21629

STATE OF IDAHO, }
County of Canyon } ss.

H. G. Cochran

, being first duly sworn, deposes and says;

That he is the *Principal Clerk* of CALDWELL NEWS-TRIBUNE, INC., publisher of The Caldwell News-Tribune, a daily newspaper published at Caldwell, Idaho, within the meaning of Chapter 154 of the 1933 Session Laws of Idaho; published six consecutive days a week except legal holidays. And that the publisher of said The Caldwell News-Tribune, a daily newspaper, has all the time since the 5th day of July, 1933 and in each issue thereof, at the head of the editorial column of said newspaper, announced the day of the week to-wit: Saturday, on which legal notice required by law or by order of any Court of competent jurisdiction to be published weekly, will be published; that the said paper is in general circulation in Canyon County, Idaho and has been for a period of seventy-eight weeks preceding the first publication of this advertisement, a copy of which is attached hereto, and by reference thereto made a part of this affidavit, and was published in the regular

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 31st day of May, 1951, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, a notary public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of drilled wells (2) cased in accordance with the terms and conditions of Permit No. 21628 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are G. A. Saxton, Route No. 4, Caldwell, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is 3.2 Cubic Ft. per second.

The place where said water is used T3N-R3W B. M. Section 29, SW1SW1, SE1SW1, Section 32, NW1NW1, NE1NW1, NW1NW1.

The name of the canal or ditch or other works by which water is conducted to such place of use is Private ditches or irrigation system.

The right to take water from such works is based upon Permit No. 21628.

The source of supply from which such water is diverted is from two drilled wells, in the SE1SW1 Section 29, and NW1NE1 Section 32, Twp. 3 N., Range 3 W., B. M.

The date of priority which said user is prepared to establish is July 27, 1950.

MARK R. KULP,
State Reclamation Engineer.

License and Certificate of Water Right

Water License No. 21628

Amount 2.7 second feet

Water District No.

Priority July 27, 1950

THIS IS TO CERTIFY that G. A. SAXTON
of Route 4, Caldwell, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 27, 1950; that Permit No. 21628
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
three second feet, was issued thereunder on February 13, 1951, showing that said works
were completed on the 7th day of February, 1951; and that on the 31st
day of May, 1951,

G. A. SAXTON
of Caldwell, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of two wells
, ~~subterranean~~ (subterranean flow), for the purpose of irrigation and
domestic use, under Use Permit No. 21628 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4920, on the 2nd day of June, 1952;
The right hereby confirmed dates from July 27, 1950;
The Point of Diversion ^{are} located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, and
in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 32, Tp. 3 N., R. 3 W., B. M. Canyon County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.7 cubic feet per second.

Description and location of use:

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29338
PERMIT No. 21628
DISTRICT No.

1. Name of Applicant: **G. A. SAXTON**
- Postoffice address: **Route 4, Caldwell** County: **Canyon** State: **Idaho**
- I. If applicant is a corporation, give:
- (a) Date and place of incorporation:
 - (b) Amount of capital stock:
 - (c) Amount paid in:
 - (d) Names and addresses of directors:
- II. The financial resources of the applicant are:
- (a) Cash on hand:
 - (b) Treasury stock:
 - (c) Bonds to be issued:
 - (d) Other resources:
2. Quantity of water claimed: **160 inches or 3.2** cubic feet per second.
3. Source of water supply: **Subterranean flow from two wells** which is a tributary of
4. Location of point of diversion: **See Remarks** feet distant from the
corner of Section , T. , R. , B. M., and is in the
of Section 29 & 32, T. 3 N. , R. 3 W, , B.M., County of **Canyon**
5. Water is to be used for **Irrigation and domestic purposes.**
6. If for mining, milling, power or manufacturing purposes, give:
- (a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the of Section , T. , R. , B.M.
 - (b) Amount of power generated: H.P., under feet head.
 - (c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.
7. Estimated cost of works: \$ **9,000.00**
8. Kind of works: **Wells, p8mps and ditches- partly sprinkler system.**
9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:
10. Size of headgate: Width feet; height feet.
11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume:
Diameter of pipe inches; length of conduit miles.
Average grade per mile feet.
12. The time required for the completion of such work is **Two (2)** years.
13. The time required for the complete application of the water to the proposed use is **Three (3)** additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.
15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **Water right in Wilder Irrigation District for rest of the land in the subdivisions described.**

16. (a) Is reservoir to be used? **No** If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

WATER RIGHT DATA ENTRY LOG

[illegible]

March 4, 1961

Re: License No. 21628

Mr. Harvey N. Saxton
Route #4
Caldwell, Idaho

Dear Mr. Saxton:

Your present water licenses were checked in connection with your application for permit sent in by the Idaho Land and Appraisal Service.

