The well on section 16 is 84' deep x 8" diameter cased very short distance to lava rock. The water stands at approx. 12' for h., it varies as to season. The drawdown is not over 12". Believe they would produce more water with a larger pump and motor.

The pump and motor are located in a pit, concrete, size 56" x 56" x 10' deep. It is approx. 20" above ground level and covered over with a board roof. Discharge is to the North or East thru a 4" pipe 8' long into an open ditch or sump. The pump and motor sit in the bottom of pit on concrete floor.

The pump is a Fairbanks-Morse 5" intake 4" discharge, centrifugal mounted horizontal. Serial is CF 49607

The motor is a 3hp. Robbins and Myers, single phase, 220 v.,

The discharge 42 inches measured with the V notch weir. Temp. is 59½°F.

The well on section 18 is 83' deep with a 10" d. cased also only to rock which is a very short distance. H. is approx. 16' and drawdown approx. 12". There is 20' of suction pipe below the pump.

Pump and motor set in a pit, concrete, size 61" x 71" x 8' deep. There is no concrete floor in the pit. Pit is covered with board roof.

The pump is a Fairbanks-Morse size 4 x 5 mtd horizontal.
The motor is a horizontal 3hp. Fairbanks-Morse, single phase, 220 v.
18.5 amps, 1745 rpm. # 469235.

The water temp. is 57°F.

Water delivery is to the North into a concrete sump. Q is 42.7 inches.

There is also a Fairbanks-Morse domestic water system in this same pit. Motor is a 1 hp. single phase, 110 volts. A water tank also sets in the pit. Pipes lead to the house which is a short distance to the East.

Dear Mr. Tiegs:

We acknowledge receipt of the corrected depositions of yourself and two witnesses in Proof of Beneficial Use under Permit No. 21426.

These, together with the Affidavit of Publication in the Idaho Free Press, previously submitted, completes your Proof of Beneficial Use, but before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Tiegs:

We return the depositions of yourself and two witnesses submitted in Proof of Beneficial Use under Permit No. 21426 for completion as follows:

1. Question 5 in your own deposition should more fully describe the works, that is, give the size and depth of well, kind and size of pumps.

2. Question 6 of both witnesses should give the legal description of the land where the water has been used.

We also return your receipt (No. 22357) for the \$5.00 fee paid in connection with Proof of Completion of Works. There will be another small fee due when the Proof of Beneficial Use is complete and an examination made by the field Engineer from this Department. You will be notified of that amount later.

Dear Mr. Teigs:

We return your affidavit submitted in Proof of Completion of Works under Permit No. 21426 for correction as follows:

Question 8 describes the SE¹/₄ NE¹/₄ of Section 16 and part of the NE¹/₄ NE¹/₄ of Section 18, but your Permit describes the SE¹/₄ NE¹/₄ of Section 18.

Is this an error in your proof or was the land incorrectly described in the Permit itself?

There is a statutory fee of \$5.00 in connection with this proof.

Re: Permit No. 21426

Mr. Elmer Tiegs
Route 3
Nampa, Idaho

Dear Mr. Tiegs:

We enclose Permit No. 21426, and direct your attention to the limitations and conditions of same as given on the fourth page under approval of State Reclamation Engineer.

Since your application states that the works are completed, we have allowed three months or until June 28, 1950, within which to make the two statutory proofs necessary to complete the water right. These proofs, however, may be made at any time prior to that date.

The first proof or proof of completion of works is made by executing Form 6 enclosed before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which, a Certificate of Completion of Works will be issued.

