Dear Mrs. Beougher:

We acknowledge receipt of the depositions of yourself and two witnesses; also Affidavit of Publication in the Caldwell News-Tribune, all submitted in Proof of Beneficial Use under Permit No. 20835.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolson, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Dear Mrs. Beougher:

In reply to your letter of October 11th,
requesting forms for making proof of beneficial use
under your Permit No. 20835:

Before this proof is made the law requires that
a notice of your intention to make such proof shall be
published once a week for four consecutive weeks, in
a county newspaper, prior to the date set for making proof.

This notice should be made out in duplicate, on
Form 10 enclosed, setting the time and place and naming a
Notary Public before whom the proof will be made. The
place may be at Caldwell, or any place convenient for you
and your two witnesses, and the date should be set sufficiently
far ahead to allow for the four weeks' publication. Both
copies of Form 10 to be returned to this Department, together
with Form 11, which is your authorization for us to have the
notice published, at your expense, in the designated newspaper.

If, however, you have not completed your leveling,
etc., as mentioned in your letter of August 30th, and if you
have not irrigated the entire acreage included in your permit,
it would be better for you to apply for extension of time for
making final proof, as you can only be given a license for
the amount of land actually irrigated.

Dear Mrs. Beougher:

We enclose Certificate of Completion of Works issued under your Permit No. 20835 for the diversion of 0.10 second foot of water from a well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 17, Township 3 North, Range 3 West, B.M. for irrigation and domestic use on five acres of land in the same subdivision.

We also enclose Departmental Receipt No. 21781 for the \$5.00 fee paid in connection with this proof.

It will not be necessary to make another Proof of Completion of Works when your leveling is finished. That is not considered a part of the diversion works but of course must be done before you are able to make Proof of Beneficial Use of the water for the irrigation of the land.

Under the terms of your Permit, this proof is due on or before December 31, 1949, but you may apply for an extension of time for making this proof for one year, two years, or three years as may be required.

We enclose herewith, a form of application for such extension which you may execute and return to this Department for approval.

Re.: Permit #20835

Dear Miss Anderson;

Thank you for your letter of August 25 enclosing the proof of completeing of works on the well we have drilled. The complete form is enclosed.

We are ready to file Proof of Beneficial Use if it is in order. The well is complete and the pump is in, but the growing season is now over and we do want to do some more leveling. Before making these improvements, will we have to furnish new proof?

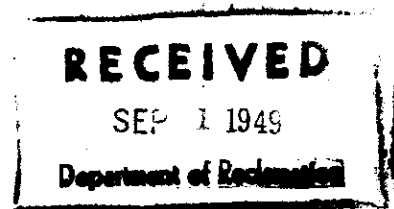

Kindly advise us what you require and we shall be guided by your suggestion.

Dear Mrs. Beougher:

We acknowledge receipt of your memorandum, stating that the well described under Permit No. 20835 is finished and in use for irrigation purposes only and not for domestic purposes.

Do we understand from this that you are prepared to make Proof of Completion of Works as described in the Permit? If so, you may execute the enclosed affidavit before a Notary Public and return to this Department with the statutory fee of \$5.00; upon receipt and approval of which, a Certificate of Completion of works will be issued.

There will then be the Proof of Beneficial Use required to complete your water right and obtain a License. However, this proof should not be made until the water has been fully applied to beneficial use and if you intend to use it for domestic purposes later on, an extension can be allowed of the time for making this final proof. Otherwise, if the water is to be used for irrigation only, you may make the proof at any time prior to December 31, 1949, and we shall furnish you the necessary forms upon request.
