

AFFIDAVIT OF PUBLICATION

State of Idaho,

ss.

County of Canyon,

Jalane Thomas, of Nampa, Canyon County, Idaho, being first duly sworn, deposes and says:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of twenty-one years, and not a party to the above entitled action.

2. I am the principal clerk of the Idaho Free Press, a daily newspaper published in the City of Nampa in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Nampa, and has been continuously and uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That Saturday of each week has been designated as the particular day of the week on which legal notices required by law or by order of any Court of competent jurisdiction within the State to be published weekly, will be published in said Idaho Free Press in compliance with the provisions of Section 58-108 I.C.A. 1932, as added thereto by Chapter 154, 1933 Session Laws of Idaho, and the Publisher of this newspaper in conformity with the provisions of said law, does, at the head of the Editorial Column of said paper, and in each issue thereof, announce Saturday of each week as the day of the week on which legal notices required by law or by order of any Court of competent jurisdiction to be published weekly, will be published.

4. That the notice, of which the annexed is a printed copy was printed in said Saturday issue of said Idaho Free Press for a period of four successive weeks in the regular and entire issue of each Saturday publication of said paper during the period and time of publication and was printed in the newspaper proper and not in a supplement.

5. That said notice was published in each and every Saturday issue, beginning with the issue of December 5, 195 3, and ending with the issue of December 26, 195 3.

Subscribed and sworn to before me this 12th day of January, 195 4.

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10:00 A. M., on the 4th day of January, 1954, at Nampa, County, of Canyon, State of Idaho, before Truman Manning, Notary Public, proof will be submitted of the application to beneficial use of 14.15 cubic feet per second of the waters of subterranean wells Nos. 1, 2, 3, 4, 5 and 6 in accordance with the terms and conditions of Permit No. 19375 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The Amalgamated Sugar Company, Ogden, Utah.

The use to which said water has been applied is Manufacturing (refining sugar).

The amount applied to beneficial use is 14.15 cubic feet per second.

The place where said water is used The Amalgamated Sugar Company, Nampa Factory, located in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 9, Township 3 North, Range 2 West, B.M., Canyon County.

The right to take water from such works is based upon Permit No. 19375.

The source of supply from which such water is diverted is Subterranean flow from wells located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, Twp. 3 North, Range 2 West, B. M.

The date of priority which said user is prepared to establish is November 9, 1942.

MARK R. KULP,
State Reclamation Engineer.
December 5, 12, 19, 26, 1953.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Address all Communications to:
Mr. A. J. Forbess
The Amalgamated Sugar Company,
Ogden, Utah

Application No. 26870
Permit No. 19375
District No.

1. Name of Applicant: THE AMALGAMATED SUGAR COMPANY

Postoffice address: Ogden County: Weber State: Utah

I. If applicant is a corporation, give:

(a) Date and place of incorporation: Ogden, Utah, January 15, 1915.

(b) Amount of capital stock: \$8,250,000.00

(c) Amount paid in: \$7,589,316.50

(d) Names and addresses of directors: S. F. Ballif, Los Angeles; G. L. Becker, Ogden; E. G. Bennett, Ogden; H. A. Benning, Ogden; M. A. Browning, Ogden; E. L. Burton, Salt Lake City; R. H. Cottrell, Ogden; M. S. Eccles; Washington, D. C.; S. S. Eccles, Ogden; Boyd Hatch, N. Y. City; J. F. Scowcroft, Ogden.

