PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 20652 you are required to complete your diversion works on or before September 22, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Mr. William Layton Todd

Dear Mr. Todd:

In indexing recent filings for water permits we find that Permit No. 20652, in the name of John D. Paine, is duplicated by Permit No. 20706, in the name of William Layton Todd.

Both permits are for water from a well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 15, Twp. 3 N., Range 3 W. B.M., for use on the E $\frac{1}{2}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and 30 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 15, Twp. 3 N., Range 3 W. B.M.

It is not the custom of this Department to check into the ownership of land to which the water is to be appurtenant, but there is evidently a misunderstanding in this matter as obviously both permit holders could not hold identical rights.

Please advise us in the matter.
