RE: Permit No. 21606

Mr. Frank D. Douglas
Route 4
Nampa, Idaho

Dear Mr. Douglas:

I am sorry we did not check your proof of completion of works on Permit No. 21606 when you and Mrs. Douglas were in the office because on checking with the original Permit, we find the following discrepancies:

1. The Permit describes the point of diversion or location of the well as in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 16, Township 2 North, Range 2 West, B.M. but your proof gives it in the NE $\frac{1}{4}$ SE $\frac{1}{4}$.

2. The Permit describes the place of use as 37 acres lying in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$; whereas, your proof describes 37 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$.

If there is an error in your proof, we can correct it to agree with the Permit upon your authorization to do so. On the other hand, if there has been a change in the location of the well and the land to be irrigated, it will be necessary to file an application for amendment, a form for which we can furnish you upon request.

Very truly yours,

RE: Permit No. 21606

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Frank D. Douglas
Route 4
Hampe, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21606 you are required to complete your diversion works on or before July 19, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
