

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 16th day of April, 1927, at Boise, County of Ada, State of Idaho, at the Department of Reclamation, proof will be submitted of the application to beneficial use of 2.0 cubic feet per second of the waters of main fork of Mammon Gulch in accordance with the terms and conditions of Permit No. 16489, heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is G. M. Paulson, Wilder, Ida.

The use to which said water has been applied is irrigation and domestic use. The amount applied to beneficial use is 2.0 second feet.

The place where said water is used SE 1/4 Sec. 11, Twp. 4 N., R. 5, W. B. M.

The name of the canal or ditch or other works by which said water is conducted to each place of use is through the Paulson lateral.

The right to take water from such works is based upon Permit No. 16489.

The source of supply from which such water is diverted is Main Fork of Mammon Creek.

The date of the priority which said user is prepared to establish is May 29, 1924.

GEO. N. CARTER.
Commissioner of Reclamation.

Affidavit of Publication

H. B. JONES, being duly sworn, deposes and says that he is the publisher of the

WILDER HERALD,

a weekly newspaper, published continuously and uninterruptedly for a period of more than 78 weeks prior to the first publication of this notice, at Wilder, County of Canyon, State of Idaho; that the said newspaper is in general circulation in said county; that a copy of the above notice, as per clipping attached, was published weekly in the regular and entire issue of said newspaper, and not in any supplement thereof, for 4 consecutive weeks, commencing with the issue dated March 25, 1927, and ending with the issue dated

April 15,

1927

License and Certificate of Water Right

Water License No. 16489Amount 2.0 sec. ft.

Water District No.

Priority 5-29-1926.

THIS IS TO CERTIFY that **G. M. Paulsen,**
 of **Wilder, Idaho**, made application for a permit to appropriate the
 public waters of the State of Idaho, dated **May 29**, 19 **26**; that Permit No. **16489**
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.0 second feet, was issued thereunder on **March 11**, 19 **27**, showing that said works
 were completed on the **10th** day of **March**, 19 **27**; and that on the **16th**
 day of **April**, 19 **27**,

G. M. Paulsen,
 of **Wilder**, State of **Idaho**, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of **Mammon**
Gulch, a tributary of **Boise River**, for the purpose of **irrigation and**
domestic use, under Use Permit No. **16489** of the **Commissioner of Reclamation**
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
 hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume **6**
 of Licenses, at page **3512**, on the **11th** day of **June**, 19 **28**;

The right hereby confirmed dates from **May 29**, 19**26**;

The Point of Diversion is located
 in the **SW** $\frac{1}{4}$ **SW** $\frac{1}{4}$, Sec. **11**, Tp. **4 N.**, R. **5 W.**, B. M. **Canyon County**;

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
 is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed **2.0**
 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
4 N.	5 W.	11	NE $\frac{1}{4}$ SE $\frac{1}{4}$	40	40
			NW $\frac{1}{4}$ SE $\frac{1}{4}$	40	20
			SW $\frac{1}{4}$ SE $\frac{1}{4}$	40	40
			SE $\frac{1}{4}$ SE $\frac{1}{4}$	40	40
					Total 140

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
 herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
 this **11th** day of **June**, 19 **28**.

APPLICATION FOR PERMIT 63-2397 TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 23339
Permit No. 16489
District No.

1. Name of Applicant: G. M. Paulsen

Postoffice address: Wilder County: Canyon State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: 2.0 cubic feet per second.

3. Source of water supply: Main fork of Mammon Gulch which is a tributary of

4. Location of point of diversion: feet distant from the
corner of Section , T. , R. , B. M., and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 11 , T. 4N , R. 5 W , B. M., County of Canyon

5. Water is to be used for: irrigation

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.
- (b) Amount of power generated: H. P., under feet head.
- (c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 300.00 to \$400.00

8. Kind of works: electric motor and pump. Lift about 13 ft.

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet

Paine lateral of U.S.R.S. to our headgate.

11. Ditch: / Width at bottom feet; width at water line feet; depth of water
feet; dimensions of flume

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet

12. The time required for the completion of such work is one years.

13. The time required for the complete application of the water to the proposed use is none additional years.

14. The land to be irrigated is described in the following tabulation: See Remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

G. M. Paulsen Applicant.

By

Agent.

Date of first receipt at Department of Reclamation. 9 A. M., May 29, 1926

Returned to applicant for correction.

Corrected application received.

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 16489

Recorded in Book 59 Page 16489 Approved June 2, 1926

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before August 1, 1926 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before December 2, 1926

The whole of said work to be completed on or before June 2, 1927

Beneficial use of water appropriated in accordance herewith, to be made on or before June 2, 1927

Witness my hand this 2nd day of June, 1926.

