Dear Sir:-

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Idaho Free Press, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact Mr. Tiegs at the time set for examination, so that he may show him over the grounds. After his report is on file, we shall notify Mr. Tiegs further as to fees in connection with the issuance of the license.

Your fee, as Notary Public, for taking the depositions, is a matter between yourself and Mr. Tiegs, and you should bill him for same, at the usual rates for taking depositions and certifying same. It is not handled through this department.

Wampa, Idaho

Boise, Idaho, **August 3, 1939**

Dear Sir:—

Under the terms of your permit No. **18511**.....you are required to complete your diversion works on or before.....**October 4, 1939**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