II. The financial resources of the applicant are:

(a) Cash on hand: As of Oct. 1, 1942 - \$1,163,506.24

(b) Treasury stock \$660,683.50

(c) Bonds to be issued: None

(d) Other resources: Total assets - \$17,505,756.62

2. Quantity of water claimed: 17.33 cubic feet per second.

3. Source of water supply: Deep wells, Pumped (Well Nos. 1, 2, 3, 4, 5, & 6) which is a tributary of Subteranean flow

4. Location of point of diversion: See map feet distant from the

corner of Section , T. , R. , B. M., and is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$

of Section 9 , T. 3 N. , R. 2 W. , B. M., County of Canyon

5. Water is to be used for: Manufacturing purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: see map feet distant from corner of Section

T. , R. , B. M., in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 9 , T. 3 N. , R. 2 W. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Indian Creek at a point See map feet

distant from the corner of Section , T. , R. , B. M., in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 16 , T. 3 N. , R. 2 W. , B. M.

7. Estimated cost of works: \$ 65,000.00

8. Kind of works: Deep wells pumped thru pipe lines to collecting tank

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water

feet; dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile 17

Well #1-Domestic piping system of 4", 3", 2", 1 $\frac{1}{2}$ " & 1 $\frac{1}{4}$ " piping. Well #2-250 Ft. of 12" pipe. Well #3-750 Ft. of 14" pipe. Well #4-950 Ft. of 14" pipe. Well #5-525 Ft. of 14" pipe. Well #6-275 Ft. of 12" pipe.

12. The time required for the completion of such work is five years.

13. The time required for the complete application of the water to the proposed use is six additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No. If so, fill in (b) and (c) below.
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

THE AMALGAMATED SUGAR COMPANY

Applicant.

By A. J. Forbess /s/

Agent.

Date of first receipt at Department of Reclamation: November 9, 1942 - 9:00 A. M.

Returned to applicant for correction:

Corrected application received:

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 19375

Recorded in Book 70 Page 19375 Approved November 9, 1942.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before January 9, 1943

and to continue diligently and uninterruptedly to completion,

unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before May 9, 1945,

The whole of said work to be completed on or before November 9, 1947.

Beneficial use of water appropriated in accordance herewith, to be made on or before November 9, 1953.

Witness my hand this 9th day of November, 1942.

E. V. BERG /s/

Commissioner of Reclamation.

use is principally non consumptive.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19375

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant The Amalgamated Sugar Company, Ogden, Utah
2. Source of water supply Subterranean from wells Nos. 1, 2, 3, 4, 5 & 6
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 9
T. 3 N. R. 2 W. County of Canyon
4. Describe works as they exist, giving dimensions and capacities of same: _____

5. Water is used for: Manufacturing (Refining sugar)
6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Place of Use: Nampa factory of Amalgamated Sugar Company, in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9,
Twp. 3 North, Range 2 West, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Largest part of water returns to Indian Cr. Flows quite
rapidly thru a box 4' w. depth 1 foot (approx.)
Some discharged into Noble Drain.

Very difficult to get a measurement.
Estimate more water in the drains than they claim
from all their wells.

This examination was made on the 20 day of January, 19 54

(Signed) E. H. Humphrey Examiner.

19375

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

FOR WELLS No's 1, 2, 3, 4, 5 & 6

Permit No. 19375

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address. SYLVESTER M. HEINER ENGINEER FOR;

Ans. THE AMALGAMATED SUGAR COMPANY
1ST SECURITY BANK BLDG. OGDEN UTAH

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. THE AMALGAMATED SUGAR CO. FIRST SECURITY BANK BLDG. OGDEN, UTAH
I AM EMPLOYED AS AN ENGINEER FOR THE ABOVE COMPANY

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 19375 Nov. 9 1942 PRIORITY Nov. 9 1942

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. DEEP WELLS LOCATED IN THE SE 1/4 OF THE SE 1/4 OF SECTION 9, TOWNSHIP 3N., RANGE 2W., BOISE MERIDIAN, CANYON COUNTY, IDAHO

