Dear Mr. Hopkins:

We have placed on file the depositions of yourself and two witnesses, also affidavit of publication in the Idaho Daily Statesman, all submitted in proof of beneficial use under Permit No. G-22095.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Re: Permit No. G-22095

Mr. E. R. Hopkins
2100 Lamp St.
Boise, Idaho

Dear Mr. Hopkins:

We enclose Permit No. G-22095.

Since your application states that one month is all that will be required for making Proof of Completion of Works and Beneficial Use, we have allowed three months, or until August 19, 1951, within which to make these proofs.

The first proof, or proof of completion of works, should be made on Form 6 enclosed, executed before a Notary Public, and returned to this Department with the statutory fee of \$5.00.

The statutes require publication of a notice in a county newspaper for four consecutive weeks prior to making proof of beneficial use. This notice should be made in duplicate on Form 10, setting time and place, and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks' publication.

Both copies of Form 10 to be returned to this Department, together with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,
