Dear Mr. Peterson:

We have checked with Mr. Tolman, Field Engineer for this Department, in regard to beneficial use of the water from two wells under your Permit no. 19465.

Mr. Tolman, after checking with the Pioneer Irrigation Company, reports that the land above the ditch is irrigated from the Pioneer supply and not from the wells.

If, however, this is in error, we shall be pleased to make another examination in your presence.

Dear Mr. Peterson:

We acknowledge receipt of the depositions of yourself and two witnesses, also the affidavit of publication from the Caldwell News-Tribune, all in connection with beneficial use proof under your Permit No. 19405.

Before final action is taken in the matter the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

We note that you had already made the correction on the Certificate of Completion of works, but we have filled it in on the typewriter, and have changed our records accordingly.
