Dear Mr. Parris:

The water license has been issued and we do not keep a record of new ownership of the land. The deed to the property should describe the water rights. In this case, the E $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, had 80 acres irrigated with 80 inches or 1.6 cubic feet per second of the 3.0 c.f.s. licensed.

The assignment is returned herewith.

Dear Mr. Coles:

Our field engineer's report on the inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 3-22297 shows the wells in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26 are capable of conveying 150 miners' inches (3.0 c.f.s.) of water for irrigation of 150 acres. The record of the permit describes the wells as being in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, therefore, it is necessary that it be amended to described the actual location of the wells. We have enclosed an application for amendment for this purpose and ask that you complete, sign and return it.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$13.00, we will issue the Certificate of Completion of Works (five dollars) and the License and Certificate of Water Right (eight dollars--based at the rate of two dollars for each 40-acre subdivision) under Permit No. 3-22297, confirming the right with priority of August 2, 1951, to your use of 3.0 second feet of subterranean water, with the points of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, for irrigation of 150 acres in the NW $\frac{1}{4}$ of Section 26, Township 3 North, Range 3 West, B.M.

RE: Permit No. G-22297

Date September 1, 1957

Mr Harold F. Coles
Box 824
Caldwell, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-22297, are due not later than November 3, 1957.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice of proof published in the designated county newspaper, at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP

Dear Mrs. Coles:

We enclose Permit No. G-22297, and direct your attention to the limitations and conditions as given on the fourth page, under approval of the State Reclamation Engineer.

By this same mail we are sending to the Bureau of Land Management, two copies of this permit, one of which has been certified, to be used in connection with your desert claim. We also enclose departmental receipt No. 23541 for \$7.75, which includes \$5.75 filing fees and \$2.00 for the extra copies.

Very truly yours,

MARK R. KULP

Dear Mrs. Coles:

After you left the office yesterday, we checked several permit applications filed earlier in the day, but which had not yet been indexed.

Among these we find the application of General L. Harris to appropriate 320 inches of water from a well in the NE¹/₄ NW¹/₄, Section 26, Township 3 North, Range 3 WM, for the irrigation of the NW¹/₄, NE¹/₄ SW¹/₄, Section 26, and E¹/₂ SW¹/₄, Section 27, Township 3 North, Range 3 WM., which lands are covered by his desert filing.

We are sorry we had not processed this application before your own application was filed, as his priority date would be 10:30 a.m., August 2, against your priority of 3:25 p.m., August 2.

Please advise if you wish us to return your check, or if you wish to proceed with your own application.

Very truly yours,
