Gentlemen:

We acknowledge receipt of your letter of January 18, 1944, enclosing deposition of the holder, depositions of two witnesses, and affidavit of publication from the Idaho Statesman, all in connection with beneficial use proof under the above numbered permit, all of which are found to be in order.

However, before final action can be taken in the matter the law requires that an examination be made by an engineer from this Department.

We cannot say just when this examination will be made, since this Department has but one Field Engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you when this examination is made, so that arrangements may be made to show him over the grounds.

Re: Permit No. 19092

Idaho Power Company
Boise, Idaho

Attention: Mr. G. H. Petersen
Special Agent

Gentlemen:

We acknowledge receipt of your letter of December 6th, enclosing notice in duplicate in connection with beneficial use proof under the above numbered permit, and your authorization to have the notice published at your expense in the Idaho Statesman.

The notice has been sent to the Statesman, with instructions to publish same for four consecutive weeks prior to January 17, 1944, the date set for proof, and to send the affidavit of publication to you on or before that date.

On the date set for proof a representative of the Idaho Power Company should appear before the designated Notary Public, with two disinterested witnesses, who are familiar with the terms of the permit and the work constructed thereunder, for the purpose of executing the depositions, forms for which are enclosed herein.

When the depositions have been taken they should be sent to this Department, together with the affidavit of publication of notice.

When these have been received, together with the report of the Field Engineer from this Department, if everything is in order you will be further notified as to fees due before issuance of a license.

Very truly yours,

JAMES SPOFFORD

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 19092 you are required to complete your diversion works on or before May 4, 1941. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

A. V. BERG.

Commissioner of Reclamation.
