Re: Permit No. 21268

Mr. James Clark Murphy
City Engineer
Nampa, Idaho

Dear Mr. Murphy:

We enclose Certificate of Completion of Works, also License and Certificate of Water Right, issued under Permit No. 21268, confirming the right of the City of Nampa to the use of 30 second feet of water from 23 wells, with priority of September 2, 1949, for irrigation of land as described in said License.

We also enclose Departmental Receipt No. 23457 for the \$11.00 fee on Proof of Completion of Works and Receipt No. 23352 for \$78.00, being the statutory fee in connection with Proof of Beneficial Use.

Very truly yours,

Re: Permit No. 21268

Mr. James Clark Murphy
City Engineer
Nampa, Idaho

Dear Mr. Murphy:

I hate to write it and of course you will hate to get it, but I did make a mistake in writing you on March 28, 1951, in regard to statutory fees in connection with Permit No. 21268, in the name of the City of Nampa.

In that letter I overlooked the fact that both Proofs of Completion of Works and Beneficial Use were made at the same time, and I only listed the fee in connection with Beneficial Use Proof which amounted to \$76.00, for which we received County Warrant yesterday.

The Statutes provide a fee on Completion of Works Proof amounting to \$5.00 for the first 10 second feet and \$.30 for each additional second foot, so on the 30 second feet claimed under this Permit, the fee will amount to \$11.00.

Re: Permit No. 21268

Mr. James Clark Murphy
City Engineer

Dear Mr. Murphy:

The report of our Field Engineer on examination for Beneficial Use under Permit No. 21268 shows that you have irrigated some 1,074 acres of land in 38 legal subdivisions from the 23 wells included in your Permit No. 21268.

Therefore, upon receipt of the statutory fee of \$76.00, which is at the rate of \$2.00 for each legal subdivision in which the land is located, a License will be issued for 30 second feet of water from these wells.

Very truly yours,

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Permit No. 21268
City of Nampa.

All wells in this filing were checked for location and found to be correct. The artesian wells deliver into Indian Creek and ~~are~~ re-diverted from there for use on the lands. The water table is high under all of this land and therefore, the pumps have a rather low lift. In fact, drainage is as much of a problem as was irrigation.

Well #1 is an artesian well and empties into Indian Creek to the North, immediately on the West side of the bridge. Delivery is a submerged delivery.

Well #2 - Motor and pump are in a concrete pit approximately 6' by 7' by 9' deep. Delivery is through an 8" pipe into an irrigation system.

Well #3 is located in the cemetery in the Northwest part of Nampa; is a surface installation, protected by a house 6' by 8' by 8' high. Delivery is made to the West through a 6" pipe or to the East through a 4" pipe.

Well #4 is also located in the cemetery; is a surface installation and located in a pump house and garage combination. Building size is approximately 12' by 16' by 8' high. The delivery is into a 6" pipe into a sprinkler system. Motor is a 25 h.p. U. S. Vertical, 3600 r.p.m., 60 cycle, 3 phase, 220 volts, Motor #856104. The pump is a Fairbanks Morse Pomona - PL6086.

Well #5 - The pump and motor are in a concrete pit approximately 5' by 7' by 20' deep. Has a 6" discharge to the East into an open ditch.

Well #6 is an artesian, delivering through an 8" pipe to the South into Indian Creek. Temperature is 62° F.

Well #7 is either artesian or pump. As an artesian, it delivers through an 8" pipe to the South into Indian Creek. As a pump, it delivers through a 4" pipe to the North into the irrigation system.

Well #8 is an artesian and delivers into Indian Creek on the West side of Third Street. Delivery is through an 8" pipe.

Well #9 discharges North into Indian Creek through an 8" pipe at stream level and a 5" pipe at approximately 4' greater elevation; both discharge at the same time. Water temperature is 62° F.

Well #10 - The pump and motor are located in a pit approximately 5' by 6' by 14' deep. Delivery is through a 6" discharge pipe to the North into an open ditch. Location is on Montana Avenue.

Well #11 - The motor and pump are located in a concrete pit approximately 5' by 6' by 10' deep. Delivery is through an 8" pipe to the West into a 24" distributing line.

