Dear Mr. Nicholson:

On September 21, 1973, the Department requested that you amend the above referenced permit to change the place of use as listed under the permit, to that location actually found by the field examiner. You were advised that when such amendment was approved, the Department could issue a water license.

The Department has failed to receive said amendment and, as a result, is unable to issue a water license. Therefore, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation for failure to complete the permit as required, and you are required to show cause before the Director of the Department of Water Administration on or before January 18, 1974, why said permit should not be cancelled.

Permit No. 20072/63-2663 claims the use of 3 cubic feet per second of water from the seepage and waste water collecting in Malba wasteway and the permit was approved May 24, 1947.

We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue a water license as set forth above.

If you do not concur with these findings or have any questions, please contact this office within the 10 day period.

Re: Permit No. 20072/63-2663

Mr. Carl E. Nicholson
101 Warm Springs Ave.
Boise, Idaho

Dear Mr. Nicholson:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed you will find an Order which advances the priority under this permit.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorization, we will cause the notice to be published.

If you have any questions or if we may be of further assistance, please contact us.

Boise, Idaho **March 1, 1950**

Dear Sir:-

Under the terms of your permit No. **20072**-----you are required to complete your diversion works on or before-----**May 24, 1950**----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
