Affidavit of Publication

STATE OF IDAHO

COUNTY OF CANYON

ss.

L. G. Krater being duly sworn, deposes and says that he is Foreman of CALDWELL TRIBUNE PUBLISHING COMPANY, publisher of THE CALDWELL TRIBUNE, a semi-weekly newspaper published at Caldwell, Idaho; that the said paper is in general circulation in the County aforesaid, and has been for a period of 78 weeks preceding first publication of this advertisement, a copy of which is attached hereto, and was published

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 a. m. on the 1st day of March, 1923, at Caldwell, County of Canyon, State of Idaho, before Frank D. Mumford, Notary Public, proof will be submitted of the application to beneficial use of Twenty (20) cubic feet per second of the waters of Mason Creek Drain, in accordance with the terms and conditions of Permit No. 11,980, heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Caldwell Irrigation District, Caldwell, Idaho.

The use to which said water has been applied is Irrigation and Domestic.

The amount of water applied to beneficial use is Twenty Second Feet.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) One thousand acres, located in Sections 10, 15, 22, 23, 25 and 26, in Township 4 North, Range 3 West from the Boise Meridian, in Canyon County, Idaho, comprising all of the lands located within the boundaries of the Caldwell Irrigation District.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Caldwell Irrigation District, or Canyon Hill Canal.

The right to take water from such works is based upon Permit No. 11,980.

The source of supply from which such water is diverted is Mason Creek Drain.

The date of the priority which said user is prepared to establish is December 7th, 1915.

W. G. SWENDEEN,
Commissioner of Reclamation.

13 19c

in the regular edition of said THE CALDWELL TRIBUNE, 4 consecutive weeks, beginning with the issue of Feb. 2, 1923, and ending with the issue of Feb. 23, 1923.

State of Idaho
License and Certificate of Water Right

Water License No. 11980
Water District No. 12-A

Amount 19.65 sec. ft.
Priority 12-7-1915

THIS IS TO CERTIFY that Caldwell Irrigation District
of Caldwell, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 7, 1915; that Permit No. 11980
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
20 second feet, was issued thereunder on January 31, 1924, showing that said works
were completed on the 10th day of March, 1919; and that on the 1st
day of March, 1923,

Caldwell Irrigation District

of Caldwell, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Mason Creek
Drain, a tributary of Boise River, for the purpose of Irrigation &
domestic use, under Use Permit No. 11980 of the State Engineer
and that said right to the use of said waters has been perfected in accordance with the laws of
Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
Volume 6 of Licenses, at page 3143, on the 31st day of January, 1924;

The right hereby confirmed dates from December 7, 1915;

The Point of Diversion is located
in the SE 1/4 SE 1/4, Sec. 33, Tp. 4 N., R. 2 W., B. M.
County of Canyon

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not
exceed 19.65 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			982.83 acres in sections 10, 14, 15, 22, 23, 25 and 26, Twp. 4 N., R. 3 W., B. M., in Canyon County, Idaho, comprising all the lands located within the boundaries of the Caldwell Irrigation District.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of
use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 31st day of January, 1924.

H. G. SWENDESEN.
Commissioner of Reclamation.

No. 17119

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

63-2283

1. Name of applicant: Caldwell Irrigation District.

Postoffice address: Caldwell

County: Canyon

State: Idaho

I. If applicant is a corporation, give

(a) Date and place of incorporation: Jan. 1914, Caldwell, Idaho.

(b) The amount of capital stock:

(c) The amount paid in:

(d) Names and addresses of directors: J.B. Wright, Pres., W.B. Allison, Caldwell, Idaho.

II. The financial resources of the applicant are: (a) Cash on hand:

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: Assessments.

2. The quantity of water claimed is Fifty (50) cubic feet per second.

3. Source of water supply: Indian Creek and Drain Lines entering above point of diversion, (Tributary to Boise River).

4. Location of point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, T. 3 N., R. 2 W.B.M. - N. 38° 51' E. 837.5' from SE. Corner Sec. 8, T. 3 N., R. 2 W.B.M.

County of Canyon.

5. To be used for: Irrigation

I. Irrigation and domestic use: (a) Amount of land to be irrigated: 5,530.9 acres.

(b) In the following legal subdivisions: See Appended list.

II. Mining, milling, power, manufacturing, transportation or other purposes:

(a) At what point:

(b) Amount of power to be generated:

H. P. under ft. head

(c) Is water to be returned to any stream? point of return:

(d) If so, name stream and locate

6. Estimated cost of works: \$17,000.00

7. Description of works for diversion:

I. Kind of works: Brush Dam, Ditches, Flume.

II. Dimensions of works:

(a) Height of dam Two feet, length of dam at top Thirty feet,

length of dam at bottom Thirty feet. Material used in construction Brush and earth

(b) Capacity of reservoir acres feet. (c) Size of headgate, width Seven feet,

Height Three feet. (d) Conduit See Remarks width at bottom feet,

width at water line feet, depth of water feet; diameter of pipe

inches; average grade per mile is feet. Length of conduit is miles, and it crosses the following quarter sections:

8. The time required for the completion of the construction of such work is Three years.

9. Time required for the complete application of the water to the proposed use is Four additional years.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

Caldwell Irrigation District

Applicant.

By Walter Griffiths.

Agent.

Date of first receipt at office of State Engineer 10:50 A.M. December 7, 1915.

Returned to applicant for correction December 9, 1915.

Corrected application received February 7, 1916.

APPROVAL OF STATE ENGINEER

The number of this permit is 11980

Recorded in Book 41 Page 11980 Approved March 18, 1916.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$1000.00

to be filed on or before May 17, 1916.

Work to begin on or before

and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before September 18, 1917.