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. WELL No 1 DEPTH 550 FT. 8" CASING. 250 GPM @ 175 FT. TDH. PUMP 4" DISCHARGE
- WELL No 2 540 FT. DEPTH, 24" - 14" - 12" CASING. PUMP 2500 GPM @ 92 FT. TDH.
6' 8" WELL No 3 446 FT. DEPTH, 24" - 14" CASING. PUMP 2000 GPM @ 62 FT. TDH.
5' 7" WELL No 4 404 FT. DEPTH, 24" - 16" CASING. PUMP 2000 GPM @ 62 FT. TDH.
8' 10" WELL No 5 292 FT. DEPTH, 24" CASING. PUMP 2000 GPM @ 62 FT. TDH.
10' 8" WELL No 6 105 FT. DEPTH, 24" - 15" CASING. PUMP 2000 GPM @ 62 FT. TDH.
TOTAL GPM 7777.7

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. THE WATER IS USED IN A BEET SUGAR REFINING PLANT FOR REFINING SUGAR

19375

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. THE WATER IS PUMPED TO A CENTRAL TANK, THEN TO BAROMETRIC CONDENSERS, WASHERS COOLERS ETC USED IN THE PROCESS OF REFINING SUGAR

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 8000 G.P.M.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. THE WATER WAS USED STARTING IN SEPT. 1942 UNTIL FEB 1943 AND IN THE SAME PERIOD EACH SUCCEEDING YEAR UNTIL THE PRESENT TIME. ESTIMATED AMOUNT 7800 G.P.M. IN 1942 6500 G.P.M. AT PRESENT

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. WE HAVE PERMIT NO G. 24567 COVERING WELL NO 9 & PERMIT NO 22030 COVERING WELL NO 7; WE PUMP APPROXIMATELY 1250 G.P.M. FROM NO 9 & 1650 FROM NO 7 TO SUPPLEMENT THE WATER FROM PERMIT NO 19375

(Sign) _____

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Naupa, County of Campan, State of Idaho, on this 4th day of January, A. Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Read A. Wilkinson - Age 42, Agricultural Engineer
Pt-2 Nampa, Idaho

Ques. 2. Are you acquainted with Amalgamated Sugar Co., the holder of Permit No. 19375? How long have you known him and where does he reside?

Ans. Yes. Have known above Co. for 12 years - General
office is at Ogden, Utah.

Ques. 3. Have you read or heard read said Permit No. 19375, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean flow from pumped deep wells
at SE¹/₄ SE¹/₄ S9 T3 N R 2 W of B M Canyon County.
Conveyed by pipes to supply tank.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 8000 gal. : 6500 gal

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 6500 gal. Estimated from factory
requirements

19375

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used in Sugar beet refining factory
for refining sugar at Nampa, Idaho

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water used in preparing and processing
sugar beets for refining into sugar

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. -

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Am an employee of the above company
(full time)

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed the use of water for processing
beets during the period starting in 1945 to present.
Amount approximating 6500 gal

Re: Permit No. 19375

Idaho Free Press
Nampa, Idaho

Gentlemen:

Reference is made to our telephone conversation of yesterday afternoon, in which you informed us that the notice sent you on November 13th, for publication for beneficial use on Permit No. 19375, of the Amalgamated Sugar Company failed to reach you:

We enclose another notice, setting the date for making proof at January 4, 1954.

Please publish this notice for four consecutive weeks prior to that date, and send affidavit of publication together with statement of costs to The Amalgamated Sugar Company, Ogden, Utah.

In the event that January 4, 1954, will not be a convenient date, Mr. Finlayson, of the Nampa factory, will so notify you, setting another date later on; but this need not delay the first publication, as the date can be changed in subsequent issues.

Please acknowledge receipt of this notice, and furnish us with a copy of your first issue containing same.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 4th day of January, 1954,
at Nampa, County of Canyon, State of Idaho, before
Truman Manning, Notary Public,, proof will be submitted of the
application to beneficial use of 14.15 cubic feet per second of the waters of subterranean wells
Nos. 1, 2, 3, 4, 5 and 6 in accordance with the terms and conditions of Permit No. 19375
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
The Amalgamated Sugar Company, Ogden, Utah.

