Dear Sir:-

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination, so that you may arrange to have him shown over the grounds. After his report is on file in this office, you will be further notified as to fees before the issuance of a license.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

H. F. COOKS
Atlanta, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. **18506** you are required to complete your diversion works on or before **September 30, 1938**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

Hon. R. W. Faris,
Commissioner of Reclamation,
State House,
Boise, Idaho

Dear Mr. Faris:

I send to you inclosed in duplicate the application of H. F. Coors for permit to appropriate waters of Montezuma Creek in the amount of two second feet, and check for \$5.25, in payment of the fees of your office.

The public survey in that locality is irregular so it was necessary to have plat prepared on form other than as contained in your application forms.

Yours very respectfully,

A large, stylized handwritten signature in dark ink, appearing to read "E. H. Anderson".