The whole of said work to be completed on or before March 18, 1918

Beneficial use of water appropriated in accordance herewith, to be made on or before March 18, 1923.

Witness my hand this 18th day of March, 1916.

J. H. Smith.

State Engineer.

Proof Completion of Works made: March 10, 1919.
 Certificate issued: February 10, 1921.

Permit No. 11980

CERTIFICATE OF COMPLETION OF WORKS.

TO ALL WHOM IT MAY CONCERN:

This is to certify that Caldwell Irrigation District, of Caldwell, County of Canyon, and State of Idaho, the holder of Permit No. 11980, issued upon Application No. 17119, bearing date of priority of December 7, 1915, authorizing the diversion of 50 second feet of the waters of Indian Creek and drain lines above point of diversion, County of Canyon, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 20 second feet of the waters of Mason Creek Drain; that the point of diversion of said waters is in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 33, T. 4 N., R. 2 W. B. M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: 1000 acres located in Sections 10, 15, 22, 23, 25 and 26, T. 4 N., R. 3 W. B. M.

Witness my hand this 10th day of February, A. D., 1921.

W. G. Swendsen,
 Commissioner of Reclamation.

By: S. T. Baer,
 Deputy.

A F F I D A V I T

STATE OF IDAHO,)
) SS.
 County of Canyon.)

J. L. Isenberg, being first duly sworn, upon oath, states: That affiant is the Chairman of the Board of Directors of the Caldwell Irrigation District, and owns land and resides with his family within said District; that affiant has had charge of the irrigation system of said Irrigation District during different seasons, and knows the said system and its capacity, and knows the lands located within the boundaries of said Irrigation District.

That in the Certificate of Completion of Works, and Permit No. 11980, issued by the Commissioner of Reclamation of the State of Idaho, on the 10th day of February, 1921, to the Caldwell Irrigation District, permitting said Irrigation District to divert twenty second-feet of the waters of Mason Creek Drain for use for irrigation upon one thousand acres of land located in certain sections, designated in said Permit as Sections 10, 15, 22, 23, 25 and 26, in Township 4 North, of Range 3 West from the Boise Meridian, there was by error omitted from said description Section 14, in said Township and Range. That in the subsequent publication of notice of the time and place when proof was to be submitted of the application to a beneficial use of said twenty second-feet of waters of Mason Creek Drain, in accordance with the terms and conditions of Permit No. 11980, there was also through error omitted from the description contained in said notice said Section 14, in said Township and Range. That in the submission of said proof of the application of water to a beneficial use under said Permit No. 11980, the evidence showed that the said irrigation works will safely conduct and have safely conducted to the place of use twenty-second feet of water, and that said water was used for irrigation and domestic purposes on one thousand acres of cultivated land located in Sections 10, 14, 15, 22, 23, 25 and 26, in Township 4 North, of Range 3 West from the Boise Meridian, in Canyon County, State of Idaho, and that said lands were included within the boundary lines of the Caldwell Irrigation District, and that said land had been irrigated, improved and subdivided into small homes and residences, and used for gardening, truck farming, and fruit growing. That the facts shown by said affidavits and proof supplied of the application of water to a beneficial use on the 1st day of March, 1923, are correct and that said Certificate of Completion of Works, dated February 10th, 1921, issued by the Commissioner of Reclamation, of the State of Idaho, should be corrected by including Section Fourteen therein, so as to correctly state the facts, and that the License heretofore issued by the Commissioner of Reclamation of the State of Idaho, upon said proof, should be cancelled and a new license thereon issued, including the land in said Section Fourteen, and including all of the land in the said Caldwell Irrigation District, comprising one thousand acres and requiring for use for the irrigation of the same, twenty second-feet of water.

Dated this 28th day of January, 1924.

Hon. W. G. Swendsen,
Department of Reclamation,
Boise, Idaho

Dear Sir:

I am inclosing herewith the
Affidavit of W. B. Allison in relation to
an error in connection with the published
notice and permit and license of the
Caldwell Irrigation District.

I am also inclosing Permit
No. 11980 for correction.

Respectfully,

Walter Griffiths.

11980

A F F I D A V I T.

STATE OF IDAHO,)
 SS.
County of Canyon.)

J. G. Isenberg
~~W. B. Allison~~, being first duly sworn, upon oath,
states: That affiant is ~~one of the members~~ ^{Chairman} of the Board of
Directors of the Caldwell Irrigation District, and owns land
and resides with his family within said District; that affiant
has had charge of the irrigation system of said Irrigation
District during different seasons, and knows the said system
and its capacity, and knows the lands located within the
boundaries of said Irrigation District.

That in the Certificate of Completion of Works, and
Permit No. 11980, issued by the Commissioner of Reclamation of
the State of Idaho, on the 10th. day of February, 1921, to the
Caldwell Irrigation District, permitting said Irrigation District
to divert twenty second-feet of the waters of Mason Creek Drain
for use for irrigation upon one thousand acres of land located in
certain sections, designated in said Permit as Sections 10, 15,
22, 23, 25, and 26, in Township 4 North, of Range 3 West from the
Boise Meridian, there was by error omitted from said description
Section 14, in said Township and Range. That in the subsequent
publication of notice of the time and place when proof was to be
submitted of the application to a beneficial use of said twenty
second-feet of waters of Mason Creek Drain, in accordance with the
terms and conditions of Permit No. 11980, there was also through
error omitted from the description contained in said notice said
Section 14, in said Township and Range. That in the submission
of said proof of the application of water to a beneficial use under

said Permit No. 11980, the evidence showed that the said irrigation works will safely conduct and have safely conducted to the place of use twenty second-feet of water, and that said water was used for irrigation and domestic purposes on one thousand acres of cultivated land located in Sections 10, 14, 15, 22, 23, 25 and 26, in Township 4 North, of Range 3 West from the Boise Meridian, in Canyon County, State of Idaho, and that said lands were included within the boundary lines of the Caldwell Irrigation District, and that said land had been irrigated, improved, and subdivided into small homes and residences, and used for gardening, truck farming, and fruit growing. That the facts shown by said affidavits and proof supplied of the application of water to a beneficial use on the 1st. day of March 1923, are correct and that said Certificate of Completion of Works, dated February 10th., 1921, issued by the Commissioner of Reclamation, of the State of Idaho, should be corrected by including Section Fourteen therein, so as to correctly state the facts, and that the License heretofore issued by the Commissioner of Reclamation of the State of Idaho, upon said proof, should be cancelled and a new license thereon issued, including the land in said Section Fourteen, and including all of the land in the said Caldwell Irrigation District, comprising one thousand acres, and requiring for use for the irrigation of the same, twenty second-feet of water.

Dated this 28th. day of January, 1924.

Subscribed and sworn to before me this 28th. day of January, 1924.

J. L. Isenberg

Re: Permit No. 11900-Caldwell Irr. Dist.

Mr. Walter Griffiths,
Attorney at law,
Caldwell, Idaho.

Dear Sir:-

Referring to your letter of the 18th inst. would say Mr. Allison called at the office this morning and we went over the records and files of this permit and find that Section 14 had not been included in the notice published for proof of completion of works nor had it been put into the certificate of completion of works issued. It was, no doubt, for this reason that this section was left out of the notice published for proof of beneficial use of the water. However, to correct this error, the holder should file an affidavit setting forth the facts in the case, showing an error had been made in the proof of completion of works and asking that the certificate be corrected to include that part of Section 14 within the boundaries of the Caldwell Irrigation District. The affidavit should also show that this same error had been made in the proof of beneficial use of water and ask that a new license be drawn to include this land, and that license be issued for 19.65 second feet of water for the irrigation of 982.85 acres of land.

This affidavit will then be recorded under the permit and the certificate of completion of works issued in 1921 canceled and a new certificate drawn to include Section 14. A new license will also be drawn in accordance with the affidavit.

The certificate of completion of works issued in 1921 should be returned to this office and a new certificate will be issued.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.

WALTER GRIFFITHS
LAWYER
WESTERN NATIONAL BANK BUILDING
CALDWELL, IDAHO

January 18th., 1924

Hon. W. G. Swendsen,
Commissioner of Reclamation,
Boise, Idaho

Dear Sir:

I have just received your letter of yesterday, containing license and certificate of water right for the Caldwell Irrigation District, and note that the amount is fixed at 17.50 second-feet to be used upon 875 acres of land. This seems to be a mistake. I do not know how it has occurred, but there is practically 1000 acres of land in the District, and it is all irrigated. There is just a trifle less than 1000 acres, I think 990 and some acres. So this should be made to conform to the facts, and the right should be for 20 second-feet and the use should be on 1000 acres, located in the sections mentioned, but section fourteen should be added also, for there is a portion of the land located in section fourteen.

I have just called the attention of the Board of Directors to these facts, and William B. Allison, who is one of the directors, will be up to see you next Monday in regard to the matter.

Respectfully,

WG/MN

Walter Griffiths

Re: Permit No. 11980
Caldwell Irrig. District.

Mr. Walter Griffiths,
Attorney at Law,
Caldwell, Idaho.

Dear Sir:

The report of our examining engineer for proof of beneficial use of water under the above numbered Permit is now on file in this office. Upon receipt of fees in the sum of \$38.00 license will be issued.

These fees are based upon the number of forty-acre tracts shown in the Caldwell Irrigation District as this water is to be spread over the entire District.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation

By

Chief Clerk.

11980

REPORT OF ENGINEER

This proof is for Beneficial UseIn Water District No. 12-A

1. State name of applicant and number of permit: Caldwell Irrigation Dist.-Permit 11980
2. State source of water supply: Mason Creek Drain
3. Location of point of diversion: SE¹SE¹ Sec. 33, Twp. 4 N., R. 2 W., B.M.

4. Describe works as they exist, giving dimensions and capacities of same: Concrete check dam 30' long, 7' high, 12" walls, Diversion gate 6' wide discharge into canal about 14' wide, 3 ft. deep. Pumping plant is equipped with 1 Centrif. pump of 5000 G.P.M. & 1 of 2500 G.P.M. lifting water 47 + 32 ft. respectively. all structure, walks etc are of concrete construction

5. State whether or not water has been turned into works of diversion: yes

6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): 1000 acres located in Secs. 10, 15, 22, 23, 25 & 26, Twp. 4 N., R. 3 W., B.M., Canyon County, Idaho, comprising all the lands located within the boundaries of the Caldwell Irrigation District.

About 875. acres of above lands in actual cultivation

7. Submit map on enclosed plat, showing location and details of above description.
8. How many parties conduct water in this system?
9. Give names and amount of each right:

10. What large stream would the water here appropriated finally reach? Snake River

11. Describe the various tributaries en route, from point of diversion to the principal drainage stream:

Remarks: This water is carried about 2 miles in the "Caldwell High Line Canal" to a point of diversion

This examination was made on the 18th day of Sept. 1923

Permit 11980

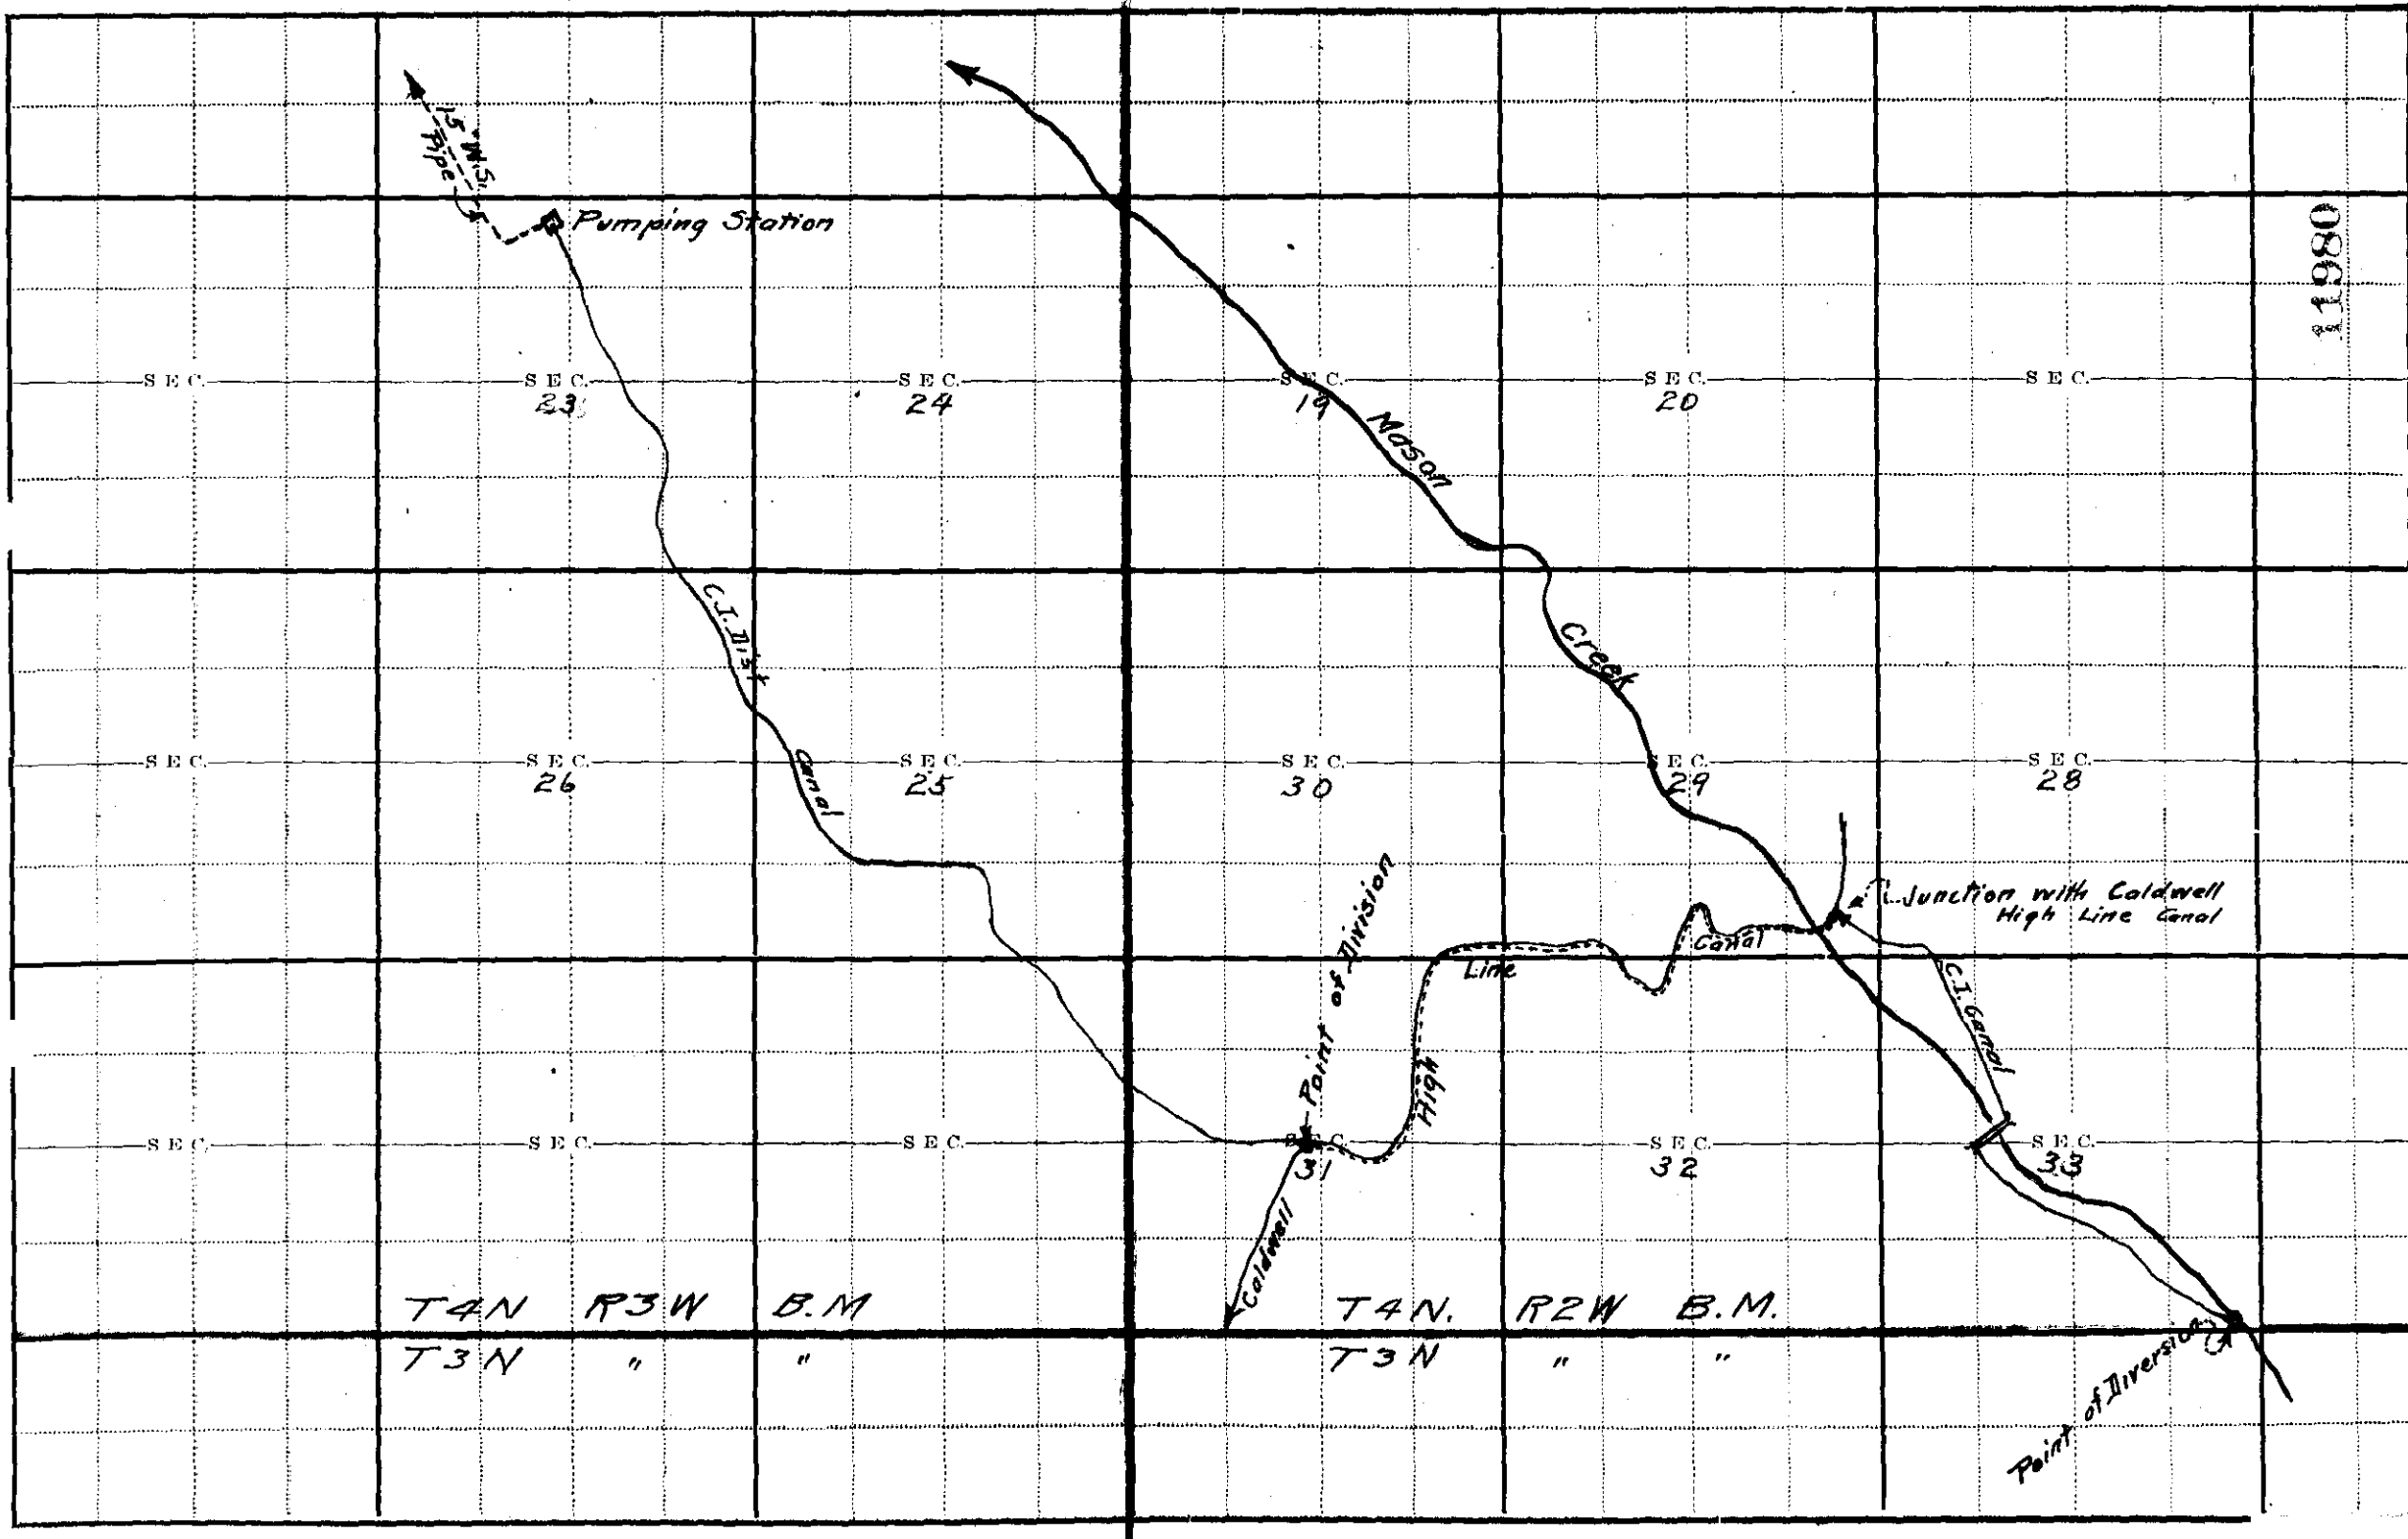

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

PERMIT No. 11980**Proof of Application of Water to Beneficial Use****DEPOSITION OF HOLDER**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Wm. B. Allison, age 36, Caldwell, Idaho, farmer, Caldwell,
Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Caldwell Irrigation District, Caldwell, Idaho, one member of the
board of three directors, by resolution of board.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 11980, February 10th., 1921, December 7th., 1915.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Mason Creek Drain, at a point on the South boundary line of the
SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, of Sec. 33, Twp. 4 N., Range 2 W. B. M., where said
boundary line intersects said Mason Creek Drain.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Works comprise concrete section and check in Mason Creek Drain,
concrete and steel head gate at diversion point in canal, Mason Creek
feeder canal, Caldwell Highline canal, and Canyon Hill Lateral canal,
and electric motor and pumps and lateral distributing system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes. 1000 acres, located in Sections
10, 14, 15, 22, 23, 25, and 26, in Twp. 4 North, Range 3 W. B. M.,
included within the boundary lines of the Caldwell Irrigation District,
as shown by the accompanying map. Cultivated, cleared, leveled, irrigated
and subdivided into small tracts for truck farming and gardening, set to
fruit, improved and used for small homes and residences.

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. Twenty second-feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. ~~From the year 1916, during the irrigating season of each year during that period in the amount of twenty second-feet.~~

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. **None.**

(Sign)

Wm B. Allison

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in **Caldwell** County of

PERMIT No. 11980.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. S. Madden, 52, Caldwell, Idaho. Realestate Dealer.
Caldwell, Idaho.

Ques. 2. Are you acquainted with Caldwell Irrigation District, the holder of Permit No. 11980? How long have you known him and where does he reside?

Ans. Yes. Since the creation of the District.

Ques. 3. Have you read or heard read said Permit No. 11980, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Works comprise concrete section and check in Mason Creek Drain, concrete and steel head gate at diversion point in canal, Mason Creek feeder canal, Caldwell Highline canal, and Canyon Hill Lateral canal, and electric motor and pumps and lateral distributing system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Twenty second-feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes. On 1000 acres of cultivated land, located in Sections 10, 14, 15, 22, 23, 25, and 26, in Twp. 4 North, of Range 3 West, Boise Meridian, included within the boundary lines of the Caldwell Irrigation District, as shown by the map of said District on file in the office of the Department of Reclamation. This land has been cleared, leveled, irrigated, cultivated, subdivided into small tracts, and improved with buildings and is being used for small homes and residences, gardening and truck farming and fruit growing.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Volcanic Ash, Sage Brush bench land, Twenty second-feet.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. At numerous times during the irrigation seasons of each year since the organization of the Caldwell Irrigation District, I have observed the operation of the system at different points, and throughout the course of the canals, and have observed the irrigation of the lands within the District.

Engineer

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 1st. day of March, 1923,
at Caldwell, County of Canyon, State of Idaho,
before Frank D. Mumford, Notary Public, proof will be submitted
of the application to beneficial use of Twenty cubic feet per second of the
waters of Mason Creek Drain in accordance with the terms and conditions of
Permit No. 11980 heretofore issued by the Commissioner of Reclamation
of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....
Caldwell Irrigation District, Caldwell, Idaho,

The use to which said water has been applied is irrigation and domestic

The amount applied to beneficial use is Twenty second feet

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) One thousand acres, located in Sections 10, 15, 22, 23,
25 and 26, in Township 4 North, Range 3 West from the Boise
Meridian, in Canyon County, Idaho, comprising all of the lands
