NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 17th day of November, 1953, at Moscow, County of Latah, State of Idaho, before Gene Slade, Notary Public, proof will be submitted of the application to beneficial use of 1.75 cubic feet per second of the waters of subterranean flow from a drilled well in accordance with the terms and conditions of Permit No. 21985 heretofore issued by the Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The Regents of the University of Idaho, Moscow, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is 1.75 second feet.

The place where said water is used N.W. 1/4 Section 10; N.E. 1/4 Section 9; Township 3 North, Range 3 West B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is None.

The right to take water from such

works is based upon Permit No. 21985.

The source of supply from which such water is diverted is a drilled well located about 2250 feet south of the Northwest Corner of Section 10, Township 3 North; Range 3 West B.M. and in the S.W. 1/4 N.W. 1/4 of said Section 10.

The date of priority which said user is prepared to establish is March 12, 1951.

MARK R. KULP,
State Reclamation Engineer

APPLICATION FOR PERMIT 63-2851

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29709
PERMIT No. 21985
DISTRICT No.

1. Name of Applicant: THE REGENTS OF THE UNIVERSITY OF IDAHO

Postoffice address: Moscow

County: Latah

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: 1.75

cubic feet per second.

3. Source of water supply: Ground water from a well

which is a tributary of

4. Location of point of ~~diversion~~ pumping: About 2250

feet ~~distance~~ south distant from the N. W.

corner of Section 10, T3 N., R. 3 W., B. M., and is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$

of Section 10, T. 3 N., R. 3 W., B.M., County of Canyon

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B.M., in the
of Section, T., R., B.M.

7. Estimated cost of works: \$ 10,000.00

8. Kind of works: Well, deep well turbine, 450 ft. concrete & steel pipe line, 3 concrete control boxes

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width Gate outlets 18" ~~feet~~; height 18" feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit 450 ft. miles.

Average grade per mile 176 feet.

12. The time required for the completion of such work is Complete for use ~~year~~ April 10, 1951

13. The time required for the complete application of the water to the proposed use is No. additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None on 40 acres of new land; rights for 3 acre feet per acre for old lands. Water coming from (1) Forrest Lateral, and (2) Caldwell Deer Flat Lateral.

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

THE REGENTS OF THE UNIVERSITY OF IDAHO *Applicant.*

State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN, Governor of the State of Idaho,

and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 17th

day of March, 1951.

STATE OF IDAHO

Countersigned:

(SEAL)

By LEN JORDAN

Governor.

By IRA H. MASTERS

Secretary of State.

REMARKS: This application is for irrigation water for 40 acres of new land and for supplemental water for 267 acres of old project lands. Of the 1-3/4 c.f.s. applied for, 4/5 c.f.s. is for the new land, and 19/20 c.f.s. is for supplementing the 3 acre feet per acre currently obtainable from the canal sources. This 3 acre feet per acre has not been adequate for experiments on the steep lands making up the Caldwell Experiment Station. Ownership is vested in the University.

RE: Permit No. 21985

Mr. Kenneth A. Dick, Bursar
University of Idaho
Moscow, Idaho

Dear Mr. Dick:

The report of our field engineer on examination for beneficial use on Permit No. 21985 shows that the well in the SW¹/₄ NW¹/₄ Section 10, Township 3 North, Range 3 West, B.M. will deliver 1.75 second feet of water which has been used to irrigate 90 acres in the branch experiment station at Caldwell located in the NW¹/₄ NW¹/₄ Section 10, Township 3 North, Range 3 West, B.M.

A License can, therefore, be issued for that amount upon receipt of the statutory fee of \$6.00.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

21985

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21985This proof is for Beneficial Use In Water District No. _____1. Name of applicant The Regents of the University of Idaho, Moscow, Idaho2. Source of water supply: Subterranean from a well3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10T. 3 N. R. 3 W. County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same: Well is 16" diameter by 148' , 8" diameter on down to total depth of 216' , cased to bottom. H is 120' , column is 140' by 8" diameter. 20' of suction, 3 stage 8" bowls. Well house is 6' by 6' by 6' , concrete floor and base. House is covered with aluminum sheeting. U. S. Motor 40 hp Serial No. 869725. Jacuzzi Turbine pump, serial No. WAL 0257. Delivery through an 8" pipe into a large concrete sump from which there is a ditch leading to the high ground to the So. and a gate and pipe line that carries the water North and under the Forest Lateral Canal. This well was not measured due to the difficulty in finding a satisfactory place for measuring. It was delivering approximately 75" of water. (Con't. below)

