Permit No. 20716This proof is for Beneficial use

In Water District No. _____

1. Name of applicant Walter L. Riddle, Route 4, Caldwell, Idaho
2. Source of water supply: Subterranean from a (well)
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 16
T. 3 N. R. 3 W. County of Canyon
4. Describe works as they exist, giving dimensions and capacities of same: Well is 180 feet deep. Diameter of casing is 8", cased completely to bottom. Pump and motor are mounted on a concrete base 34" square. No well house. The distance to water is 89 feet. Draw-down is unknown. The suction pipe extends down 110 feet. The pump is a Pomona that has recently been made over into a Peerless. The suction pipe is 5 inches, and the outlet pipe is 5 inches. The sump is a section of a concrete pipe 24 inches in diameter and 3 feet high. The motor is a Smithway vertical induction motor, 15 h.p., 3 phase, 60 cycle, 220 volts, Model 2505 B. Water temperature is 11 $\frac{1}{2}$ centigrade. The well and pump cost approximately \$2450 to begin with and has had \$643.90 spent since to rebuild the pump which was unsatisfactory. The pump now has 5 stages of impellers.
5. Water is used for: irrigation and domestic purposes.
6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 16, Township 3 North, Range 3 West, B. M.

All but approx. 1 acre, which can be when leveled, is now irrigated.

Mr Riddle says he put down the first well in that neighborhood.

Water measured 27" over the weir - some was certainly sucking away - sandy banks kept breaking. Est. at least 30" being pumped.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: No other source of water exists for this farm. Considerable sand was pumped when the outfit was first installed and a great deal more has been pumped since the pump was recently changed over to a Peerless pump. This well is called an open bottom well because no gravel was used to pack the bottom of the casing. Considerable sand is still being pumped.

Soil appears to be a sandy loam. The crops being raised at present are 20 acres of ladino clover, 5 acres of red clover, 6 acres of onions and the balance in pasture and garden.

The pumping cost last year for 30 acres was \$191.00 total.

This examination was made on the 29th day of May, 1932

Dear Mr. Cooke:

We acknowledge receipt of your letter of January 31, 1950, enclosing the depositions of Walter L. Riddle and two witnesses, also Affidavit of Publication in the Caldwell News-Tribune, all submitted in Proof of Beneficial Use under Permit No. 20716.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact Mr. Riddle at the time he makes the examination in order that he may arrange to show him over the grounds.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20716

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On January 31, 1950, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Nampa, Idaho before Lee R. Cooke, Notary Public,
2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Dear Mr. Riddle:

We have your memorandum that your Proof of Beneficial Use under Permit No. 20716 is to be made before Mr. Lee R. Cooke, Notary Public, of Nampa, Idaho.

That being the case, we assume that this proof is to be made at Nampa instead of Caldwell, and have changed the Notice accordingly. If that is not correct, and the proof is to be made at Caldwell, but before Mr. Cooke, please advise by return mail so that we may change the notice accordingly.

We have also changed the priority date to be established under this Permit to October 25, 1948 which is the date your application was filed in this Department.

A copy of the Notice has been sent to the Caldwell News-Tribune with instructions to publish it once a week for four consecutive weeks prior to January 31, 1950, and to send you the Affidavit of Publication, together with statement of costs.

We shall send Mr. Cooke the necessary forms of deposition consisting of one for yourself and one for each of two witnesses, and at the time set, you should appear before him together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing the depositions.
