Gentlemen:

It appearing to the Department of Water Administration that the terms and conditions of Permit 17811/63-2484 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee of \$4.00, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the department of Water Administration on or before August 24, 1971, why said permit should not be cancelled.

Permit 17811/63-2484 claims the use of 1.62 cubic feet per second of water from a ground water source, the point of diversion was to be located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 22, T. 3N, R. 2W, B.M., and the permit was approved August 31, 1933.

Dear Mr. Rising:

This is to inform you that we are now in receipt of the engineer's report showing his examination made in connection with final proof under the above permit and that upon receipt of a fee in the amount of \$4.00 we shall issue a license to the City for 1.62 second feet of water.

Mr. Tolman's report shows that the City has been irrigating a total of 81 acres, under the terms of this permit, and the amount of 1.62 second feet will be apportioned to this acreage at the rate of one inch to the acre.

MR. E. W. RISING, Mayor
City of Nampa,
Nampa, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department.. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that he may be shown over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of the license.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, **August 22, 1934**

MR. W. D. POTTER
Nampa,
Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. **17811**

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On **August 31, 1934**, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at **Nampa, Idaho** before **W. D. Potter, Notary Public**

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

R. W. FARIS

MR. A. D. POLMER, Notary Public
Nampa,
Idaho

Dear Sir:

You have been designated as the official before whom proof will be offered under the above permit at 9:00 A. M. on the 31st day of August. Mr. Rising will appear at your office on this date with two witnesses for the purpose of executing the depositions required in connection with this matter. The City Clerk should have a copy of Permit No. 17811 and it is suggested that you get in touch with him and have the permit delivered to your office at the time when proof is being offered, since much of the information that is required for the depositions will have to be taken from the permit. These depositions will be mailed to you from this office in ample time for the proof.

Dear Sir:

In conformance with our telephone conversation of this date, we have changed the notice for publication in connection with final proof under the above permit so that W. D. Potter is now designated as the official before whom proof will be offered. As you no doubt will remember, this proof is to be made at 9:00 A. M. on the 31st day of August. The proof consists of three depositions, being one for the holder and one each for two witnesses. Probably your City Engineer can serve as one of the witnesses and anyone else whom you might designate may appear as the other witness, providing of course that they are familiar with the permit and the works constructed thereunder.

Mr. Potter will receive the depositions from this office several days prior to the date set for proof.

If there is anything in connection with this matter which you do not understand, kindly communicate with this office and we shall attempt to clarify it to your satisfaction.

Hon. E. W. RISING,
Mayor,
Nampa, Idaho

Dear Sir:

Under date of June 27th notice, in duplicate, for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Leader Herald of Nampa, were received in this Department.

In checking over the permit record we find that proof of completion of works is also due on August 31, 1934. This proof did not accompany your papers and no action can be taken on the latter proof until proof of completion of works has been made. The proper form for this proof was mailed to you with our form letter of June 9th, which explained in detail the procedure for making the proof.

Will you kindly have the proper person execute this affidavit on behalf of the city and return it to this office with the Statutory fee of \$5.00. With the affidavit in proper form we will issue the Certificate of Completion of Works and beneficial use proof can then go forward.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

CITY OF NAMPA
Nampa, Idaho

Boise, Idaho, **June 9, 1934**

Dear Sir:—

Under the terms of your permit No.....**17811**.....you are required to complete your diversion works on or before.....**Aug. 31, 1934** I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. PARIS

Re: Application No. 24956

MR. F. KNEHN, JR.,
City Clerk
Nampa, Idaho

Dear Sir:

We are returning the above numbered application for permit in order that you may furnish some additional information. Under paragraph 8 in describing the kind of works you list nothing but a well. It seems to me that since the water will be used for irrigation purposes that you must have a ditch or some other conduit by which the water will be conveyed to the land where it will be used. The dimensions of your ditch should be given under paragraph 11. You should also give the approximate length of the ditch.

The amount of water claimed under this application is 1.62 second feet which will necessitate your showing a land list of 81 acres or in other words one acre of land for each miners inch of water that is claimed. This information should be given under paragraph 14 by listing the number of acres in each 40 acre subdivision which you propose to irrigate.

You did not say how much time will be required for completion of works and application of water to beneficial use. Possibly the works have already been completed and beneficial use of the water been made. If such is the case you will likely require more than enough time in which to offer the required proofs. However, it is suggested that you ask for at least 6 months time since it requires some little time for the publication and other procedure in connection with these proofs.