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Northwest Quarter Section 10, Twp. 3 North, Range 3 West, B.M.Northeast Quarter Section 9, " " " "See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Question 4 Con't. R. Johnson, superintendant of the station stated that he would rather wait until the well had been cleaned out and was delivering the full amount rather than taking a lower delivery rate. This well has probably delivered the full amount filed upon and even more. I recommend that it be Licensed for the full amount.

INSTRUCTIONS TO EXAMINERS.

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

CALDWELL, IDAHO

April 16, 1954

RECEIVED
APR 17 1954
Department of Reclamation

Mr. Elmer Humphrey
State Bureau of Reclamation
State House
Boise, Idaho

Dear Mr. Humphrey:

I was sorry to have missed you the other day when you were here to measure the flow from our irrigation pump. I believe the power company connected the pump the following day, so it could be measured now at your convenience.

I wondered if you could not make this measurement on the structure which syphons the water across the Forrest lateral, which is approximately two-hundred yards north of the pump. All of the water flows through this and it has an overflow pipe by which the water can be dumped into the irrigation canal. This extends out several feet from the concrete structure. This is, however, $11\frac{1}{2}$ " in diameter instead of 8".

Thank you kindly.

Very truly yours,

R. F. Johnson

Moscow, Idaho

Dear Mr. Dick:

We acknowledge receipt of your letter of November 23rd, enclosing affidavit of publication in the Caldwell News-Tribune which completes proof of Beneficial Use on Permit No. 21985.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact someone on the grounds in order that arrangements may be made to show him over the project.

Very truly yours,

RE: Permit No. 21985

Mr. Kenneth A. Dick, Bursar
University of Idaho
Moscow, Idaho

Dear Mr. Dick:

We acknowledge receipt of your letter of November 17th enclosing depositions of yourself and two witnesses in proof of Beneficial Use on Permit No. 21985.

However, the Affidavit of Publication should accompany these proofs, and the Caldwell News Tribune was instructed to send it to you. If you have not received it we suggest that you take the matter up with them at once.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 21985

Dear Mr. Kulp:

We transmit herewith completed Form 16, Proof of Application of Water to Beneficial Use, signed by myself for The Regents of the University of Idaho, and completed Forms 17 signed by Dr. James E. Kraus and Mr. George Gagon in connection with our permit No. 21985 at the Caldwell Branch Experiment Station.

Please inform us if there are any further necessary actions to be taken in regard to this permit.

We wish to thank you for your very kind assistance in developing this water right.

Very truly yours,

Kenneth A. Dick

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21985

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Kenneth A. Dick, Moscow, Idaho, Bursar, University of Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. The Regents of the University of Idaho, Moscow, Idaho, Bursar

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 21985, March 17, 1951, March 12, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. subterranean flow from a well. Located 2250 feet South from the Northwest corner of Section 10, Township 3 North, Range 3 West, B.M., and in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section 10.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler system, describe.

Ans. Well, approx. 216 ft. deep, deep well turbine pump, 450 ft. concrete and steel pipe line, 3 concrete control boxes. Well size 16" diameter, static water level 100 ft., Pump capacity 750 gallons per minute for 158 foot head as determined by manufacturer's tests.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for irrigation of cultivated land. Land to be irrigated is in the NW $\frac{1}{4}$ Section 10, NE $\frac{1}{4}$ Section 9, Township 3 North, Range 3 West, B.M.

21985

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.75 second feet of water

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water diverted has been used for irrigation of the aforesaid described land to the extent of 1.75 second feet and use was started in March, 1951.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

Permit No. 21985

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George Gagon, 39, Moscow, Idaho, University Engineer, University
of Idaho.

Ques. 2. Are you acquainted with The Regents of the University of Idaho, the holder of Permit No. 21985? How long have you known him and where does he reside?

