Mr. Bruce L. Hoofnagle
Rt. # 4,
Nampa, Idaho

Dear Mr. Hoofnagle

Statutes requires a field inspection in connection with the proofs on Permit # 21345 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Wednesday, May 22, 1957 about noon.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

ATTENTION: Mr. John H. Brandt

Dear Mr. Brandt:

We sincerely appreciate your prompt attention in securing the affidavit of Publication from the Idaho Free Press in connection with Permit No. 21345.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Hoofnagle at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Sir:-

Under the terms of your permit No. 21345 you are required to complete your diversion works on or before February 2, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
