APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 28049
PERMIT No. 20408
DISTRICT No.

1. Name of Applicant: C. L. CORDER

Postoffice address: Rt. 3, Parma

County: Canyon

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand:

(c) Bonds to be issued:

(b) Treasury stock:

(d) Other resources:

2. Quantity of water claimed: 0.8

cubic feet per second.

3. Source of water supply: Two wells

which is a tributary of

4. Location of point of diversion: Approximately 660 ft. North and
660 ft. West feet distant from the Southeast
of NW $\frac{1}{4}$ SW $\frac{1}{4}$
corner of Section 6, T. 4 N., R. 5 W., B.M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 6, T. 4 N., R. 5 W., B.M., County of Canyon

5. Water is to be used for Irrigation and stock watering

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned at a point feet

distant from the corner of Section, T., R., B.M., in the
of Section, T., R., B.M.

7. Estimated cost of works: \$ 1,500.00

8. Kind of works: Two wells,

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 20408. Comes now C. L. Corder and represents to the State Reclamation Engineer of the State of Idaho; That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20408; That the point of diversion is described in said Permit as being located 660 ft. North and 660 feet West from SE corner of NW$\frac{1}{4}$ of SW$\frac{1}{4}$, Sec. 8, T. 4 N. R. 5 W. B. M.; That he now requests that the point of diversion be changed to a point located in the Center of the NW$\frac{1}{4}$ of SW$\frac{1}{4}$ of Sec. 8, T. 4 N. R. 5 W. B. M., and conducted to the place of use through a sprinkler, as per map above referred to. That his reasons for desiring to make such change are as follows: Is because the wells at the other location did not prove satisfactory. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Parma, Idaho, this 23rd day of March, 1951. Subscribed and sworn to before me this 23rd day of March, 1951. C. L. CORDER (SEAL) ERNEST ANDERSON Notary Public for Idaho. Residing at Parma, Idaho Date of receipt at Department of Reclamation March 26, 1951. APPROVAL OF STATE RECLAMATION ENGINEER I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 20408. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.																			

MARK R. KULP
State Reclamation Engineer

Permit No. 20408
 CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that C. L. CORDER of Route 3, Parma, County of Canyon, and State of Idaho, the holder of Permit No. 20408, issued upon Application No. 28049 bearing date of priority of April 12, 1948, authorizing the diversion of 0.8 second foot of the waters of subterranean flow from two wells, County of Canyon, State of Idaho, for irrigation and stock watering purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 0.8 second feet of the waters of said well; that the point of diversion of said waters is in the center of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 6, Township 4 North, Range 5 West, B.M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 6, Township 4 North, Range 5 West, B.M.

Dear Mr. Corder:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Parma Review, all submitted in proof of Beneficial Use on Permit No. 20408.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. 20408

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. C. L. Corder, residing on R#3. Parma, Idaho.

Farmer- Residing on farm on said R#3. Parma, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting only for myself, as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20408. April 22, 1948. Priority to the said date = 4/12/48

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Water, pumped by means of well- Point of diversion in the exact center of the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$, Sec. 6, Twp. 4 N. Range 5 West of the Boise Meridian, Canyon County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Consisting of a well 45 feet deep, with a six inch casing, to which is attached a pump with an electric motor, and then conveyed to the land by means of a sprinkling system. Size of sprinkler nozzle-eight gallon, thirty-two in number. Depth to water 4 to 6 feet. Discharge of Pump 2 $\frac{1}{2}$ inch. Estimated.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and stock purposes. Water to be used on the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$, Section 6, Twp. 4 N. R. 5 West of the Boise Meridian. Acreage to be irrigated 40. Cultivated land. All of land has been irrigated with water from said well. As a result many improvements have been placed on the land, such as a house, barn, garage and other improvements.

20408

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation and stock water purposes only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. .8 of one second foot.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. It has been used for irrigating all of said lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water. No other appropriations made or rights claimed.

(Sign)

B L Border

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Parma, County of Canyon,

BOISE, IDAHO

Permit No. 20408

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. E. P. Simpson, aged 47 years, residing on Rural Route #3,
Parma, Idaho. My business is that of farming.

Ques. 2. Are you acquainted with C. L. Corder, the
holder of Permit No. 20408? How long have you known him and where does
he reside?

Ans. I have known him for five years or more.

Ques. 3. Have you read or heard read said Permit No. 20408, and are you
familiar with its provisions and conditions?

Ans. Yes, I am a neighbor and have observed the workings of
the well, pump and sprinkler system.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. From a well, about 45 feet deep-six inch casing. It is located
in the center of the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 6, Twp. 4 North, Range
5 West of the Boise Meridian, Canyon County, Idaho; The works consist
of the deep well, an electric pumping system, consisting of a centrifugal
pump, 3 in. suction pipe, and a 2 $\frac{1}{2}$ in. discharge pipe. It is connected
with a sprinkling system.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. .8 of one second foot

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount? Fifty inches, measured by means of a weir in ditch (portable
weir)

Ans. _____

20408

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and stock water purposes

For the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 6, T. 4 N. R. 5 W. of Boise Meridian.

Cultivated and irrigated. Land all in cultivation, with buildings
on the place.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation and stock water purposes only.

All of said land irrigated.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy land. Not less than one inch per acre, continuous
flow.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the same in operation for five years.

Permit No. 20408

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. James F. Brown, aged 65 years, R#2. Wilder, Idaho. Farmer

Ques. 2. Are you acquainted with C. L. Corder, the holder of Permit No. 20408? How long have you known him and where does he reside?

Ans. I have known C. L. Corder about eight years. He resides upon the land hereinafter described.

Ques. 3. Have you read or heard read said Permit No. 20408, and are you familiar with its provisions and conditions?