Well #12 - Pump and Motor are located in a concrete pit 5' by 6' by 12' deep. Discharges through an 8" pipe. Location is on Chestnut and Montana Street.

Well #13 - Pump is in a shallow pit. Vertical type motor sets on top of the pit. Motor is covered at present with a piece of sheet metal pipe and an old cardboard box. Discharge is through an 8" pipe to the West into an open ditch. This pump is located on the South side of Kurtz Park.

Well #14 - Pump and motor are located in a pit approximately 4' by 8' by 3 $\frac{1}{2}$ ' deep. The discharge is through a 4" pipe into a sprinkling system. Motor sets horizontal.

Well #15 - Pump and motor sets in a pit approximately 5' by 6' by 12' deep. Delivery is through an 8" pipe into a tile pipe line.

Well #16 is at the intersection of 16th Avenue and Roosevelt Street. There is no pump or motor installation and no use being made of the well. This is a large, deep well, 24" casing and 515 feet deep; reported to have been over 700 feet when drilled, and cost over \$20,000.00. So much difficulty was encountered with sand being pumped into the system that it was abandoned for the present.

Well #17 - Pump and motor are located in a pit approximately 5' by 7' by 10' deep. Delivery is through an 8" pipe.

Well #18 - Pump and motor are located in a concrete pit approximately 5' by 6' by 12' deep. Delivery is through an 8" pipe to the North.

Well #19 - Pump and motor are located in a concrete pit approximately 5' by 8' by 8' deep. Delivery is through an 8" pipe to the North into the system.

Well #20 - Pump and motor are located in a concrete pit approximately 6' by 8' by 9' deep. Delivery is through an 8" pipe.

Well #21 - Pump and Motor are located in a concrete pit approximately 6' by 8' by 10' deep. Delivery is through a 6" pipe into a sump to the East, thence into the irrigation system.

Well #22 is located in a concrete pit approximately 6' deep. Pump and motor are horizontal. Discharge is through a 2" pipe into the system.

Well #23 has a 12" well casing. Pump and motor are located in a small concrete pit on South side of 4th Street at approximately #811. Delivery is through a 6" pipe into the irrigation system.

REMARKS

The checking was done in company with W. H. Arent of the Water Department of the City of Nampa. Notes were made in red pencil on the Proof of Completion of Works, deposition of the holder, and on a blue print of the filing map.

Everything was found to be in order. Nearly all of the pumps were located in concrete pits with a double board wooden cover and kept under lock and key. Most of the pits have a ventilation opening to provide for motor cooling.

These wells are for irrigation purposes and can, if necessary, be used in case of fire. This irrigation system has been a gradual development and these extra pumps were installed from necessity in order to furnish water for the suburban tracts around the edge of Nampa.

Mr. J. Clark Murphy
City Engineer
Nampa, Idaho

Dear Mr. Murphy:

In reply to your letter of February 12, 1951:

Permit No. 21268 is for 30 second feet of subterranean water from eleven wells located in Sections 22, 15, 23, 35, and 26, Township 3 North, Range 2 West, for irrigation purposes, and was filed September 2, 1949, the application being signed by Peter E. Johnson, Mayor.

Proofs of Completion of Works and Beneficial Use were made January 6, 1950 by yourself for Permit Holder and Van N. Load and Orin Henry as witnesses.

Your files should show a copy of your letter dated January 6, 1950, enclosing these proofs, and our acknowledgement of same under date of January 10, 1950.

Dear Mr. Murphy:

The City of Nampa wishes to bring to License its Permit No. 21268.

Under State Law, an inspection is required by this Department before issuing a License. We will need a map showing accurately the location of each and every well in relation to legal survey markers. Also, information on the following points:

1. Log of well.
2. Delivery from each, if possible.
3. Accurate descriptions as to pumps, machinery and etc.
4. Capacity of transmission pipes and etc.

Inasmuch as this will require some time, will you please advise us as to a time convenient to you for making this inspection. We would like to do this within the next sixty days if possible.