The use to which said water has been applied is Manufacturing(refining sugar)

The amount applied to beneficial use is 14.15 cubic feet per second.

The place where said water is used (~~State in general, give full and correct description of the land irrigated~~)

The Amalgamated Sugar Company, Nampa Factory, located in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 9,
Township 3 North, Range 2 West, B. M., Canyon County.

~~The source of the water and the manner in which said water is conducted to such place of use~~

The right to take water from such works is based upon Permit No. 19375

The source of supply from which such water is diverted is Subterranean flow from wells located
in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, Twp. 3 North, Range 2 West, B. M.

The date of priority which said user is prepared to establish is November 9, 1942

MARK R. KULP

State Reclamation Engineer.

NOTICE FOR PUBLICATION
 NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE

19375
 Notice is hereby given that at 10:00 A. M. on the 15th day of December, 1953,
 at Nampa State Capitol, County of Ada, State of Idaho, before
J. J. Manning Notary Public
State Reclamation Engineer, proof will be submitted of the
 application to beneficial use of 14.15 cubic feet per second of the waters of Subterranean Wells
Nos. 1, 3, 4, 5, and 6 in accordance with the terms and conditions of Permit No. 19375
 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The
Amalgamated Sugar Company, Ogden, Utah

The use to which said water has been applied is Manufacturing (Refining Sugar)

The amount applied to beneficial use is 14.15 Cubic Feet Per Second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

The Amalgamated Sugar Company, Nampa Factory, Located in SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Sec. 9, T 3N,
R 2W, Boise Meridian, Canyon County

The name of the canal or ditch or other works by which said water is conducted to such place of use is

The right to take water from such works is based upon Permit No. 19375

The source of supply from which such water is diverted is Subterranean Flow SESE 9 -

The date of priority which said user is prepared to establish is November 9, 1942

State Reclamation Engineer.

RE: Permits Nos. G-22445 and 19375

Amalgamated Sugar Company
Box 431
Ogden, Utah

ATT: Mr. Sylvester M. Heiner

Dear Mr. Heiner:

We have your letter of November 5, 1953, stating that you would be in this office on November 10, to make final proof on the above numbered permits.

The records in this department show that completion of works and beneficial use proofs are due on Permit No. G-22445 on or before November 7, 1953, and beneficial use proof on Permit No. 19375 on November 9, 1953.

However, before these proofs are made, the statutes require publication of a notice once a week for four weeks prior to the date you make the proof. These notices should be made in duplicate on Form 36 for Permit No. G-22445 and Form 10 for Permit No. 19375. Both copies to be returned to this department together with Form 11 which is your authorization for us to have the notice published in the designated county newspaper. The notice must be published in the county in which the wells are located, that is Canyon County, and the proof may be made at any place convenient for a representative of the permit holder and two disinterested witnesses.

When these forms are returned to this department we shall send a copy of each to the designated county newspaper and shall send you the necessary forms of deposition to be used in making the proof.

We have this morning contacted your Nampa office as per above and no doubt they have informed you that it will not be necessary for you to make a special trip to Boise as the proofs cannot be made prior to the four weeks publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

1st Security Bank Building Boise, Idaho
Ogden, Utah

September 1, 1953

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 19375. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than November 9, 1953, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

19375

Permit #19375

April 10 - 1957.
G. H. H.

Well #1

Total depth is 550 feet. 450 feet has 8" casing, balance has 6" casing.

This is a closed well and a closed system. Well and storage tanks are enclosed in a concrete house and pit combination. 10½' x 12' x 7½' h.

is the size of the building. The East half (approx.) has a pit, tanks are part in the pit and part buried in the ground.

The motor sets vertical on the pump and casing, is a General Electric 20 h.p., 220/440, v., 50/25 amps., 1760 r.p.m., model 12F1331, #5447061

Pump is a Bingham #10165, 6" intake, 5" outlet to East, Deep well turbine

Line has a 5" check valve. Opens into 7" d. x 16' (approx.) steel pipe into pressure tanks, two large ones approx. 4' x 14' long.

