Dear Sir:

As you know, final proof was made under the above permit several months ago and the issuance of a license has been pending receipt of the engineer's report showing his examination made in connection with the proof. We now have the report and find that at the time your application was filed a mistake was made with reference to the location of the point of diversion and also with reference to the lands to be irrigated which were not detected at that time. Will you please mail your permit to this office so that the necessary corrections may be made?

There is also a statutory fee of \$2.00 due this office which is for the purpose of partially paying the cost of field examination. As quickly as your permit has been corrected and we have received this fee, we will be in a position to issue the license.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

D. S. Vinson
Parma, Idaho

Boise, Idaho, October 28, 1931

Dear Sir:—

Under the terms of your permit No. 17596 you are required to complete your diversion works on or before Dec. 27, 1931. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.