The land list shown on Water License No. 21628 is in error on our record. The lands in Section 32 are shown as NW NE 30 acres; Lot 2 40 acres; NE NW 40 acres, whereas NW NW should be shown instead of Lot 2. The land list in Section 32 are shown correctly as SW SW 40 acre; SE SW 22 acres. Lot 2 of Section 32 is evidently the NE NE.

Kindly return the Water License No. 21628. The correction will be made to show the correct land description.

Very truly yours,

GEO. M. CARTER
State Reclamation Engineer

GNC:R:ew

May 19, 1952

RE: Permit No. 21628

Mr. G. A. Sexton
Caldwell
Idaho

Dear Mr. Sexton:

The report of our field engineer on examination for beneficial use under Permit No. 21628 shows that your two wells in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Township 3 North, Range 3 West, B.M., will deliver 135 inches, and that you have irrigated 172 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, NW $\frac{1}{4}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 32, Township 3 North, Range 3 West, B.M.

Therefore, upon receipt of the statutory fee of \$12.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a license will be issued for 135 inches, or 2.7 second feet of water from said wells.

Very truly yours,

21628

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21628This proof is for Beneficial use In Water District No. _____1. Name of applicant G. A. Saxton, Route 4, Caldwell, Idaho2. Source of water supply: Two drilled wells (subterranean)3. Location of point of diversion: Is in the SE 1/4 Sec. 29, and NW 1/4 of Section 32T. 3 N. R. 3 W. County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same: This irrigation system consists of 2 wells with sprinkler systems covering all of the land indicated above the canal and is almost entirely primary water. On Well No. 1, the water is delivered into a fairly large open pool that serves as a sand trap. From this it is picked up with an Ingersoll Rand centrifugal pump and delivered to the field through a sprinkler system. Well No. 1 was bored 185' deep but is now 112' deep by 12" diameter, cased down 156'. Pump is down 90', 80' of 8" column. Pump is 2 stage with 10" bowls. Static water H. is 60', draws down to 74'. This system uses from 64 to 70 sprinkler heads, Rainbird 40, size 1/8" by 3/16". Pump delivers 75" of open delivery through 30' of 8" pipe. There is no house nor protection. There is a heavy concrete curbing around the top of the well approximately 4' by 4' serving as a base for the pump and motor. Motor is 15 h.p. U.S. 220 V. 60 cycle, 3 phase, 1800 r.p.m. No. 253901. Pump is Byron Jackson, designated as 720 g.p.m. at 70' lift, operating at 1750

5. Water is used for: Irrigation.

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE 1/4 Section 29; NW 1/4 NE 1/4, NE 1/4 NW 1/4, NW 1/4 NE 1/4 Section 32; Twp. 3 North, Range 3 West, EM
See Map

4- r.p.m. Meter and controls for this and the auxiliary pump and motor are mounted on a panel approximately 6' South of the well. The booster pump is 4" by 3" Ingersoll Rand, centrifugal, operating at 3400 r.p.m., driven by U.S. motor, 40 h.p. 220 V. 98 amps. 3 phase, 60 cycle, No. 2171982. Auxiliary pump and motor are mounted in a concrete pit approximately 4' by 8' by 3 1/2' deep, immediately against the North of the well. There is 1260' of 8" aluminum main, 1290' of 6" aluminum main, 1290' of 5" aluminum main, and 5 lines of laterals, each 660' long by 3" diameter aluminum pipe. Well No. 2 is 176' deep now 158' deep by 12" in diameter, cased down 159'. Pump sets down 100'. 9 stages, 8" bowls, 6" column. Static water H. is 60', draws down to 74'. There is no house nor protection for this motor and pump. There is a concrete base approximately 3 1/2' square. The pump is a Peerless, No. 87309. Motor is 40 h.p. U.S. 3 phase, 60 cycle, 220 V. 98 amps. 1800 r.p.m., No. 866700. Delivery is to the South through a 6" pipe into an 8" line into (Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: 4) a closed sprinkler system. There are 64 sprinkler heads, size 1/8" by 3/16". There is 580' of 8" steel pipe, 240' of 6" steel pipe, 1320' of 6" aluminum main, 2 laterals each 660' by 5" diameter aluminum pipe. There is an additional 1 1/2 mile of 3" aluminum laterals, 300' of 4" aluminum laterals and an additional 200' of 4" aluminum main. Water temperature is 62° Fahrenheit.