Pump cuts in at 50 pounds pressure and out at 70 pounds.

From these tanks water is conducted by pipe to all parts of the plant for domestic and culinary purposes, and in addition furnishes water for the very large lawn surrounding the plant. Delivered thru a sprinkling system. There are approximately 175 workers at this plant when in full operation. It put out well over a million bags of sugar this year.

At the depth of the end of 8" casing, 447' this well was tested at 350 gal. per min. Temp. is given as 66°F.

Well #2

This well very abruptly quit producing in Nov. 1950. Could not get it to produce again. Drilling another well.

Well #3

Total depth 443 feet. Casing is 24" x 120' and 16" x 318' Perforated between 365 and 395 feet. Bottom sealed with concrete.

It sets in an open concrete lined pit, 8'4" x 13' 7" x 4'4" h. Concrete is 6" thick, no concrete in bottom of pit.

Temp. is 66°F. H is 10' 6" drawdown is to 46.67' on Oct 13, 1950

Motor is 50 h.p., U. S., 220/440 v., 126/63 amps., 1200 r.p.m. 60 cycle Serial #266491, It is an oil lube deep well turbine pump.

The pump is Bingham #102C19. It has 10" outlet ~~Immediate vent line of the pump is 6".~~ Into a 14" pipe line approx. 300 yards to central storage tank.

Protection is furnished the motor by a metal cap or cover.

19375

Permit # 19375

Well #4

It is 404' deep. Casing is 24" x 174.4' and 16" x 279.3'

H is 8' 10" and draws down to 46.04' Perforations 47' below 341' line.

Motor serial # 211237. All other specifications are the same as # 3.

Pump is a Bingham # 102B19. It sets on the casing approx. 2' above ground. The only protection is a metal hood over the top of motor.

This system is also a 10" into a 14" line to storage tank approx. 200 yds

The temp. is 64⁰F.. Pressure on the delivery side of the pump is 10¹⁶~~lbs.~~

Well # 5

The motor number is 282250 and the pump is 102D19 otherwise this system duplicates #3.

Well depth is 292 feet. 24" casing x 236' 10", balance is 16" casing.

The bottom 37 feet is perforated.

H is 15 feet and drawdown is to 36.8 feet.

Temperature is 59 3/4⁰F.. Pressure on delivery side of pump is 9lbs.

Delivery is to the central tank approx. 150 yards distant.

Well #6

Motor #286243. Pump #102A19. Motor and pump same spec. as others.

No cover or protection except metal hood.

Pump and motor mtd on csg approx. 18" off ground.

Total depth is 185 feet. Csg 24" x 125' and 15" x 75'

14' perforations below 125'. 15' perforations below 156'.

Temp. is 58⁰F. Pressure on delivery side of pump is 9 lbs.

H is 16' and drawdown to 64.52' Delivery to NW approx. 150 yds.

19375

All systems are painted with aluminum paint.

All systems lift a total of 18 feet into the large storage tank from the surface of the ground.

With the exception of well #1 all of the water is non-consumptive use.

It is carried to the Southwest into Indian Creek after passing thru the plant. The point of return is in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 16

There are four settling ponds one very large and three medium size that have been used in past years. At present the effluent flows right on thru and into Indian Creek.

Effluent is carried to head of the ponds thru a 30" steel pipe, at that point is and other separation that takes small chunks of beets out and recovers them for feed.

With exception of #1, all systems are duplicates as to pumps and motors.

The pump has a capacity of 2000 gpm @ 62 foot head and 1200 rpm.

Suction and discharge are both 10 inches.

Pump type = 18" VTM. List = 18" VTM-8

A. A. Durand & Son of Walla Walla Wn drilled the well.

Singer Co. has a good blue print of well log.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Gentlemen:

Please disregard registered letter addressed
you on June 12th, stating that Permit No. 19375 was held
for cancellation.

