REMARKS: The land described above is located within the Black Canyon Irrigation District and the construction contemplated hereunder is covered by contract between said Irrigation District and the Secretary of the Interior dated January 2, 1918.

The applicant claims that a large part of the water supply filed on under this application is water from Deer Flat Reservoir which seeps under the upper embankment of said reservoir and is recovered in the drains constructed for that purpose by the United States below said embankment and is claimed by the United States as stored water from said reservoir, and a part is water developed in the drainage system constructed by the United States. The United States does not abandon or relinquish any rights which it now has to said waters, but expressly declares its intention to retain and assert said rights and use said waters.

Dear Sirs:

Was there ever a license issued for permit #13770? This is the one where the United States filed for 120 cubic feet per second out of Wilson and Elijah Drains or Sloughs, for the lands of the First Unit of the District. We have a copy of the Certificate of Completion of Works, dated 11/6/23.

The District will appreciate having a copy of said license for its files, if there was one issued. Please advise.

Reference is made to your letter of June 29, 1951, requesting a copy of Permit No. 13770.

Since a License has been issued on this Permit, we are not sure whether what you wish is a copy of the original Permit which describes in detail the land to which the water is appurtenant, or a copy of the License which simply states the amount and priority for land in the Black Canyon District.

The fee for making a copy of the License will be \$1.00 or of the Permit, \$2.00, and we shall await your further advice in the matter.

BOISE, IDAHO, **October 11, 1923.**

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. 13770.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On October 19, 1923, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Boise, before Jesse Jones, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

W. G. SWANSEN,
Commissioner of Reclamation,

PROOF OF COMPLETION OF WORKS

U. S. Reclamation Service,
Boise, Idaho.

Boise, Idaho,

July 11, 1923.

G. C. Fisher

DEAR SIR:

I enclose herewith blank Form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 13770.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Oct. 19, 1923. Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

W. G. SWEDSEN.