W. G. SWENDSEN
Commissioner of Reclamation.

Re: Permit No. 16489

HONORABLE FRANK L. STEPHAN
Attorney General
Capitol Building

Dear Sir:

I am calling your attention to a permit to appropriate water from a drainage canal on the Boise Government irrigation project.

Proof of application of this water to beneficial use was offered by applicant and at the same time protests against the issuance of a license, as contemplated by Section 5579, Idaho Compiled Statutes, by the United States, acting through its superintendent for the Boise Project and by the Board of Control, acting through its Manager, said Board of Control being the operating agency organized to take over from the control of the Government this irrigation project, were presented.

You will observe that the protests are based largely upon the theory that the waters involved are not subject to appropriation by the permit holder.

I have drawn a form of order which seems to me may meet the situation. I would be pleased to have your comment or opinion upon the said order if that is the proper way to dispose of the question from a legal standpoint.

The question involved is one that frequently presents itself to this office, both in the granting of applications for permits to appropriate waste water or drainage water and the appropriate disposal to be made of the profits which are subsequently in order once a permit is granted.

It has been the policy of the Department for about four years last past to discourage the filing of applications for permits to appropriate any waters other than the waters of the State flowing in natural stream channels; however, as the permit law is framed, there is absolutely no discretion vested with the Commissioner of Reclamation in

16489

HONORABLE FRANK L. STEPHAN, #2,

accepting or rejecting any application for permit to appropriate water for any beneficial purpose or from any stream source of supply. In view of this lack of discretion, we are not always able to discourage an applicant from presenting his application for permit, and it is in such cases as that that a legal angle is given to the matter of approving permits, granting certificates of completion of works and licenses, all as permits contemplate.

In fact the whole matter of appropriation of waste water is rather vague and indifferent in so far as the Idaho law is concerned. Since drawing the attached order, I have just received copy of a late Supreme Court decision, which may have a bearing upon this subject of appropriation of waste water. I am attaching same for your reference.

If you will be good enough to give me legal advice or instruction as to the appropriate way in which to handle applications for permit to appropriate waste water or water from a drainage canal, and especially, advise me in the case of Permit No. 16489, in a general way so that your opinion may be used as a precedent, it will be greatly appreciated. Perhaps, after preliminary study of this question you will wish to discuss the matter further, in which event, I will be very glad to give you any and all information I have been able to acquire during the past five years in this office bearing upon the said subject.

The file in the case of this permit is attached for your information.

Very truly yours,

Commissioner of Reclamation

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 16489This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant: G. M. Paulsen
2. Source of water supply: Main Fork of Maroon Galeb
3. Location of point of diversion: Is in the SW¹SW¹ of Section 11
T. 4 N R. 5 W B M County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same:

*Applicant has installed Puma Water Lifter Motor
Driven which raises water to a lateral of U. S. R. S.
Govt. project, and diverts same thru his service ditches
to land. Capacity of pump - 2 1/2 sec. ft.*

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): SE¹, Sec. 11, Twp. 4 N., R. 5 W., B.M.

Land Irrigated - NE¹SE¹ Sec. 11 - T. 4 N. R. 5 W. B.M. 40 acres

<i>NW¹SE¹</i>	<i>" " " " "</i>	<i>20 "</i>
<i>SW¹SE¹</i>	<i>" " " " "</i>	<i>40 "</i>
<i>SE¹SE¹</i>	<i>" " " " "</i>	<i>40 "</i>
<i>Total</i>		<i>140 "</i>

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Boise River

Remarks:

*This farm presents an appearance of fertility
and good husbandry which is exceptional in comparison
to the average farm in Boise Valley. Use of this
water supply has no doubt contributed materially to
the thrifty appearance which the place presents.*

PERMIT NO. 16489

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, ~~age~~, residence, occupation and postoffice address.

Ans. G. M. Paulsen. Wilder, Idaho, Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 16489, Date of Permit June 2, 1926, Priority- May 29, 1926

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Main Fork of Mammon Gulch, Diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec.11, T. 4 N., R.5 W.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Have a 5-H.P. motor and pump with capacity of about 100" with present power. This pumps the water into the Paine lateral. Have to put in a temporary dam when the water gets low.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation purposes, 37 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, 15 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$, 11 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$, all in Sec.11, T. 4 N., R. 5 W.B.M.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. No

16489

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. An inch to the acre

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the original applicant

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water was first used in 1924 and again in 1926. The water is used
in short water seasons - For the irrigation of the land described.
Had ample water from the U.S.Reclamation Service in 1925.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Have a pro rata share from the U.S.Reclamation for whatever water is
available. The ground is very rough and requires more water than
the level ground. 20 acres of the land is in orchard and requires late
irrigation and during the frost period we need the water on to protect
the trees as much as possible. We can't get the Reclamation water without
24 hours notice. I am the (Sign) *G. M. Daniels*
last place on the stream.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada

PERMIT NO. 16489

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, ~~age~~, residence, occupation and postoffice address.

Ans. A. W. Paulsen, Wilder, Farmer

Ques. 2. Are you acquainted with G. M. Paulsen, the holder of Permit No. 16489? How long have you known him and where does he reside?

Ans. All my life

Ques. 3. Have you read or heard read said Permit No. 16489, and are you familiar with its provisions and conditions?

Ans. Have read the permit and am familiar with the terms and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply is Main Fork of Marmion Gulch, Point of Diversion in SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 11, Twp. 4 N., R. 5 W., B.M. Has a 5 H-P motor and pump with capacity of 100 inches which pumps water into the Paine lateral. A temporary dam is required to be put in when water is low.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Will conduct more than the two second feet of water. Have seen that much.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation purposes ; 37 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, 15 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$ and 11 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$, all in Sec. 11, T. 4 N., R. 5 W., B.M.

16489

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

not for power

Ans.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is light, volcanic ash; will require about one inch to the acre.
The land is very rough and requires more water than if more level.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I own the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 11, T. 4 N., R. 5 W., B.M.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen the water used in 1924, and 1926. There was ample water
from the U.S. Reclamation Service in 1925.

PERMIT NO. 16489

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, ~~age~~, residence, occupation and postoffice address.

Ans. C. G. Paulsen, Boise, Idaho. U. S. G. S. , Boise

Ques. 2. Are you acquainted with G. M. Paulsen, the holder of Permit No. 16489? How long have you known him and where does he reside?

Ans. Yes, Have known him all my life. He resides at Wilder, Idaho

Ques. 3. Have you read or heard read said Permit No. 16489, and are you familiar with its provisions and conditions?

Ans. Yes, I have read the permit and are familiar with the terms.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Main Fork of Mammom Gulch. Diversion point in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11,
Twp. 4 N., R. 5 W., B.M. Works consist of a 5 H-P motor pump with a
capacity of 100 inches which pumps water into the Paine lateral.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Will carry more than the 2 second feet claimed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of the following lands: 40 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres in
the SE $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and 20 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 11, T. 4 N.,
R. 5 W., B.M.

16489

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is light volcanic ash; more than 1 inch to the acre is required to secure maximum production, particularly since much of the above described land is rough.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I own the NE 1/4 of Sec. 11, T. 4 N., R. 5 W., B.M.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed the use of the water in 1924 and 1926

(Signed) *C. G. Gaudin*

My commission expires April 11, 1929

BEFORE THE STATE COMMISSIONER OF RECLAMATION OF THE
STATE OF IDAHO

In Re: Proof of Beneficial Use under Permit No.
16489 to appropriate 2 second feet of
the waters of Mammon Gulch.

Protest of the United States

STATE OF IDAHO)
 (ss
County of Ada)

The United States of America, acting through
R. J. Newell, Superintendent of the Boise Reclamation
Project of the United States, hereby protests the
statements made by the person or persons submitting
proof of beneficial application of water under Permit
No. 16489 for two second feet of the waters of Mammon
Gulch, and for his grounds of protest said R. J. Newell,
being first duly sworn, deposes and says:

That the said Mammon Gulch, from which said water
is proposed to be taken under said Permit 16489, is not
a natural stream but is a part of the drainage system
constructed by the United States for the Boise project
and a part of that certain drain of said drainage sys-
tem known as the Wilder Drain; that the waters flowing
in the said drain or the said Mammon Gulch are not
natural flow waters and are not waters subject to appro-
priation but that all the waters flowing therein during
the irrigation season are part of the waters appropriated
by the United States for the said Boise project and
waters which have not been abandoned by the United
States and that the said waters are waters belonging
to the United States and subject to the principle es-
tablished in the decision of the Supreme Court of the
United States in the case of *Ide v. United States*, 16489

263 U. S. 497, 68 L. ed. 407, and cases there cited; that the waters of the said drain, or the said Mammon Gulch, flow into the Riverside Canal and have been for many years past, and for many years prior to the date of the said Permit No. 16489, applied to beneficial use in the irrigation of lands under said Riverside Canal; that pursuant to a contract between the United States and the Riverside Irrigation District, the District has acquired the right to approximately Eleven Hundred Sixty Four (1164) acre feet of stored water from the Arrowrock Reservoir and has agreed, in said contract, that water from any other source under the control of the United States may be substituted in lieu of said Eleven Hundred Sixty Four (1164) acre feet of stored water from the Arrowrock Reservoir, and that by means of supplying said Riverside Canal with water from the drainage system of the United States the Boise project receives in exchange therefor the said stored water from Arrowrock Reservoir; and that the Boise project has a superior and better right to the said water supply of the said drainage system than has the applicant under said Permit No. 16489 and that the same should be used for the general benefit of the project and not for the special benefit of the applicant.