Dear Mr. Murphy:

We acknowledge receipt of your letter of January 6, 1950, enclosing Proof of Completion of Works under Permit No. 21268.

These depositions, together with the Proof of Beneficial Use have been placed on file, but before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Re: Permit No. 21268

Mr. James Clark Murphy,
City Engineer
Nampa, Idaho

Dear Mr. Murphy:

In reference to proofs of beneficial use submitted by you under the above numbered permit, in the name of the City of Nampa:

These proofs are satisfactory, but you have evidently overlooked the fact that two different sets of proof were advertised to be made at the same time- proof of completion of works as well as proof of beneficial use.

We enclose additional forms for making the proof of completion of works, in case you have misplaced those previously given you.

Very truly yours,

MARK R. KUIP
State Reclamation Engineer

AFFIDAVIT OF PUBLICATION

State of Idaho,
County of Canyon, ss.

Helen C. Norton, of Nampa, Canyon County, Idaho, being first duly sworn, deposes and says:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of twenty-one years, and not a party to the above entitled action.

2. I am the Principal Clerk of the Idaho Free Press, a daily newspaper published in the City of Nampa in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Nampa, and has been continuously and uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That Saturday of each week has been designated as the particular day of the week on which legal notices required by law or by order of any Court of competent jurisdiction within the State to be published weekly, will be published in said Idaho Free Press in compliance with the provisions of Section 58-108 I. C. A. 1932, as added thereto by Chapter 154, 1933 Session Laws of Idaho, and the Publisher of this newspaper in conformity with the provisions of said law, does, at the head of the Editorial Column of said paper, and in each issue thereof, announce Saturday of each week as the day of the week on which legal notices required by law or by order of any Court of competent jurisdiction to be published weekly, will be published.

4. That the notice, of which the annexed is a printed copy was printed in said Saturday issue of said Idaho Free Press for a period of four successive weeks in the regular and entire issue of each Saturday publication of said paper during the period and time of publication and was printed in the newspaper proper and not in a supplement.

5. That said notice was published in each and every Saturday issue, beginning with the issue of November 26, 1949, and ending with the issue of December 17, 1949.

Subscribed and sworn to before me this 28th day

Re: Permit No. 21268

Mr. James Clark Murphy
City Engineer
Nampa, Idaho

Dear Mr. Murphy:

We have sent to the Idaho Free Press, copy of Notice of Completion of Works and Beneficial Use Proofs to be made under Permit No. 21268 at 10:00 A.M. December 20, 1949, with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the Affidavit of Publication, together with statement of costs.

We believe that you were handed the necessary forms of deposition when you were in the office a few days ago, but to be sure, we are enclosing another set of forms consisting of depositions of the Permit Holder and two witnesses for each proof.

At the time set, you should appear before Mrs. Maud Henry together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

Gentlemen:

We enclose proof of notice of application
of the City of Nampa, with several corrections noted.

First, the word "annotated" in the heading
should be omitted, as per our letter of September 10.

Second, there should be no commas in the
second line of the description, between NW $\frac{1}{4}$ and NE $\frac{1}{4}$
and NE $\frac{1}{4}$ and SE $\frac{1}{4}$, Section 21.

Also, three lines have been omitted between
the signature of Mark R. Kulp, State Reclamation Engi-
neer and "service of the foregoing" as you will note
by referring to the copy. These three lines are:

Date of first publication:

Date of last publication:

Last date of protest: October 16, 1949.

Very truly yours,

Gentlemen:

Please make a correction in the Notice
we sent you yesterday, of the application of the
City of Nampa.

The second line in the heading should
read "Section 42-203, Idaho Code" instead of "Sec-
tion 41-203, Idaho Code Annotated."

Dear Mr. Murphy:

On all Permit applications for more than 25 cubic feet per second, the law requires publication once a week for three consecutive weeks in a county newspaper.

We enclose duplicate forms of notice in connection with the application of the City of Nampa to appropriate 30 second feet of subterranean water. Please acknowledge service on the original and return to this Department with Form 11 which is your authorization for us to have the notice published at your expense in the designated newspaper.

The duplicate copy may be retained for your own files.
