Dear Mr. Naugle:

We have received from Mrs. Willa Hatfield, Notary Public, the depositions of yourself and two witnesses, also the affidavit of publication from the Idaho Free Press, all in proof of beneficial use under the above numbered permit.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field engineer for this Department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

Dear Miss Hatfield:

On January 16th you telephoned us that you could not take the depositions of Wayne Naugle and his witnesses, in proof of beneficial use under the above numbered permit, on January 15th, as scheduled, because you did not have the necessary forms.

These forms were mailed you immediately, on the same day, and it was understood that Mr. Naugle would return in a few days to execute same.

It is now six weeks past that date, and we have not yet received these depositions, and it is imperative that they be made at once, or otherwise it may be necessary to re-advertise.

We are sending a copy of this letter to Mr. Naugle, and shall hope to receive these depositions within the very near future.
