Notice of Proof Application of Water to Beneficial Use

Notice is hereby given that at 2:30 p. m. on the 14th day of December, 1937, at Boise, county of Ada, state of Idaho, before J. C. Moore, notary public, proof will be submitted of the application to beneficial use of 0.1 cubic feet per second of waters of subterranean waters in accordance with the terms and conditions of permit No. 18054 heretofore issued by the department of reclamation of the state of Idaho. The name and postoffice address of the person or corporation holding said permit are E. H. Dewey, inc., of Box 608, Nampa, Canyon county, Idaho.

The use to which said water has been applied is domestic, irrigation and agricultural.

The amount applied to beneficial use is 0.1 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) is in lot 2, sec. 12, T. 4 N., R. 1 W. B. M., county of Ada, state of Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon permit No. 18054.

The source of supply from which such water is diverted is subterranean.

The date of priority which said user is prepared to establish is November 14, 1934. R. W. Paris, commissioner of reclamation.

RE: Change of Ownership for Water Right 63-2502 & 63-22843

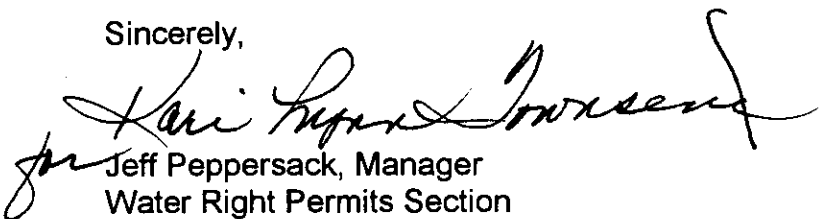

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Dear Ms. Shawback:

Our letter of December 28, 2001 (copy enclosed) requesting the filing fee, which is required for the processing of an ownership change on water rights, remains unanswered. Therefore, I am returning the ownership change request, Warranty Deed, and legal description. A copy of your ownership change form will be kept in our files for reference.

If, at a later date, you wish to reinstate this request you may send the enclosed ownership change request form along with the required proof of ownership, legal description and \$50.00 filing fee (\$25.00 per water right) and we will be happy to complete the request for you.

You may call our office at 327-7900 if you have any questions regarding this matter.

Dear Mr. Afshar:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

✓ **Filing Fee of \$25 per water right**

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. We have determined that the filing fee for your notice will be **\$50.00**.

Because the Department cannot process the ownership change without proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

If you have any questions regarding this matter, please call me at 327-7941.

Sincerely,

Kari Lynn Townsend
Secretary

Dear Sirs:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

We are herewith returning the bill of the Statesman Printing Co. for the publishing of the notice published in connection with this proof, together with your check in the amount of \$10.00 to pay such bill. You should pay the Statesman direct for this service.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided, the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS

MISS N. G. BLYTHE
Box 608,
Nampa, Idaho

Dear Miss Blythe:

The above application is herewith being returned with the request that you answer paragraphs 8 to 13 inclusive.

The information required under these paragraphs has reference to the kinds of works it will be necessary to construct to divert the water. In view of the fact that the water herein appropriated will be from a well, these works will probably consist of nothing more than a ditch, pump or possibly a small pipe line in place of the ditch.

It is suggested that you request at least 6 months for the completion of the works, since even though they are fully completed it will still be necessary to offer your proofs and it would be well to have a few months to complete these proofs.

Very truly yours,

R. W. FARIS
