Dear Mr. Potter: Independent School Dist of Boise City.

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of publication from the Idaho Sunday Stateman, all in connection with Beneficial Use proof under the above numbered permit, also depositions for completion of works.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the department will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof and Completion of Works proofs, and upon the receipt of your remittance, a license will be issued.

Very truly yours,

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 19157, June 2, 1941. Date of priority to be June 2, 1941

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is from a deep well located near Warm Springs Avenue in Thos. Davis third addition to Boise. City.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. The diversion works consist of a six inch pipe leading from the pump and a distribution system of small pipes of sufficient capacity to convey 1 cu. ft. of water onto the land described in the permit.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used for irrigation and domestic purposes on 14 acres of land located in the Thos. Davis third addition to Boise City. The land is planted to blue grass and is being used for an athletic field.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. XX
