Dear Mr. Mather:

We acknowledge receipt of the Affidavit of Publication in the Idaho Mountaineer, which completes your Proof of Beneficial Use on Permit No. 21068.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Gentlemen:

We acknowledge receipt of a copy of your issue of April 12, containing Notice of Proof of Application of Water to Beneficial Use under Permit No. 21068.

We find this notice to be correct with one exception, as follows:

In the sixth paragraph, commencing "The name of the canal", the word "which" is omitted in the second line between the words "by" and "said". In other words, the second line should read "ditch or other works by which said", *etc.*

Please make this correction in your subsequent issues.
