FROM: PAM SKAGGS²/STATE OFFICE

SUBJECT: TRANSFER NO. 4339

DATE: June 9, 1994

=====

Transfer No. 4339 was filed to add a new well to an existing system. Depending on the production of the new well, the system will use both or the old well will be used as a back-up well when needed.

A drilling permit was issued at the same time the transfer application was submitted. Recommended conditions include irrigation overlap, multiple points of diversion/measuring devices and standard transfer conditions.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is Approved.Date: 4-19-94

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

CONDITIONS OF APPROVAL:

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If the bottom hole temperature of 85 degrees or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Drilling fluids shall be developed with water which meets or exceeds drinking water standards.
9. If an annular seal of bentonite is to be utilized, it shall be a high solids (>30) bentonite. The bentonite shall not contain chemical polymers which effect long term stability of the seal and are often found in drilling fluid grade bentonites, but rather will be specifically recommended by the manufacturer for use as a seal in the construction or abandonment of water wells.
10. Applicant requests issuance of this Drilling Permit prior to approval of a Water Right or Transfer of a Water Right. Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the diversion of water from this well may not ultimately be approved for use.
11. A well drilled pursuant to this permit must be located at least 500 ft. from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
12. The owner, operator or contractor will notify the Department of Water Resources at the time drilling commences on this well, if that date is not the same as specified on this permit. Also notification will be made to the Dept. 12 Hrs. prior to the anticipated time of placement of casing and seal within this well so it may have someone on site.

(Continued)

CONDITIONS OF APPROVAL:

13. If an annular space of at least 4 inches greater than the outside diameter of the casing is provided a granular bentonite or bentonite chips may be poured at the manufacturers recommended rate or no greater than 50 pounds in five minutes. The pour shall also be sifted through 1/4 inch mesh screen to reduce the introduction of fines unless the annular space is free of water ie. (above the water table and there is no cascading water). The top of the seal shall be tagged at regular intervals ie. (30' intervals) during placement with a sinker bar or other appropriate device to ensure the seal is reaching the intended depth. If bridging occurs the seal shall be tampered to its intended position or the Department will be contacted for evaluation.
14. The screen, perforated, filterpacked or otherwise open and commingled strata which are to be produced from, shall be of similar hydraulic head, temperature and quality. If there are notable variations encountered as the well is drilled and/or developed the Department will be notified for evaluation.
15. As this is a replacement well, the well being replaced shall be abandoned by a plan approved by the Dept. which meets State minimum construction standards 3,12,1.
16. The seal shall extend through an aquitard at a minimum depth of 150'. If this aquitard is has considerable thickness, information can be provided to the department for review for consideration to be given to terminating the seal without full penetration of the aquitard.
17. The well which this well is supplementing or replacing may be used for domestic purposes. If the well is not put to beneficial use it shall be abandoned per condition condition #15.

Dear Mr. Hockberger:

It appearing to the Department of Water Administration that the terms and conditions of Permit 21367/63-2798 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee of \$4.00

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before Sept. 18, 1971, why said permit should not be cancelled.

Permit 21367/63-2798 claims the use of 1.6 cubic feet per second of water from a ground water source, the point of diversion was to be located within the NE¹/₄SE¹/₄ of Sec. 25, T. 3N, R. 4W, B.M. and the permit was approved February 11, 1950.

Re: Permit No. 21367

Mr. John J. Hockberger
Route # 4
Caldwell, Idaho

Dear Mr. Hockberger:

Our field engineer's report on the inspection of application of water to beneficial use under the terms of Permit No. 21367 shows that your well is capable of conveying 35 miner's inches (.7 c.f.s.) of water for irrigation of 65 acres. This permit is now entitled to a License and Certificate of Water Right.

Upon receipt of the statutory fee of \$4.00, we will issue the License confirming the right with priority of February 6, 1950, to your use of .7 second foot of subterranean water with the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 25, for irrigation of 65 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 25, Township 3 North, Range 4 WEM.

Dear Mr. Hockberger:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Idaho Free Press, all submitted in Proof of Application of Water to Beneficial Use on Permit No. 21367.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. 21367

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John J. Hockberger, Route #4, Caldwell, Idaho.

Occupation: Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

I own the property.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21367, dated 1:25 P.M., February 6, 1950. Priority date is same.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean flow from a well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 25 T3N R4W, B.M.,
County of Canyon.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth of well: 175 feet. Size of casing: 12 inch. Water stands in well
at 92 feet and drawdown while pumping is at a consistent 112 feet. Pump-
ing level has never gone lower than the 112 foot mark. Open flow 24 hours
from end of 8 inch pipe was measured by pump installation crew at 65
Idaho inches. Sixty-four sprinkler nozzles at eight to nine gallons a minute
at 25 to 35 pounds pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic and irrigation. Irrigates all 40 acres of NE $\frac{1}{4}$ of SE $\frac{1}{4}$ and
south 25 acres of SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T3N R4W, B.M. All irrigated land
has been producing an excellent alfalfa hay crop for many years. During the
last three years approximately 40 acres of orchard has been interplanted
in the alfalfa acreage. Extensive land leveling was completed on all
irrigated acres before crops were planted, and a buried steel main line
with risers and booster pump was installed.

21367

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Owing to the sandy texture of the soil a minimum of one Idaho inch to the acre is required.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

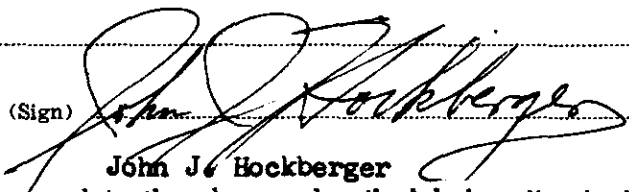

Ans. Purchased from Ora Wallace by Anna Hockberger and John Hockberger. Then John Hockberger bought the part interest from Anna Hockberger.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Entire 65 Idaho inches has been used to irrigate the 65 acres for farm crops and orchard every year.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other source of water has been used.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~Very sandy soil with cinders and gravel below the top soil. This land requires at least an Idaho inch per acre.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~Each year for the last seven or eight years.~~

RE: Permit No. 21367

Boise, Idaho

March 1, 1967

John J. Hoekburger & Mrs. Anna S. Hoekburger
Route #4 28 Orchard Blvd.
Caldwell, Idaho Nampa, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 21367. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than May 1, 1967, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP
