Re: Bentley License and
Certificate of Water Right
No. 17234

Dear Ms. Beaman:

Pursuant to our recent telephone conversation in which you requested confirmation of the Bentleys' ownership of the property covered by the above described water license, we have enclosed herewith a copy of the Bentleys' License and Certificate of Water Right No. 17234 and their deeds for the lands covered by that water right.

The License covers two contiguous 40 acre tracts which makes the total area irrigated by this water right 80 acres. Originally, Mr. F. V. Martin, who acquired the instant water right, owned all 80 acres. Later, however, the two parcels were sold to different individuals. In 1941, Vesta Brown Polley acquired the front 40 acres as is shown by the enclosed certified deed, instrument number 210923, which was reformed in 1956 to reflect her married name of Vesta R. Bentley. Enclosed herewith is a certified copy of this deed, instrument number 388717, which reflects this name change. In 1951, John O. Bentley and Vesta R. Bentley jointly acquired the back 40 acres. This transfer is reflected in the third enclosed deed, instrument number 320642. Thus, Mr. and Mrs. Bentley now own the entire 80 acres as originally covered by the 1929 water license.

It is our understanding that these deeds will be deposited with the water license so as to reflect the fact that the Bentleys are the current record owners of the property, and thus are the lawful holders of Water License No. 17234.