located within the boundaries of the Caldwell Irrigation District.

The name of the canal or ditch or other works by which said water is conducted to such place of use
is Caldwell Irrigation District, or Canyon Hill Canal.

The right to take water from such works is based upon Permit No. 11980

The source of supply from which such water is diverted is Mason Creek Drain.

The date of the priority which said user is prepared to establish is December 7th., 1915.

W. G. Swendsen,
Commissioner of Reclamation.

11980

REPORT OF ENGINEER

This proof is for Completion works.

In Water District No. 12-A.

1. State name of applicant and number of permit: Caldwell Irr. Dist. Permit 11930.
2. State source of water supply: Mason Creek.
3. Location of point of diversion: SE4 SE4 Sec. 33, T. 4 N. R. 4 W. B.M.
4. Describe works as they exist, giving dimensions and capacities of same:

Conc. dam, 6' H. 30' L. 2 H.G. 6' x 6'

Ditch, 6' B. 3' D. Cap. 20 S.F. to pumping-plant.

One 3" cent. pump, - 22 H.P. Elec. motor, 30' lift.

One 10" Cent. pump, - 50 H.P. Elec. motor, 40' lift.

Conc. pump-house, 16' x 40'.
5. State whether or not water has been turned into works of diversion: Yes.
6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

All in cult.
7. Submit map on enclosed plat, showing location and details of above description.
8. How many parties conduct water in this system? One.
9. Give names and amount of each right: Caldwell Irr. Dist.
10. What large stream would the water here appropriated finally reach? Snake River.
11. Describe the various tributaries en route, from point of diversion to the principal drainage stream: From land to Boise River, to Snake River.

Remarks:

This examination was made on the 2th day of October 19 20.

(Signed) L.R. Annett.

11980 Examiner.

Permit 11930.

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

In re: Permit #11980

Walter Griffiths,
Attorney at Law,
Caldwell, Idaho.

Dear Sir:

Reference is made to your letter of the 19th relative to issuance of Certificate of Completion of Works under the above numbered permit, Caldwell Irrigation District, holder.

We have, in our files, some three hundred examinations to be made under proof of completion of works and proof of beneficial use, which examinations were allowed to accumulate for the past three years and the reason therefor is unknown to the writer.