This examination was made on the 14th day of May, 19 52(Signed) E. M. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 21628

Mr. G. A. Saxton
Route 4
Caldwell, Idaho

Dear Mr. Saxton:

We have received from Mr. Harley M. McDowell, the depositions of yourself and two witnesses, also Affidavit of Publication in the Caldwell News-Tribune, all submitted in Proof of Beneficial Use under Permit No. 21628.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 21628

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. G.A. Saxton - Route # 4, Caldwell, Idaho, Occupation fruit grower, Residence Approximately 8 Miles Due South of Caldwell.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit # 21628, Dated October 4, 1950. (applied for July 27, 1950).

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water through two drilled wells - #1, SE $\frac{1}{4}$ SW $\frac{1}{4}$; Sec. 32, #2, NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 29; T 3 N - R 3 W B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Two 12" wells with ave depth of 180 Ft. - Ave. Depth of water 70 ft. Well in Sec. 29, 80 Miners inches; Well pump in Sec. 32, 65 Miners inches. Both the above discharges from turbin type pump. Method of figuring well was by passage of water over a two foot weir. Well in Section 32 was originally measured by this method but at the present time it is directly connected to sprinkler system and gallonage delivery affirms the weir measurement.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water all used for irrigation, The total delivery is for 175 Acres; located in T 3 N - R 3 W B.M. Section 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, and in Section 32, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Lot 2(NW $\frac{1}{4}$ NW $\frac{1}{4}$), NW $\frac{1}{4}$ NW $\frac{1}{4}$. All of the remaining acreage (40 approx, of the 215 originally estimated) is under gravity irrigation. Sec. 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$ 40 Acres irrigated, SE $\frac{1}{4}$ SW $\frac{1}{4}$ 20 acres irrigated, Sec. 32, NW $\frac{1}{4}$ NW $\frac{1}{4}$ 40 Acres irrigated from the well in Sec. 29. In Sec. 32, NE $\frac{1}{4}$ NW $\frac{1}{4}$ 40 Acres, NW $\frac{1}{4}$ NE $\frac{1}{4}$ 35 acres irrigated from well in Section 32. Spent some \$3,000 levelling. Well in Sec. 29, cost \$1500 to drill, pump cost \$3,000; Well Sec. 32, Drilling \$1500 and pump. \$2800.

21628

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. NONE

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. NONE (One Inch Per acre).

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ---

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Used first October 1950, First used 65 miners inches for 30 days, The remaining 80 inches was first used April 15, 1951, also used the other 65 inches this spring beginning April 15, 1951. Used steady to date.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters have been used on the use of this 175 acres, however, under intensive cropping it is thought that another 30 miners inches will be needed to completely develop this 175 acres (my capacity from the wells now in place is 145 miners inches).

(Sign) J. P. Saxton

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise,

County of Ada, State of Idaho, on this 31st day of May,

A. D. 1951,

My commission expires 10-11-51

J. P. Saxton
Harley W. Windom

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21628

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Anton S. Horn - Age 38, - Residence and postoffice address,
920 North 20th, Boise, Idaho. State Extension Service, Occupation.

Ques. 2. Are you acquainted with G.A. Saxton, the
holder of Permit No. 21628? How long have you known him and where does
he reside?

Ans. Known the past 5 years, he resides some 8 Miles South of Caldwell.

Ques. 3. Have you read or heard read said Permit No. 21628, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source of water supply is two drilled wells with 12" casing
and turbin type pumps on each. Attached to Sprinkler systems for
distribution. One well NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 29, the other well SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 32.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate 145 miners inches all conveyed and used as above described.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. The pumps will deliver approximately Sec. 29, 80 Miners inches;
Sec. 32, -65 Miners inches. I estimate this from my experience in the
past, also by the amount of land irrigated (approx 175 acres, but not
enough for heavy irrigation of more than 140 to 150 acres) then by the
capacity of the sprinkler heads.

