APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 20276																			
Comes now A. J. Woodland, and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20276. That the point of diversion is described in said Permit as being located in the SE1/4 NE1/4 Section 7, Twp. 4 N., R. 5 W. and conveyed to the place of use through private ditch, as per map filed herewith. That he now requests that the point of diversion be changed to a point located in the SW1/4 NE1/4 Section 7, Twp. 4 N., R. 5 W. and conducted to the place of use through the private ditch, as per map above referred to. That his reasons for desiring to make such change are as follows: Mistake made in location of point of diversion at the time the applicant made out the application. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Boise, Idaho, this 17th day of March, 1950.																			
Date of receipt at Department of Reclamation March 17, 1950.																			
APPROVAL OF STATE RECLAMATION ENGINEER I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 20276. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MEMORANDUM

TO: FILE NOS. 63-02678, 63-03282 & 63-03559

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4444

DATE: October 28, 1994

=====

Transfer No. 4444 was filed to change the point of diversion and place of use under Right Nos. 63-02678, 63-03282 and 63-03559. The transfer was made to reflect changes in use over time and describe the rights as used today. Rights are diverted from a single point of diversion and used in conjunction with surface water from Wilder Irrigation District.

These rights were developed with overlapping places of use and all rights combined are limited to the irrigation of a total of 160 acres in a single irrigation season. Each right is also limited to the number of acres specified on the licenses. An amended permit has been filed and is currently on Moratorium Hold to cover the remaining acres and add additional rate to bring the system to a full inch per acre.

Recommended conditions include permissible place of use for combined and individual rights, irrigation overlap, surface/groundwater overlap and standard transfer conditions.

RE: Transfer and Amendment Applications
License Nos. 63-02678, 63-03282 & 63-03559
Application No. 63-11756

Dear Bill and Elizabeth:

I apologize for the delay in responding to your request. I meant to work on the applications the week after your visit to our office, but was side tracked with drought problems. I appreciate your patience.

I reviewed all the water rights appurtenant to your property in order to prepare the transfer correctly. The three (3) licenses overlap in their place of use and I find a total of 160 total irrigated acres under these rights. The approximate size of your farm appears to be around 225-240 irrigated acres. You should be aware that the conditions of approval will include use of your surface water to the extent it is available in conjunction with your groundwater rights.

I have partially prepared the application for transfer, but you will need to complete the following areas.

On page 1, B.5, please indicate the total number of acres irrigated within each of the highlighted 40 acre tract. The total should be close to the acres you estimated during your office visit or approximately 225 acres. Each right will be individually limited to the specific number of acres that were identified under their respective license and a combined total of 160 acres.

On page 2, B.6.a & b, please answer these questions.

On pages 4, 6, & 8.A.10, please answer the question regarding use of each right.

On page 10, the application requires your notarized signature.

A fee of \$100.00 is required to process a transfer application and will need to be submitted with the completed document.

JAN 20 1995

Page 2

I have also partially prepared the application for amendment for Application No. 63-11756. The point of diversion has been changed to reflect the correct legal description for the new well.

I am also recommending that you change the place of use description to reflect the total farm area exactly like the transfer is proposing for the licensed rights. The application will be limited to the total number of acres applied for which appear to be more than sufficient when used with your licensed rights. When this application is being reviewed for license, it will be evaluated as part of the total system covering your farm.

You need only fill in the place of use, sign, and date this application, and return it with the \$50.00 processing fee.

Please review both documents fully for accuracy and make any changes you feel necessary (Please initial all changes). The final responsibility for the action being requested by these applications for change belongs to you, the water right holder.

If you have any questions regarding these forms, please call me directly at 327-7943 and I will be happy to discuss the matter. When I have received the forms and fees, I will check them for completeness and forward them to our Western Region office for advertising and review.

Sincerely,

Pamela Skaggs

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date May 27, 1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

RE: Permit No. 20276

Date December 10, 1958

A. J. Woodland
Route #2
Wilder, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20276 is due not later than February 6, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

Mr. A. J. Woodland
Route #3
Wilder, Idaho

Dear Mr. Woodland:

In making your applications for permit on Friday we overlooked the fact that one permit was for 2.4 second feet whereas the other was for only .8 of a second foot.

The filing fee on the smaller application is \$5.00, but on the one for 2.4 second feet it is \$2.50.

Since your check was only in the amount of 10.00, please send us an additional .50 to complete the filing fee.

Very truly yours,
