Switch box is a Bulldog with 300 amp. fuses. This pump and well has a capacity of 550 g.p.m.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: This well is the chief supply of domestic water for Garden City at the present time.

This examination was made on the 2nd day of March, 19 55

(Signed) E. M. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit Nos. G-22301 & G-22310

Mr. Henry F. Reed
Suite No. 1
714½ North Orchard
Boise, Idaho

Dear Mr. Reed:

Your affidavit received this morning completes the proof of Completion of Works and Beneficial Use on the above numbered permits in the name of the Village of Garden City.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you or someone on the ground at the time he makes the examination in order that arrangements may be made to show him over the project.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

WELL NO. 1

RECEIVED
JUL 17 1954
Department of Reclamation

Permit No. 922310

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Clyde Allen, Chairman of the Board of Trustees, 201 West 33rd St., Garden City,
Ada County, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Chairman of the Board of Trustees of the Village of Garden City, Ada County, Idaho
Ans. under statutory authority

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-22310 approved 8-22-51, date of Priority August 4, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean strata, flowing - pumped well 811 feet deep within Corporate Limits
of Garden City - Point of diversion SW 1/4 SE 1/4, Sec. 5, T. 3 N., R. 2 E., B.M. Ada
County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Water diverted by pumping from well with electric deep well turbine pump, conveyed
to place of use by municipally owned and operated water system, carrying capacity to
2,000 gpm. Well is 10 inch dia. steel casing to 296 ft. depth, open 10 inch hole to
811 ft. depth, water static level 1 to 6 ft. above ground. Maximum capacity of pump
550 gpm measured by 8 inch pipe dia. Sparling propeller type main line meter.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic, fire protection, commercial, industrial, sprinkling and all other
demands of water users connected to the Village of Garden City water system. Improve-
ments to Village are a clean, safe and dependable water supply.

G-22310

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Same as No. 6 above

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.2 cfs or 550 gpm firm source of supply from Well No. 1

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Application made by the Village of Garden City, Idaho.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Same as No. 6 above.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. See application for Permit No. G-22601, water from Well No. 2, also supplies the water system.

Permit No. G-22310

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Guy Williams, age 42, 207 West 39th Street, Boise, Idaho, Park Maintenance Man
for the Village of Garden City, Idaho.

Ques. 2. Are you acquainted with The Village of Garden City, the
holder of Permit No. G-22310? How long have you known him and where does
he reside?

Ans. The Village was organized and began to operate in June of 1949 within Ada County
Idaho

Ques. 3. Have you read or heard read said Permit No. G-22310, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source from 811 ft. deep well No. 1, located at Garden City Shop at 201 West 33rd
St. in Garden City. Water carried by Village of Garden City municipally owned
and operated water system, including 3,000 gallon underground steel pressure
equalizing tank.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 4.5 cfs pipeline capacity, have seen conveyed 1.2 cfs (550 gpm) from Well No. 1

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Pump delivers up to 550 gpm at 40 psi to water system, measured amount pumped
by reading Sparling main line meter on pump discharge into water system,
verified by daily pumping records.

G-22310

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic, fire protection, commercial, industrial, sprinkling, and other uses. Improvements to Village are clean, safe, dependable water supply.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. 1.2 cfs to municipally owned and operated Village water system

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not applicable

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. As a Village employee, I check the water system and work on the same as part of my duties.

BOISE, IDAHO

WELL NO. 1

Permit No. G-22310

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Glenn R. Yeo, age 37, 217 W. 37th St. Boise, Idaho. Water Maintenance Man
for Village of Garden City, Idaho

Ques. 2. Are you acquainted with The Village of Garden City, the
holder of Permit No. G-22310? How long have you known him and where does
he reside?

Ans. Village was organized and began to operate in June of 1949 within Ada County,
Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22310, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source from 811 ft. deep well No. 1, located at Garden City Hall property behind
City Shop at 201 West 33rd Street in Garden City. Water conveyed by Village of Garden
City municipally owned and operated water system, 3,000 gallon underground steel
pressure tank.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 4.5 cfs capacity of pipelines, have seen convey 1.2 cfs. (550 gpm) from Well No.1

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Pump delivers up to 550 gpm at 40 psi to pipelines as indicated by 8 inch Sparling
propeller type main line meter and verified by daily pumping records.

G-22310

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic, fire protection, commercial, industrial, sprinkling and other demands of water users connected to the water system. Improvements to Village are clean, safe and dependable water supply.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. 1.2 cfs to municipally owned and operated Village water system.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not applicable

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. As a Village employee, I check the water system including the well pumping logs daily.

RE: Permits Nos. G-22601 & G-22310

Mr. Carlyle W. Briggs
619 Grove Street
Boise, Idaho

Dear Mr. Briggs:

We remind you that we have not yet received the proof of Completion of Works and Beneficial Use on the above numbered permits, in the name of the Village of Garden City, which were returned to you on January 5th.

If these proofs are to be accepted it is important that the depositions be completed and returned to this Department with the affidavits of publication.

Very truly yours,

RE: Permits Nos. G-22601 & G-22310

Mr. Carlyle W. Briggs
619 Grove Street
Boise, Idaho

Dear Mr. Briggs:

We return the enclosed depositions transmitted to this office on December 18, 1953 by Mr. Henry F. Reed, consisting of deposition of holder for Completion of Works and Beneficial Use on the above numbered permits, the depositions of Guy Williams and Glenn R. Yeo and witnesses in proof of Beneficial Use on Permit No. G-22601.