Ans. Seven years, Moscow, Idaho

Ques. 3. Have you read or heard read said Permit No. 21985, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean flow from a well located 2250 feet South from the Northwest
corner of Section 10, Township 3 North, Range 3 West, B.M., and in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of
said Section 10. Well 216 ft. deep, 16" in diameter, static water level 100 ft.,
450 ft. concrete and steel pipe line, 3 concrete control boxes.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.75

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 750 gallons per minute estimated from data submitted by manufacturer.

21985

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for irrigation of cultivated land. Land to be irrigated is in the NW $\frac{1}{4}$ Section 10, NE $\frac{1}{4}$ Section 9, Township 3 North, Range 3 West, B. M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Cultivated land requiring approximately 1.75 second feet.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In June, 1951 saw pump and system in operation, pump delivering approx. 1.75 second feet of water.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Moscow, County of Latah, State of Idaho, on this 17th day of November, A. NOTICE FOR PUBLICATION
**NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the 17th day of November, 1953,
 at Moscow, County of Latah, State of Idaho, before
Gene Slade, Notary Public, proof will be submitted of the
 application to beneficial use of 1.75 cubic feet per second of the waters of sub terranean flow
from a drilled well in accordance with the terms and conditions of Permit No. 21985
 heretofore issued by the Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The Regents
of the University of Idaho, Moscow, Idaho

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 1.75 second feet

The place where said water is used (~~if for irrigation, give full and accurate description of the lands irrigated~~)
N.W. 1/4 Section 10; N.E. 1/4 Section 9; Township 3 North, Range 3 West B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

None

The right to take water from such works is based upon Permit No. 21985

The source of supply from which such water is diverted is a drilled well located about 2250
feet south of the Northwest Corner of Section 10, Township 3 North; Range 3 West B.M.
and in the S.W. 1/4 N.W. 1/4 of said Section 10.

The date of priority which said user is prepared to establish is March 12, 1951

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) 5 October, 1953

(P. O.) Moscow, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Caldwell News -Tribune of Caldwell, Idaho published in
the county in which the works are situated.

THE REGENTS OF THE UNIVERSITY OF IDAHO
By Kenneth A. Dick, Bursar

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

September 29, 1953

RE: Permit No. 21985

Mr. Kenneth A. Dick, Bursar
University of Idaho,
Moscow, Idaho

Dear Mr. Dick:

On checking our records of Permit No. 21985, we find that Beneficial Use proof has not been made, although it was due September 17, 1951.

This permit is for the diversion of $1\frac{3}{4}$ second feet of water from a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10, Township 3 North, Range 3 West, B.M. for the Irrigation of land in the NW $\frac{1}{4}$ of said Section. This as you know is the Caldwell Ranch Experiment Station.

No doubt this has been overlooked and we enclose herewith form of notice of intention to make Beneficial Use proof which should be completed in duplicate on Form 10 enclosed and both copies returned to this department together with Form 11 which is authorization for us to have the notice published at Permit Holder's expense in the designated county newspaper.

Very truly yours,

In the Matter of the Reinstatement
of Permit No. 21985 Under the
Provisions of Section ~~5594~~ ~~Idaho~~
~~Compiled Statutes~~ 42-311 Idaho Code

ORDER REINSTATING PERMIT

WHEREAS, Permit No. 21985 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: Sept. 17, 1951; and,

WHEREAS, On the 6th day of December, 1951 notice to show cause why said permit should not be canceled, under the provisions of Section ~~5594~~ ~~Idaho~~ 42-311 ~~Compiled Statutes of Idaho~~ Code, was duly served on the holder of said permit; and,

WHEREAS, On the 12th day of December, 1951 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 8th day of January, 1952 depositions of the holder and two witnesses were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

WHEREAS, After examination of the said depositions, the ~~Commissioner of~~ **Engineer** ~~Reclamation~~ of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. 21985, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. 21985 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 8th day of January, 1952.

PERMIT NO. 21985

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. George Gagon, University Engineer

Physical Plant Division, University of Idaho, Moscow, Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. The Regents of the University of Idaho; Moscow, Idaho; My position is University Engineer; Authority for appearing is vested in my position.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. Permit No. 21985; March 17, 1951; Permit authorized diversion of 1 3/4 c.f.s.; Point of Diversion about 2250 ft. South from the N.W. corner of Sec. 10, T3N R 3 W B M

Ques 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Water to be used for irrigation and will irrigate 40 acres of new land and supplement irrigation of 267 acres of cultivated land.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. 1 3/4 c.f.s. were turned into the diversion works on April 5, 1951

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. The pump and diversion works were fully completed on February 2, 1951 and comply in all respects with the terms of the permit.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Irrigation Well Depth 216 ft.; Vertical Turbine Pump with 40 horsepower electric motor & capacity of 785 g.p.m.; well casing size, 16 in. diameter; small pump house; concrete diversion box adjacent to pump house; 2 concrete control boxes; 10 in. pipe line approximately 450 ft. long, 10 in. diameter, from diversion box to control boxes.

RE: Permit No. 21985

Mr. Kenneth A. Dick, Burser
University of Idaho
Moscow, Idaho

Dear Mr. Dick:

We are in receipt of your letter of December 8, 1951, in reply to notice that Permit No. 21985 was being held for cancellation for failure to make proof of completion of works on September 17, 1951, as called for under the terms of the permit.

Form 6 is the form required when proof is made at the time specified, but when a permit is listed for cancellation it is necessary to prove that the work was completed within the required time on the forms enclosed, one for the holder and one for each of two corroborating witnesses. These forms should state definitely that the works were completed on or before September 17, 1951, and upon their receipt and approval, the permit may be reinstated and certificate of completion of works issued.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Completion Report

Dear Mr. Kulp:

From past correspondence it would appear that in filing a statement of Completion of Works Proof it is necessary to execute form 6. As we do not have this required form, would you please furnish the necessary copies both for permit No. 21985 and permit No. 29708. Thank you.

Re: Permit No. 21985

Mr. Kenneth A. Dick, Burser
University of Idaho
Moscow, Idaho

Dear Mr. Dick:

We enclose Permit No. 21985.

You state that the work will be complete by April 10, 1951, but we have allowed six months, or until September 17, 1951, within which to make the two proofs of completion of works and beneficial use.

However, these proofs can be made at any earlier date, and we shall be glad to furnish the necessary forms upon request.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Kraus:

We are enclosing forms for Application for Permit to appropriate the Public Waters of the State of Idaho with instructions for making out the forms.

As you are a State agency, no filing fee will be required.

Ground water legislation is being considered, but existing rights must be protected in any legislation.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark Kulp
State Reclamation Engineer
State House
Boise, Idaho

Dear Mark:

As you may perhaps know we recently drilled a large irrigation well at our Caldwell Branch Experiment Station. The question has arisen concerning water rights and their protection for this well. I have discussed this with Mr. Max Jensen and also with Mr. R. F. Johnson and it has been suggested that we make application to your office for protection of these water rights. Will you kindly inform me of the procedure we should take concerning this. I believe Max Jensen indicated that you had regular forms which we could complete and which should be submitted to your office. It is my understanding that there is legislation pending at the present time concerning water rights on ground water sources. I shall appreciate any information you can supply me concerning this problem.

With best personal regards.

Very truly yours,

James E. Kraus
Associate Director

OF WATER TO BENEFICIAL USE

Notice is hereby given, that at 10:00 A.M. on the 17 day of November, 1953, at Moscow, County of Latah, State of Idaho, before Gene Slade, Notary Public, ~~that will be~~ submitted of the application to beneficial use of 1.75 second per second of the water of ~~surface~~ ~~subterranean~~ ~~flow~~ from a ~~well~~ ~~in~~ accordance with the ~~terms and conditions~~ of Permit No. ~~1745~~ heretofore issued by the Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The Regents of the University of Idaho, Moscow, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is 1.75 second feet.

The place where said water is used N.W. $\frac{1}{4}$ Section 10, T. 3 N., R. 3 W. 3 West B.M.

The name of the canal or ditch or other works by which said water is conveyed to such place is ~~the University of Idaho~~

~~the University of Idaho~~ Permit No. ~~1745~~

The source of supply from which such water is diverted is a drilled well located about 2250 feet south of the Northwest Corner of Section 10, Township 3 North; Range 3 West B.M. and in the S.W. $\frac{1}{4}$ N.W. $\frac{1}{4}$ of said Section 10.

The date of priority which said user is prepared to establish is March 12, 1951.

MARK R. KULP,

State Reclamation Engineer