A further check of the records in this connec-
tion shows that proof of completion of works was duly
made on November 25, 1947, and a field inspection has also
been made by our Field Engineer.

When his report is filed, you will be notified,
and upon receipt of the statutory fee, a Certificate of Com-
pletion of Works will be issued.

We regret the error, and trust that it has not
caused you any inconvenience or annoyance.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. **19375**

To **The Amalgamated Sugar Co.**
C/o Mr. A. J. Forbes
Ogden, Utah

19375

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. **19375**
to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Completion of work November 9, 1947

you are hereby notified in compliance with Sec. 41-311, Idaho Code annotated that said Permit No. **19375**
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. **19375** claims the use of **17.33** cubic feet per second of the
waters of **six deep pumped wells** with point of diversion located
in the NE¹ SE¹ Section 9, Twp. 3 N., Range 2 W., B. M. (Canyon County) and
was approved **November 9, 1942**

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the

12th day **June**, 194**8**

C/o E. A. Stoker
Pampa, Idaho

Gentlemen:

We are now in receipt of your letter of December 1st, enclosing affidavit of publication from the Pampa Free Press, in connection with completion of works proof under Permit No. 19375.

This completes your proof, but before final action can be taken in the matter the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, as this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact a representative of your company at the time he makes the examination, so that arrangements may be made to show him over the ground.

Very truly yours,

America, and at all times hereinafter mentioned was
over the age of twenty-one years, and not a party to
the above entitled action.

2. That I am the PRINCIPAL CLERK
of the IDAHO FREE PRESS, a daily, (except Sunday)
newspaper published in the City of Nampa, in the
County of Canyon, State of Idaho; that the said news-
paper is in general circulation in the said County
of Canyon, and in the vicinity of Nampa, and has been
uninterruptedly published in said County during a
period of seventy-eight consecutive weeks prior to
the first publication of the notice, a copy of which
is hereto attached.

3. That the notice, of which the annexed is a
printed copy, was published in said newspaper

FOUR TIMES in the regular and
entire issue of said paper, and was printed in the
newspaper proper, and not in a supplement.

4. That said notice was published the follow-
ing dates: OCTOBER 18, 25, NOVEMBER 1, 8, 1947

NOTICE FOR PUBLICATION

Notice is hereby given that at 10
a. m., on the 25th day of November,
1947, at Nampa, County of Canyon,
State of Idaho, before Willis Stoker, a
Notary Public, proof will be submit-
ted of the completion of works for
the diversion of 17.33 cubic feet per
second of the waters of Subterranean
Flow, by six wells, in accordance with
the terms and conditions of a certain
permit heretofore issued by the De-
partment of Reclamation, of the State
of Idaho.

1. The name of the person or cor-
poration holding said permit is The
Amalgamated Sugar Company.

2. The postoffice address of such
person or principal place of business
of such corporation is Ogden, Utah,
County of Weber, State of Utah.

3. The number of such permit is
19375, and the date set for the com-
pletion of such work is November
9th, 1947.

4. Said water is to be used for
Manufacturing purposes.

5. Said works of diversion will be
fully completed on the date set for
such completion, and the amount of
water which said works are capable
of conducting to the place of intend-
ed use, in accordance with the plans
accompanying the application for such
permit, is 17.33 cubic feet per second.

6. The amount of lands for which
said water is available is None, acres,
particularly described as follows:

E. A. Stoker
 Notary Public.

19375

The Depositions of Witnesses, in this form, taken separately, required in each case.

PERMIT No. 19375....