And for second, and other, ground of protest, the undersigned protestant alleges that the said applicant G. M. Paulson has no means of conveying the said water from the said drain to the lands on which it is claimed that the said water has been applied to beneficial use; that water has been delivered to said lands only by means of the canals and laterals of the United States

constituting a part of the said Boise project; and that the only water applied to beneficial use on the said lands has been the water delivered thereto by the United States from the canal system of the United States.

And as further ground of protest, the undersigned protestant alleges that the said lands already have a water right, as a part of the irrigable lands of the said Government Boise project, under the appropriation for said project and subject to the terms and conditions of the Federal Reclamation Laws applicable thereto, and that the issuance of the license applied for under said Permit No. 16489 would be a duplication of water rights for said land.

And for further ground of protest, the protestant alleges that the State Commissioner of Reclamation is without jurisdiction to grant a license to appropriate water from an artificial stream which is not a natural stream of the State of Idaho but an irrigation or drainage ditch owned by the United States.

R. Newell

Subscribed and sworn to before me this 18
day of April, 1927.

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION

RJN:ERC

Boise, Idaho
April 15, 1927.

Mr. George N. Carter
Commissioner of Reclamation
State of Idaho
Boise, Idaho

Sir:

Reference is made to published Notice of Intention to Make Proof of Beneficial Use on Permit No. 16,489. This permit was issued to Mr. G. M. Paulson of Wilder, Idaho, for 2.0 second-feet of water from the Mammon Gulch.

The United States, through the officers of the Bureau of Reclamation, hereby protests the acceptance of proof and the issuance of license for the water represented by this permit.

Grounds of protest will be more fully set out and presented before April 20.

Very truly yours,

R. J. Newell
Superintendent.

BOARD OF CONTROL

BOISE PROJECT

WHT-VH
(FORMERLY BOISE U. S. RECLAMATION PROJECT)

BOISE, IDAHO

April 15, 1927.

Mr. Geo. N. Carter,
Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

My attention has been called to water permit No. 16489 granted to G. M. Paulson of Wilder, Idaho, which will come up for proof of beneficial use on April 16, 1927. We wish to protest the allowing of this permit due to the following facts.

The drain from which Mr. Paulson wishes to pump is called on our drainage maps, the Wilder Drain, and which was known formerly as the Mammond Gulch Wasteway. This Gulch was dug and made into a deep drain as far as the center of section 11. Mr. Paulson pumps from this drain at the point where the drain enters Section 11. The Wilder Drain was dug by the United States Reclamation Service and is their property and is controlled by the Wilder Irrigation District through the Board of Control.

Further, the water is developed water coming from and solely due to irrigation water carried in our canals and the water applied by the Project water users to lands in the Project.

The water is not public water of the State subject to appropriation.

The Paine Lateral is a lateral constructed by the Government and controlled by the Board of Control and cannot be used by Mr. Paulson as constructed works in his acquiring a water permit.

Very truly yours,

Wm H. Tuller

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 16th day of April, 19 27,
at Boise, County of Ada, State of Idaho,
~~XXXXX~~ at the Department of Reclamation, proof will be submitted
before _____, proof will be submitted
of the application to beneficial use of 2.0 cubic feet per second of the
waters of main fork of Mammon creek Gulch in accordance with the terms and conditions of
Permit No. 16489 heretofore issued by the Commissioner of Reclamation
of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____
G. M. Paulsen, Wilder, Idaho.

The use to which said water has been applied is irrigation and domestic use

The amount applied to beneficial use is 2.0 second feet.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) SE 1/4 Sec. 11, Twp. 4 N., R. 5 W., B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is through the Paine lateral.

The right to take water from such works is based upon Permit No. 16489

The source of supply from which such water is diverted is Main Fork of Mammon Creek

The date of the priority which said user is prepared to establish is May 29, 1926.

Geo. H. Carter.

Commissioner of Reclamation.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

G. N. Paulsen,
Wilder, Idaho.

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. ~~16489~~..... you are required to complete your diversion works on or before ~~June 2, 1927~~..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. N. CARTER.
Commissioner of Reclamation.

March 4, 1927.

Dear Sir:

I enclose herewith blank notice of proof of Application of Water to Beneficial Use under your Permit No. 16489, which kindly fill out and return to me at least 60 days before the date upon which you wish to submit proof. The date of the proof is set out in your permit, and if proof is submitted subsequent to that your priority will be advanced a time equal to the difference of the time between the date proof should have been submitted and date it is submitted.

Yours truly,

GEO. W. CARTER.

Commissioner of Reclamation.
