Re: Permits Nos. 21155 and 21156

Mr. Walter Dufresne
1002 Harrison Blvd.
Boise, Idaho

Dear Mr. Dufresne:

We now have on file the report of our Field Engineer on your Permits Nos. 21155 and 21156.

License will be issued under Permit No. 21156 for 0.05 of a second foot of water from a well in Lot 8, Block 46, Boise Original Townsite, for domestic use at your garage, upon receipt of the statutory fee of \$5.00.

The report on Permit No. 21155 seems to indicate that an error was made in describing the location of the well for use at your home. The Permit describes the well as being located in Lot 12, Block 8, Lamp's Addition to Boise City Townsite, whereas it is actually located in Lot 13.

This will require an amendment to the Permit on the form enclosed.

Upon receipt and approval of this amendment, a License can be issued under this Permit for 0.05 of a second foot of water for domestic use, sprinkling and heating at your home, the fee for which will also be \$5.00.

Very truly yours,

MARK R. KULP

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21155This proof is for Beneficial use

In Water District No. _____

1. Name of applicant Walter Dufresne, 1002 Harrison Blvd., Boise, Idaho
2. Source of water supply: Subterranean from a well
Addition to Boise City Townsite
3. Location of point of diversion: Is in the Lot 12, Block 8, Lamp's/ of Section _____
T. _____ R. _____ County of Ada
4. Describe works as they exist, giving dimensions and capacities of same: The well is 63' deep and casing is 6". The static height of water is 8', drawdown is unknown. Well and pump and all machinery is located in the basement of the House in the Northeast corner. Pump is a Fairbanks Morse Pamona Turbine #PE7411. Motor is a Fairbanks Morse 1½ h.p., single phase, 60 cycle, #6325477WB. Voltage is either 220 or 110, uncertain as to which one. There is actually two pumps in the well, one for the heating system and the other for the house and yard.
5. Water is used for: Domestic, yard sprinkling, and heating
6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lots 11, 12 and 13, Block 8, Lamp's Addition to Boise City Townsite

See accompanying map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Does not apply.

Remarks: _____

This well supplies water for the heating system which is reverse refrigeration.

Cost of the installation was over \$6000. The water is exhausted after extracting the heat back into the sewer system.

The pump given in this Permit furnishes water for the house and for the irrigation.

There is sufficient water and pressure to supply 35 sprinkler heads at full pressure.

Water is supplied to these sprinkler heads through a system utilizing 1 3/4" pipe at the rear of the lot and 3/4" pipe extending from that to the front of the lot.

Temperature of the water in the well is 52°F.

This examination was made on the 2nd day of October, 1950

Re: Permits Nos. 21155 and 21156

Mr. Walter Dufresne
Box 1534
Boise, Idaho

Dear Mr. Dufresne:

We acknowledge receipt of the depositions of yourself and two witnesses in proof of beneficial use under your Permits No. 21155 and 21156.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