21628

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All water is used for irrigation, and Sec. 32, NW $\frac{1}{4}$ NW $\frac{1}{4}$ - 40 Acres
NE $\frac{1}{4}$ NW $\frac{1}{4}$ - 40 Acres, NW $\frac{1}{4}$ NE $\frac{1}{4}$ - 35 Acres, Section 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$ - 40 Acres,
SE $\frac{1}{4}$ SW $\frac{1}{4}$ - 20 Acres.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. NONE

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has been reclaimed very well, highly productive, but for maximum production another 30 to 40 miners inches is needed.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. NONE

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During Fall of 1950 some 65 acres use, and this spring the whole 175 acres was in crop with the estimated 145 inches of water being used.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise,
County of Ada, State of Idaho, on this 31 day of May,
A. D. 1951.

Notary Public.

My commission expires 10-11-51.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21628

9vib

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. S.C. Vandenburg, Age 57, Residence 1711 Harrison Blvd., Boise, Idaho
Postoffice address 206 Sun Bldg.

Ques. 2. Are you acquainted with G.A. Saxton, the holder of Permit No. 21628? How long have you known him and where does he reside?

Ans. I have known him the past 20 years and he lives on his ranch
8 Miles South of Caldwell, Idaho

Ques. 3. Have you read or heard read said Permit No. 21628, yes, and are you familiar with its provisions and conditions?

Ans. Yes I have looked at the permit and am familiar with the
provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. He has two wells located in Sec. 29, NW 1/4; Section 32, SE 1/4,
the wells are equipped with pumps (wells are 12" casing) pumps are
equipped to produce some 145 miners inches, one (in Sec. 29) well is
connected to sprinkler system, the other through regular gravity ditches,
to a retaining pond where it is also routed through a sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate and have seen approximately 145 miners inches of water
so conveyed and used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. The pump in Sec. 29, 80 Miners inches, the pump and well in Sec. 32,
65 Miners inches, this was estimated from seeing the water pass over
a 2 foot weir and the one by sprinkling system capacity.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All water used for irrigation, and Sec. 32 NW $\frac{1}{4}$ NW $\frac{1}{4}$ - 40 Acres, NE $\frac{1}{4}$ NW $\frac{1}{4}$ - 40 Acres, NW $\frac{1}{4}$ NE $\frac{1}{4}$ - 35 Acres. Section 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$ - 40 Acres, SE $\frac{1}{4}$ SW $\frac{1}{4}$ - 20 Acres.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. NONE

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has been put in good condition for cropping, it is highly productive, but needs another 40 or at least 30 inches to be fully productive with row crops or orchard.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. NONE

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Fall of 1950 on some 65 acres and this spring (1951) on all the above described 175 acres, this might need more water for orchard or intensive row crops.

(Signed)

J. C. Vandenberg

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 31st day of May, 1951,
at Boise, County of Ada, State of Idaho, before
Harley M. McDowell, A notary Public; proof will be submitted of the
application to beneficial use of 3.2 cubic feet per second of the waters of drilled wells (2).
canal in accordance with the terms and conditions of Permit No. 21628
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

G.A. Saxton, Route # 4, Caldwell, Idaho

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is 3.2 Cubic Ft. per second.

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) T 3 N - R 3 W B.M. Section 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, NW $\frac{1}{4}$ NE $\frac{1}{4}$,
NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$

The name of the canal or ditch or other works by which said water is conducted to such place of
use is Private ditches or irrigation system.

The right to take water from such works is based upon Permit No. 21628.

The source of supply from which such water is diverted is From two drilled wells, in the
SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Twp. 3 N., Range 3 W., B.M.

The date of priority which said user is prepared to establish is Permit issued 11:30 A.M.
July 27, 1950.

MARK R. KULP
State Reclamation Engineer.

21628

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) April 23, 1951

(P. O.) Route # 1, Caldwell, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
CALDWELL TRIBUNE of Caldwell, Idaho published in
the county in which the works are situated.

J. A. Layton

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the _____ day of May, 1951, at Boise, Co. _____ of Ada, State of Idaho, before Harley M. McDowell, a notary public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of drilled wells (2) cased in accordance with the terms and conditions of Permit No. 21628 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are G. A. Saxton, Route No. 4, Caldwell, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is 3.2 Cubic Ft. per second.

The place where said water is used T3N-R3W B. M. Section 29, SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, NW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$.

The name of the canal or ditch or other works by which water is conducted to such place of use is Private ditches or irrigation system.

The right to take water from such works is based upon Permit No. 21628.

The source of supply from which such water is diverted is from two drilled wells, in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Twp. 3 N., Range 3 W., B. M.

The date of priority which said user is prepared to establish is July 27, 1950.

MARK R. CULP,
State Reclamation Engineer.
No. 417—May 5 12-19-26.