These are evidently supposed to be in connection with proofs of Completion of Works and Beneficial Use on the above numbered permits in the name of the Village of Garden City, but they are not acceptable for the following reason.

Separate proofs of the holder and two witnesses must be submitted on each of these two permits, as per forms handed you.

The affidavits of publication must also accompany the proofs, and the Statesman was instructed to send these affidavits to the Village of Garden City.

We talked to Mr. Raymond Briggs about this over the telephone when you were out of the office and he suggested that we take the matter up with you rather than directly with Mr. Reed.

In case you have misplaced the forms for making these proofs, we enclose others herewith.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

DEC 19 1953
Department of Reclamation

December 18, 1953

Department of Reclamation
Capital Building
Boise, Idaho

Gentlemen:

Im enclosing proof of application of water to beneficial use, two depositions of witness, and one deposition of holder, in regards to Well #1 and Well # 2 of the Village of Garden City, Idaho.

I presume that as long as the department ordered the publication of notice in the paper, that you now have proof of publication. There was no opposition to the application for the water for beneficial use at the hearing.

Please issue your permit in regards thereto.

Sincerely,

Permit No. G-22310

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Glenn R. Yeo, age 37, 217 W. 37th Street, Boise, Idaho,
Water Maintenance Man for Village of Garden City, Idaho

Ques. 2. Are you acquainted with Village of Garden City, the holder of Permit No. G-22310? How long have you known him and where does he reside? Village was organized and began to operate in June of 1949. Ada County, Idaho.

Ans. _____

Ques. 3. Have you read or heard read said Permit No. G-22310, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well No 1 supplies the Village of Garden City municipally owned and operated Village Water system, pump capacities measured and reported by the City Engineer and verified by daily pumping records
Well No 1 550 g.p.m. in a closed circuit with mains is one 3,000 gallon underground steel pressure equalizing tank.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. ^{1.2}1.15 cubic feet per second. *conveyed, capacity of pipelines - 4.5 cfs.*

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. ^{1.2}1.15 cubic feet per second, *measured by reading propeller type meter in 8" dia. pipe.*

G-22310

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Municipally owned and operated Village Water System.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. 1.15 cubic feet per second to Municipally owned and operated Village Water System.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not applicable.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. As a village employee, I check the water system including the well logs continuously.

(Signed) *Wm. J. Geo*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 14th day of December, A. Permit No. G-22601

Proof of Application of Water to Beneficial Use
AND PROOF OF COMPLETION OF WORK

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Clyde Allen, Chairman of the Board of Trustees, 201 West 33rd St.
Village of Garden City, Ada County, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Chairman of the Board of Trustees of the Village of Garden City,
Ada County, Idaho, under Statutory Authority.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit. G-22310

Ans. Permit No's G-22601, Date of Priority February 13, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Wells 811 feet Deep, within the corporate limits of the
Village of Garden City.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Wells #1 and 2 supply the Village of Garden City municipally owned
and operated water system, pump capacities measured and reported
by the City Engineer and verified by daily pumping logs, Well #1
under permit G-22310, 1.15 g.p.m., Well #2 under permit G-22601,
1.6 cfs 1.50 g.p.m. in closed circuit with mains is 3000 gallon underground
steel pressure equalizing tank.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic, fire protection, commercial, industrial, sprinkling,
and all other uses of the water users connected to the Village
water system.

G-22310

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Same as No. 6 above.

Ques. 8. What is the minimum amount of water required for the purpose specified above? 1.15 cfs firm source of supply at Well #1

Ans. 1.50 cfs firm source of supply at Well #2

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. application of the Village of Garden City, Idaho.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Same as No. 6 above.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Well #1 is added to by the water supply of Well #2 connected

connected to and diverted to the Municipal Water System, see

permit #G-22610.

RE: Permit No. G-22310

Idaho Daily Statesman
Boise
Idaho

Gentlemen:

Thank you for the tear sheet from your issue of November 16, 1953, containing notices in connection with Permits Nos. G-22310 and G-22601.

We note a slight error in the notice on Permit No. G-22310, which was a mistake in the copy sent you.

The number of the permit as shown in the 13th line should be G-22310 instead of 6-22310.

Please make this correction in your subsequent issues.

We also note an error in the mailing address of the Village of Garden City in our letter of transmittal. The address should be 201 West 33rd Street, instead of 201 West 23rd Street.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

**NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given at at 10:00 A. M., on the 14th day of December, 1953, at Boise, County of Ada, State of Idaho, before J. M. Lampert, Justice of the Peace, proof will be submitted of the completion of works for the diversion of 1.15 cubic feet per second of the waters of subterranean pumped well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 5, Twp. 3 N., Rge. 2 E., B. M., and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 6-22310 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is The Village of Garden City, 201 West 33rd Street, Boise, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 1.15 cubic feet per second (1,045 gpm).

3. The use to which said water has been applied is municipal water supply system—domestic, culinary, recreational, irrigation sprinkling, industrial and commercial purposes, and the amount applied to beneficial use is 1.15 cubic feet per second (550 gpm).

4. The place where said water is used is within the corporate limits of the Village of Garden City and surrounding areas, Sections 5, 6, T. 3 N., R. 2 E., B. M.

5. The date of priority which said user is prepared to establish is August 4, 1951.

MARK R. KULP,

State Reclamation Engineer.