However, it was the intention of this department to clean up the examinations this spring, but due to the unprecedented water shortage in this state, the time of our field men has been fully taken up superintending the distribution of water. Consequently, the above mentioned examinations have not been taken care of.

We have in the field at the present time, an examiner who is doing nothing else but making the examinations that have been allowed to accumulate. However, it may be some time before he can reach your territory. Rest assured, however, that the examination will be made just as soon as possible.

Yours very truly,

W. G. SWINTON

Commissioner of Reclamation

September 19, 1919.

State Engineer,
Boise, Idaho.

Dear Sir:

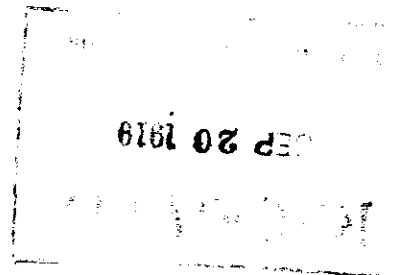

The Proof of Completion of Works, was made by the Caldwell Irrigation District and mailed into your office March 11th. It was my understanding at the time that a man would be sent down here to investigate the works, and then a certificate or notification of some kind would be sent down for the records of the District.

I have not received any notice of this kind yet and the Board of Directors have ask me to find out whether or not the proof had been accepted as satisfactory. If you will kindly let me know this fact, I will be very much obliged.

Respectfully,

WG-LB

Walter Griffiths.

May 14, 1920.

Re Permit 11980-Caldwell Irr. Dist.

Mr. Walter Griffith,
Attorney at law,
Caldwell, Idaho.

Dear Sir:--

Replying to yours of the 11th inst. would say that Permit No. 11980 stands in the name of the Caldwell Irrigation District, and was filed for 50 second feet of the waters of Indian Creek, December 7, 1915, which was prior to the date of the transfer granted under Permit 5515, for the exchange of Indian creek and Mason creek waters.

Permit No. 11897 stands upon our records in the name of the Pioneer Irrigation District, and is for 86 second feet of the waters of Mason Creek.

As soon as our examining engineer returns to the city we will take this examination up with him and it may be that it will be necessary to make another examination, if it is the intention of the Company to proceed with the proof.

Very truly yours,

W. G. SWENSON.

Commissioner of Reclamation.

By _____

May 10, 1920.

Re Permit 11980.- Caldwell Irr. Dist.

Messrs. Griffiths & Griffiths,
Attorneys at law,
Caldwell, Idaho.

Gentlemen:--

The report of our examining engineer for proof of completion of works under the above permit makes the following statement:

"The Creek running thru SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.8, T. 3 N., R. 2 W., B.11. is called Indian Creek instead of Mason Creek, as answered in paragraph 2 of this paper." "No work done".

This permit was filed for 20 second feet of the waters of Mason Creek. If the conditions are as shown in the report, the proof of completion of works could not be accepted.

Very truly yours,

W. G. ~~SUMNER~~,
Commissioner of Reclamation.

Commissioner of Reclamation.

By_____

5/11/20/

Hon. W. G. Swendsen,
Commissioner of Reclamation,

Dear Sir:-

I have your letter of yesterday relating to the proof of completion of works made by the Caldwell Irrigation District. You refer to this permit as No. 11,980, but I have it as 11,897, dated September, 8th, 1915. I will explain the facts to you and I think you will find additional papers in the office which will clear up the matter.

The Caldwell Irrigation District filed a water right application for waters of Indian Creek, dated, October, 15th, 1909, and for which permit No. 5,515 was issued, and later, October, 14th, 1916, a license under this permit and ~~the No.~~ was issued. This water was used for irrigating about one thousand acres of land in the Caldwell Irrigation District, located on Canyon Hill, just east of the City of Caldwell, and partly within the city limits. Two series of pumps were installed, and the water lift had two different points and separate lifts to a height of about 75 feet.

The Pioneer Irrigation District which is adjacent to the Caldwell Irrigation District, filed a water right application on Mason Creek, dated, September, 8th, 1915, and under which was issued permit No. 11897.

Mason Creek and Indian Creek are both tributaries of Boise river. Mason Creek emptying into Boise river just above Canyon Hill, and Indian Creek emptying into Boise river just below Canyon Hill. It was found that the water from Mason Creek could be diverted and carried on to Canyon Hill with a lift of only 42 feet while the water from Indian Creek required a lift of about 75 feet.

In March, 1917, the Caldwell Irrigation District entered into an agreement, whereby the Caldwell Irrigation District diverted water from Mason Creek for the Irrigation of the lands within the district, and an exchange was made between the two irrigation districts of their water rights, and the office of the State Engineer issued a permit to the Caldwell Irrigation District for twenty second-feet of the waters of Mason Creek. It was under this permit that the Caldwell Irrigation District made proof of the completion of its works. The District has been diverting water from Mason Creek under this permit for a number of years and has installed pumps and pipes and constructed a ditch system at an expense of approximately fifty thousand dollars (\$50,000.00) and has reclaimed approximately one thousand acres of land, which is now in a high state of cultivation and very valuable.

I think possibly the examining Engineer had the wrong permit. It may be possible that the Caldwell Irrigation District made the second filing on Indian Creek which was not carried through to completion, at any rate the District has its right in Mason Creek, and has completed its works and has applied its water to practically all of the land, and I think you will find the records in the engineers office to show that the districts right is in Mason Creek instead of Indian Creek. The point of diversion from Mason Creek is on the south line of the ~~xxxx~~ South East quarter of the South East quarter of section 33 in township 4 n. of range 2 w. of the Boise-Meridian.

I think the filing referred to in section 8 on Indian Creek was a filing made by the Caldwell Irrigation District and never perfected. If your examining Engineer will call on one of the Directors or at the office we will be very glad to show him over the works and the location of the point of diversion.