Ans. Yes, I have read it, and I am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From a well, six inches in diameter, 45 feet deep; It is located in the center of the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 6, Twp. 4 North, Range 5 West of the Boise Meridian, Canyon County, Idaho. The works consists of the said well, an electric motor-10 H. P., and consisting of a centrifugal pump, 3 inch. suction pipe, and a 2 $\frac{1}{2}$ inch discharge pipe. Then it connects with a sprinkling system, and said land is irrigated by the said sprinkling system. Subterranean

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. .8 of one second foot

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. About 45 to 50 inches. I estimated that amount of water.

20408

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and stock purposes only. All of the land above described has been irrigated for several years by the said system.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation and stock water, only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is sandy, requiring much water. It takes at least an inch to the acre, continuous flow of water. It dries out fast,

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have witnessed the same in operation for a long time.

I have no interest in the same.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Pump and sprinkling system has been in continuous use for five years.

RE: Permit No. 20408

Mr. Ernest Anderson
Attorney At Law
Parks, Idaho

Dear Mr. Anderson:

We wish to acknowledge receipt of proof of Application of water to Beneficial Use on the above captioned Permit and we are returning same for correction.

You will note that due to some inadvertency that the deposition of the Holder was placed on the wrong form being a proof of Completion of Works form instead of proof of Beneficial Use. We are therefore, requesting that you take the deposition of Mr. Corder on the correct form enclosed herewith.

Completion of Works proof signed by Mr. Corder was received and duly recorded in April, 1951.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 2 P M. on the 2nd day of March, 1956,
at Parma, County of Canyon, State of Idaho, before
Ernest Anderson, Notary, Parma, Idaho., proof will be submitted of the
application to beneficial use of 0.8 cubic feet per second of the waters of Subterranean
Source in accordance with the terms and conditions of Permit No. 20408
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
C.L. Corder, Parma Idaho. Rt. 3.

The use to which said water has been applied is Irrigation and stock watering.

The amount applied to beneficial use is 0.8 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

NW 1/4 SW 1/4 Section 6, Twp. 4.N. Range 5.W. B.M.

The name of the canal or ditch or other works by which said water is diverted from its natural source is
~~XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX~~

The right to take water from such works is based upon Permit No. 20408

The source of supply from which such water is diverted is Subterranean.

The date of priority which said user is prepared to establish is April 12, 1948

Department of Reclamation

Re: Application No. 29710

Mr. C. L. Corder
Route 3
Parma, Idaho

Dear Mr. Corder:

We are in receipt of your letter of March 15, 1951, returning your application for Permit to appropriate water from a well in the center of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 6, Township 4 North, Range 5 West, B.M.

We note that this is the same land included in your Permit No. 20408 and that the wells described in Permit No. 20408 did not prove satisfactory and for that reason, you have drilled the other well described in your new application.

Permit No. 20408 is still valid and it will be possible for you to amend same by giving the new point of diversion (or location of the new well) described in your new application. Since Permit No. 20408 has a priority of April 12, 1948, that would give you a much earlier priority than the new filing and while proof of completion of works is due on Permit No. 20408 on or before April 22, 1951, you can be allowed an additional two years or until April 22, 1953, which would give you an opportunity to develop the other well.

We shall defer action on Application No. 29710, awaiting advice from you as to whether you wish to proceed under the new filing or amend Permit No. 20408 as outlined above.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

By

Jeanne L. Anderson

Dear Sirs:

I am returning my application for Permit for irrigation by wells, I hope it is filled out alright this time, I have filled out all except no 15. I had ~~app~~ a permit the number is 20408, owing to the wells not proving as good as I needed, I have drilled another well in the center of my 40 and will use an electric sprinkling system. I have never proved up on no: 20408, so didn't know if it would be considered a valid permit or not, when you returned the papers to me, you failed to send Form no. 0. with the location of the well on it.

20408

If it has been misplaced please send me another
One to fill out.

Yours Truly

C. L. Corder.

Dear Mr. Corder:

We acknowledge receipt of your letter of March 8, 1951, enclosing application for Permit to appropriate water from a well, accompanied by your check for the \$5.00 filing fee, for which we enclose Departmental Receipt No. 23184.

However, you have not answered Questions 12, 13, and 15, nor have you indicated in Question 14 the land to be irrigated. We return your application for completion as above.

Very truly yours,

MARK R. KULP

Dear Mr. Corder:

In reply to your letter of February 28, 1951, we enclose herewith an Application for Permit to appropriate the Public Waters of the State of Idaho, together with a pamphlet giving regulations and instructions in regard to filing same.

The same form is used for filing on a well as for surface water, but in describing the point of diversion as called for in Question 4, you should give the location of the well by subdivision, Section, Township and Range.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

MARK R. KULP

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. C. L. Corder
Route 2
Parma, Idaho

Boise, Idaho **February 1, 1951**

Dear Sir:-

Under the terms of your permit No. ~~20408~~----- you are required to complete your diversion works on or before ~~April 22, 1951~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Mr. Corder:

We are in receipt of your letter of March 15, 1948, in regard to irrigation water from wells. If the wells are on your own land it may not be absolutely necessary to make a filing, but for your own protection we advise you to do so.

We enclose a form of application for such permit, together with regulations and instructions in regard to filing same. Under Question 4, the point of diversion should be the 40 acre tract or tracts in which the well or wells are located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Mark R. Kulp,

Boise, Idaho.

Dear Sir:

I am writing you for information about irrigation from wells. I hope to irrigate about ~~60~~ 40 acres from wells, will it be necessary for me to get an underground water right? If so, to whom do I apply for it.

I would like to hear from you as soon as possible.

Yours Truly,

C. L. Corder.