The final or beneficial use proof requires publication once a week for four consecutive weeks in a county newspaper, prior to the date set for making proof. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set, you should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

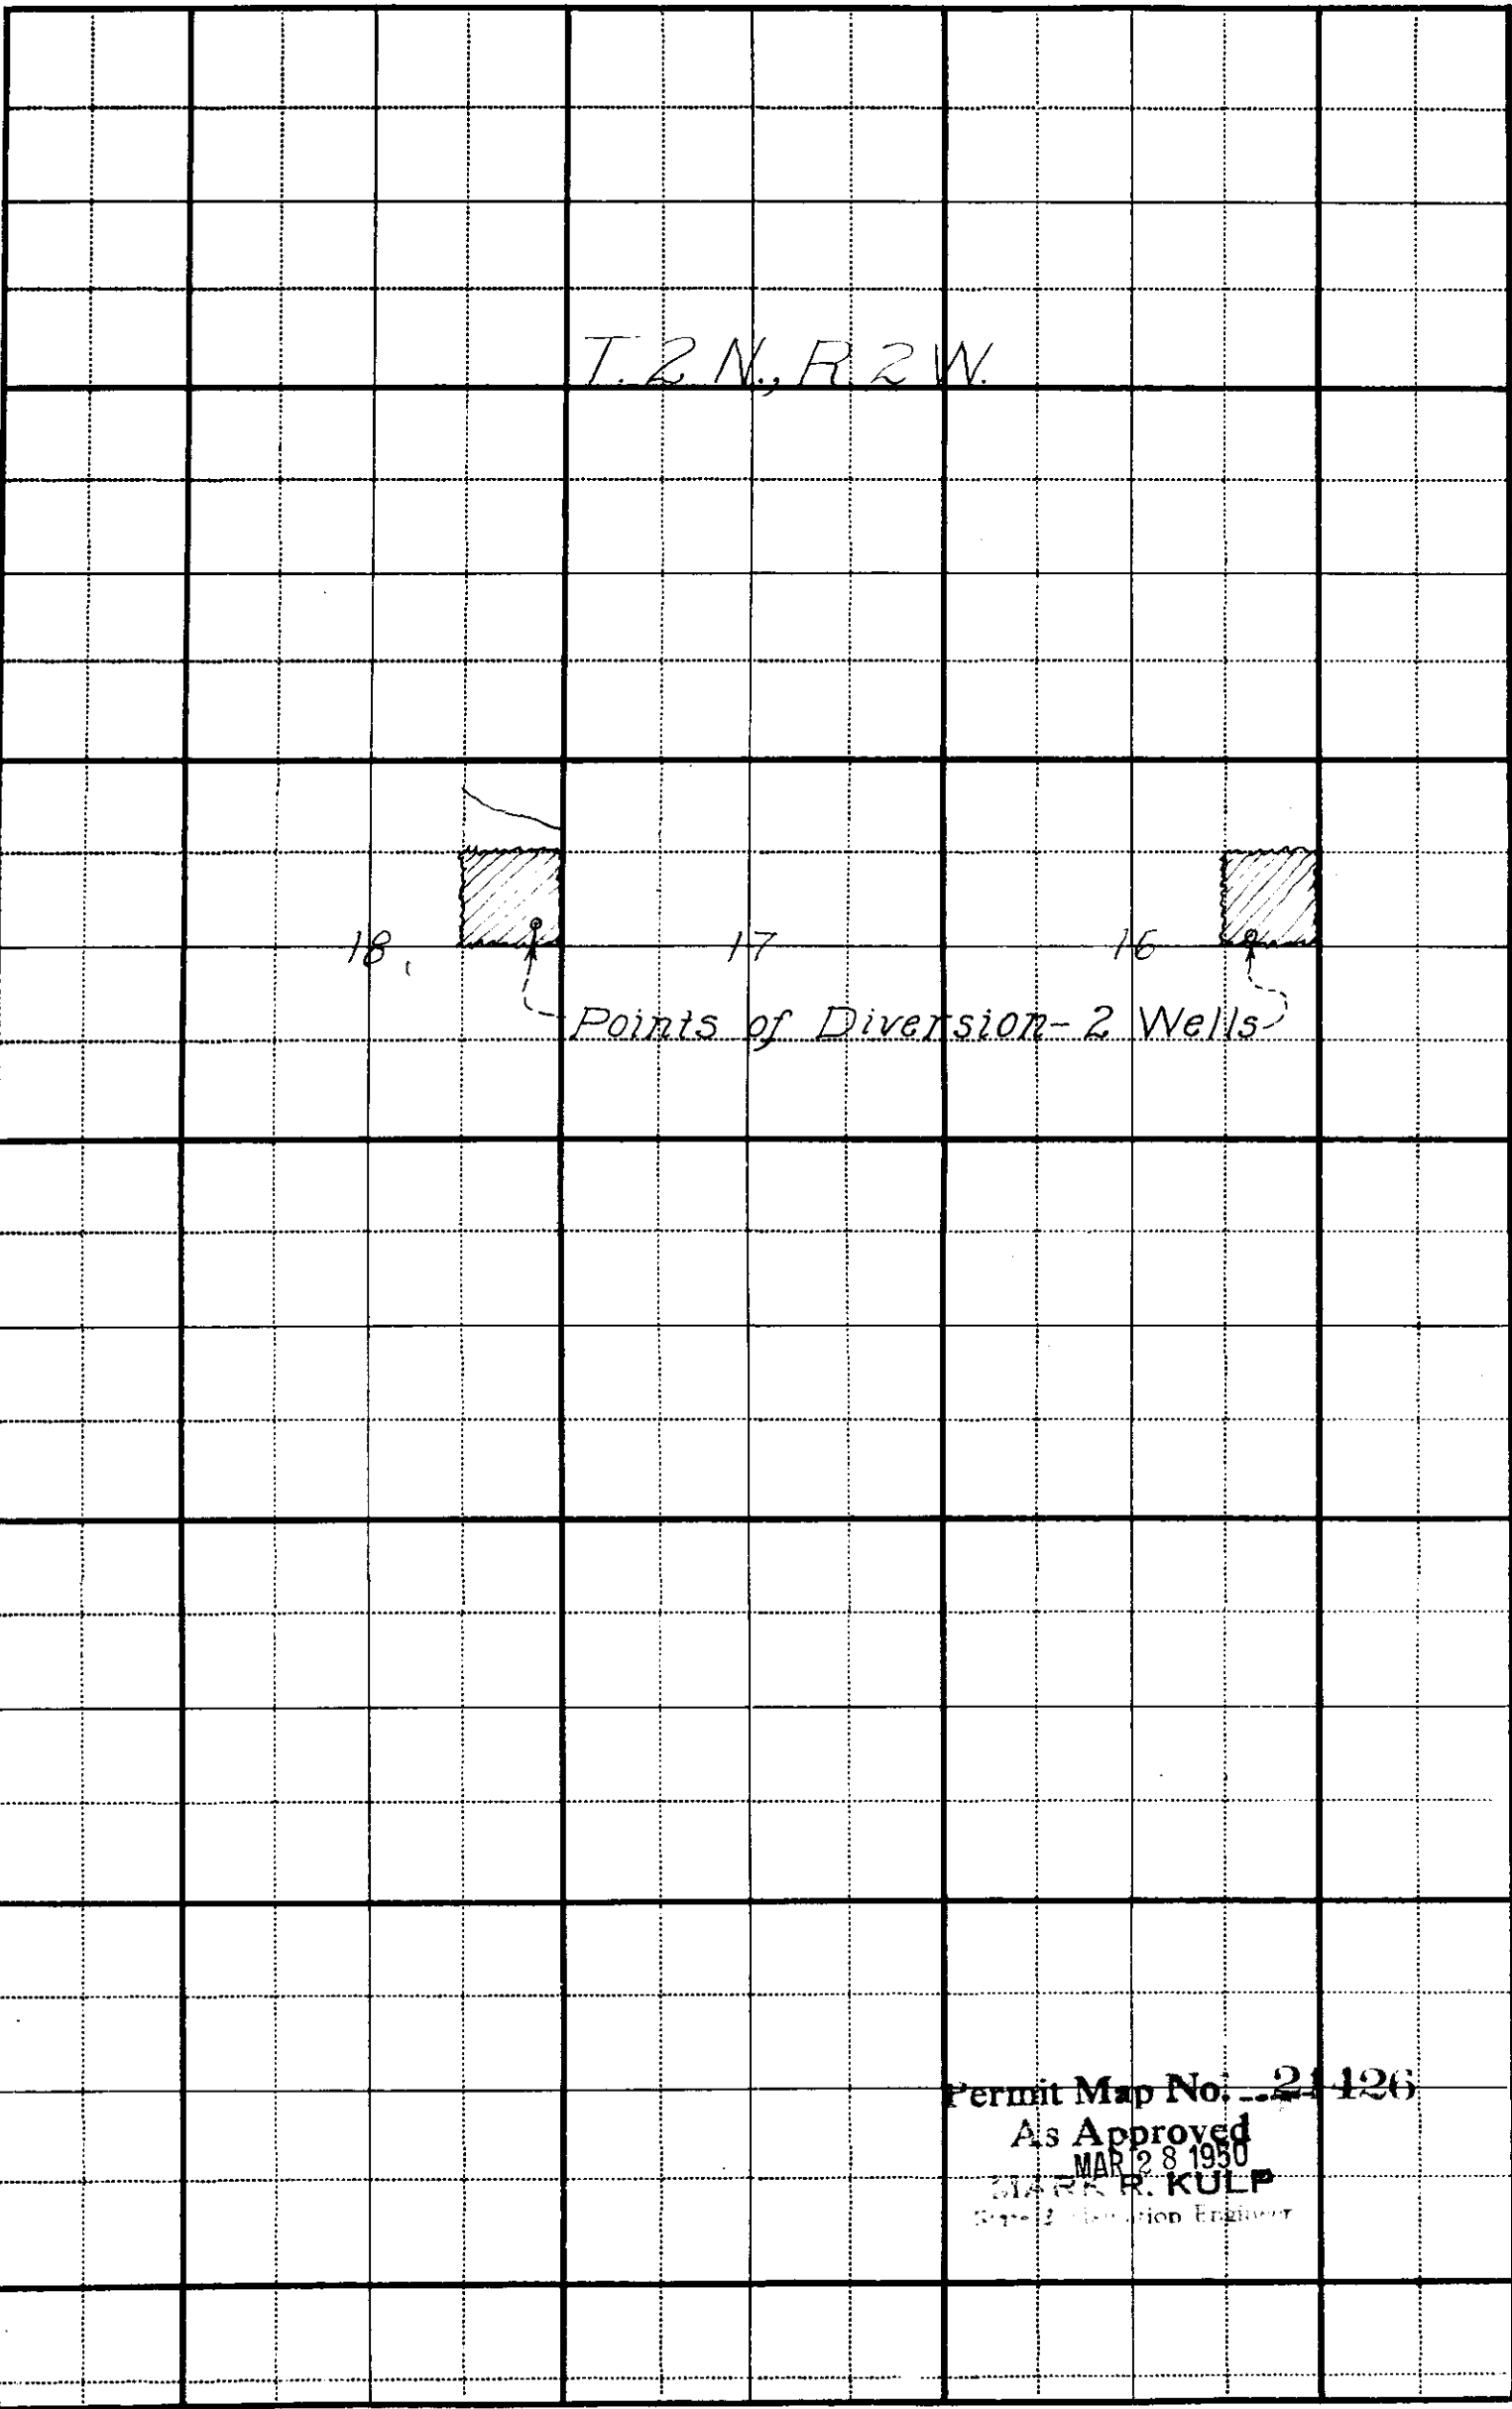

Very truly yours,