Respectfully,

Walter Griffiths.

March 13, 1919.

Re Permit 11980.

Mr. Walter Griffiths,
Attorney at law,
Caldwell, Idaho.

Dear Sir:--

We are in receipt of depositions and affidavit of publication for proof of completion of works under the above permit. Just how soon the examination can be made I cannot say as the office will change hands the first of the week. I am quite sure, however, that these examinations will be taken up as soon as possible.

Very truly yours,

FRED A. WILKIE,

State Engineer.

By _____

11980

H. A. GRIFFITHS WALTER GRIFFITHS
GRIFFITHS & GRIFFITHS
ATTORNEYS-AT-LAW
WESTERN NATIONAL BANK BUILDING
CALDWELL, IDAHO

Caldwell, Idaho, March 11, 1919.

State Engineer,
Boise, Idaho.

Dear Sir:

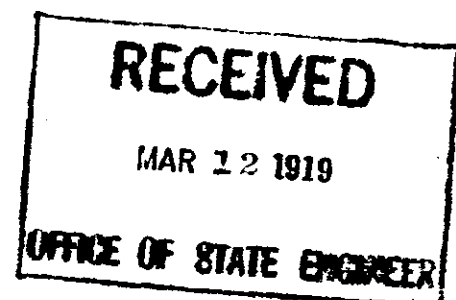

We have filled out and signed the affidavits in the proof of the Caldwell Irrigation District of the completion of its works. In filling out the affidavit signed by Dr. Wright I put in the date of the Permit as September, 1915, because I had that date in a paper here, an agreement between the Caldwell Irrigation District and the Pioneer Irrigation District, but I am not sure that date is correct. If not I wish you would correct it.

When you send a man down to investigate the works it might be better if we could have the water flowing in the ditches, and for that reason I would suggest that if you would do that about the first part of April, or the middle of April we will probably have the water in the ditches and everything in operation at that time. We are now finishing the cleaning and in the course of about ten days we will have everything ready for turning the water in, and operating the system to its full capacity.

Respectfully,

WG/MB

Walter Griffiths

11980

Notice of Publication

Notice is hereby given that at 2 p. m. on the Tenth day of March, 1919, at the office of the Canyon Abstract & Trust Co. County of Canyon, State of Idaho, before Frank Mumford, a Notary Public proof will be submitted of the completion of works for the diversion of 20 cubic feet per second of the waters of Mason Creek in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Caldwell Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Caldwell, County of Canyon, State of Idaho.

3. The number of such Permit is 11980, and the date set for the completion of such work is March 18, 1919.

4. Said water to be used for irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place intended for use, in accordance with the plans accompanying the application for such permit is 20 cubic feet per second.

6. The amount of lands for which said water is available is 1000 acres, particularly described as follows: Parts of Sections 10, 15, 22, 23, 25 and 26, all in Township 4 north of Range 3 West from Boise Meridian.

PERMIT NO. 11980

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. B. Wright, 84 years, Caldwell, Idaho, farmer.
Chairman of the Board of Directors of the Caldwell Irrigation District.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Caldwell Irrigation District, Caldwell, Idaho, Chairman of
Board of Directors, Resolution of Board of Directors.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 11980, September 8th, 1918, 20 second-feet, Mason Creek
Drain, at intersection with township line on south line of SE $\frac{1}{4}$ of SE $\frac{1}{4}$
of Section 35, Township 4 North, Range 2 West B/M.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation, that portion of Sections 10, 14, 15, 22, 23, 25,
and 26, in T. 4N. R. 3 W. B. M. within the boundaries of the Caldwell
Irrigation District as shown by the official map and records on file and
of record in the office of the State Engineer of the State of Idaho.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. During the irrigation seasons of 1917 and 1918 to the extent
of 20 second-feet.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. The works of diversion are fully completed and comply in all
respects with the terms of the permit.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Concrete check and gates at diversion point, and ditch and
distributing works of a capacity sufficient to divert, carry and
distribute 20 second-feet of water.

(Sign here.) J. B. Wright, President

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in the office of the Canyon Abstract & Trust Co., County of Canyon, State of Idaho, on this 10th day of March, A. D. 1919.

My Commission expires Nov. 5, 1919

J. O. Mumford
 Notary Public.
 Residing at Caldwell, Idaho.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

PERMIT NO. 11980

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred H. McConnell, 48 years, Caldwell, Idaho, Civil and Irrigation Engineer, Caldwell, Idaho.

Ques. 2. Are you acquainted with Caldwell, Irrigation District, the holder of Permit No. 11980, authorizing the diversion of twenty second-feet of the waters of Mason Creek, at the intersection of Mason Creek, with south boundary line, of SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of S. 30, T. 4N. for irrigation purposes? How long have you known him, and where does he reside?

Ans. Five years, Caldwell, Idaho.

Ques. 3. Have you read or heard read said Permit No. 11980, and are you familiar with its terms and conditions?

Ans. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes sir. I am acquainted with the land. It is sandy loam and volcanic ash in character, and requires for its profitable cultivation irrigation water to the extent of 20 second-feet or 1000 minere inches.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Concrete check and gates at diversion point and ditch and distributing works of capacity sufficient to divert, carry and distribute upon the lands within the district for irrigation purposes 20 second-feet of water.

(Sign here)

Fred H. McConnell

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in The Canyon Abstract & Trust Company Office, County of Canyon, State of Idaho, on this 10th day of

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Caldwell Irri. Dist.
Griffith & Griffith, Atty's.
Caldwell, Idaho.

Boise, Idaho,

December 3, 1918.

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. ~~11980~~.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which proof is to be submitted, which proof **MUST** be on or before ~~March 18, 1919~~----- Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

FRED A. WILKIE,

State Engineer.