Proof of Completion of Works

DEPOSITION OF WITNESS

In compliance with Sec. 5594, Compiled Statutes of Idaho.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Vernon A. Finlayson, 904 9th Avenue South, Nampa, Idaho,
Plant Superintendent,

Ques. 2. Are you acquainted with The Amalgamated Sugar Company, the holder of Permit No. 19375 authorizing the diversion of 17.33 second-feet of the waters of Subterranean waters, at Nampa, Idaho

for Manufacturing purposes? How long have you known him, and where does he reside?

A Utah corporation authorized to operate in the State of Idaho;
 Ans. for which I have worked or with which I have been associated for
approximately 40 years

Ques. 3. Have you read or heard read said Permit No. 19375, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. For Manufacturing purposes

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use? If so, when were they so completed?

Ans. Yes, Completed prior to November 9, 1947

Ques. 6. Describe the works of diversion as they existed on the date stated in answer to Question 5, and give your estimate of their capacity on that date.

Ans. Fully completed according to terms of permit.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Amalgamated Sugar Co.
C/o A. J. Forbes
Ogden, Utah

Boise, Idaho, September 2, 1947

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 19375.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof **MUST** be on or before November 9, 1947. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

~~Commissioner of Reclamation~~

Mr. W. A. Hodge
Construction Engineer
Amalgamated Sugar Company
Nampa, Idaho

Dear Mr. Hodge:

We wish to acknowledge receipt of your application for permit, tracing and blueprint, to appropriate subterranean water, filed by the Amalgamated Sugar Company.

The application, together with the tracing and blueprint, seems to be in due form.

Before this Department can accept this application for filing, according to statutory regulations, it is necessary that the application be accompanied by a filing fee. The filing fee in this case is \$9.25, based on a \$5.00 charge for the first second foot and 25¢ for each additional foot or fraction thereof.

It is also statutory that for filings on over 10 cubic feet per second of water that the application be accompanied by a tracing and blueprint, therefore, it is necessary for us to file your tracing as part of our permanent records and will be unable to return the tracing to you as per your request. We can return the tracing for copy, or for obtaining blueprints for a period of thirty days if required.

Very truly yours,

E. V. BERG
Commissioner of Reclamation

ICE OF PRO APPLICATION
TION OF WATER TO BENEFIC.
IAL USE.

Notice is hereby given that at 10:00 A. M., on the 4th day of January, 1954, at Nampa, County, of Canyon, State of Idaho, before Truman Manning, Notary Public, proof will be submitted of the application to beneficial use of 14.15 cubic feet per second of the waters of subterranean wells Nos. 1, 2, 3, 4, 5 and 6 in accordance with the terms and conditions of Permit No. 19375 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are The Amalgamated Sugar Company, Ogden, Utah.

The use to which said water has been applied is Manufacturing (refining sugar).

The amount applied to beneficial use is 14.15 cubic feet per second.

The place where said water is used The Amalgamated Sugar Company, Nampa Factory, located in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 9, Township 3, North, Range 2 West, B.M., Canyon County.

The right to take water from such works is based upon Permit No. 19375.

The source of supply from which such water is diverted is Subterranean flow from wells located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, Twp. 3 North, Range 2 West, B. M.

The date of priority which said user is prepared to establish is November 9, 1942.

MARK R. KULP,
State Reclamation Engineer.
December 5, 12, 19, 26, 1953.

PUBLICATION

Notice is hereby given that at 10 a. m., on the day of November, 1947, at Namp. County of Canyon, State of Idaho, before Ellis Stoker, a Notary Public, proof will be submitted of the completion of works for the diversion of 17.33 cubic feet per second of the waters of Subterranean Flow, by six wells, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation, of the State of Idaho.

1. The name of the person or corporation holding said permit is The Amalgamated Sugar Company.

2. The postoffice address of such person or principal place of business of such corporation is Ogden, Utah, County of Weber, State of Utah.

3. The number of such permit is 19375, and the date set for the completion of such work is November 9th, 1947.

4. Said water is to be used for Manufacturing purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 17.33 cubic feet per second.

6. The amount of lands for which said water is available is None, acres, particularly described as follows:
