Dear Mr. Swanson:

We are in receipt of your corrected depositions in proof of Beneficial Use under Permit No. 21682, which with the affidavit of publication, previously received, complete your proof of Beneficial Use.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Swanson:

We acknowledge receipt of your letter of July 31, 1951 in the depositions of yourself and two witnesses in proof of Beneficial Use, under Permit No. 21682, together with affidavit of publication in the Caldwell News Tribune.

However, none of these depositions give the legal description of the point of diversion or place of use as called for in question 4 of all the depositions, and question 6 of your own deposition, and question 7 of the depositions of your two witnesses.

The depositions are therefore returned for correction as above.

We also return Permit No. 21682, and your receipted bill on the cost of publication, which you will doubtless wish to keep in your own files.

Very truly yours,

Gentlemen:

We are in receipt of a copy of your issue of July 2, containing notice of beneficial use proof on Permit No. 21682 of Oscar H. Swanson.

There is one error in the first line of the Notice which should 2:00 P.M. instead of 2:00 A.M.

Also, the name "Mark R. Kulp" should be above his title of State Reclamation Engineer.

Please make these corrections in your subsequent issues.
