PROOF OF BENEFICIAL USE

Mr. Gilbert H. Sloan,
c/o W. C. Howie, N. P.,
Mountain Home, Idaho.

BOISE, IDAHO, January 2, 1918.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your Permit No. 9071.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On January 21, 1918, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Mountain Home, before W. C. Howie, N. P.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of $2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received together with report of examining engineer, if everthing is properly executed, License will issue.

Yours truly,

PROOF OF COMPLETION OF WORKS

Gilbert Sloan,
Little Camas,
Idaho

Boise, Idaho,

Nov.6,1915.

Dear Sir:

Under the terms of your permit No. 9071, you are required to complete your diversion works on or before Feb.11,1916. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of $5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J.H.Smith.

Rules and Regulations for Extension of Time for Construction of Work Under Permit.

House Bill No. 123 approved March 9th, 1911, provides that, where the State Engineer has limited time for completion of construction of necessary works under a permit to appropriate the public waters, to less than five years, he may, for good cause shown, extend such time as he may deem necessary.

To obtain such extension of time, the permit holder should fill out and file with the State Engineer two copies of the affidavit found upon the reverse side of this sheet.

Permit 9071.

Gilbert H. Sloan,
Little Camas, Idaho.

Sir:

We are just in receipt of your letter enclosing affidavit and fee for proof of completion of works under above permit, also, application blank partially filled out. The incomplete application sent with the affidavit has nothing to dowwith the permit under which proof is being made. The number at the top is evidently your land entry and not the application number given by this office. The above numbered permit was filed for Gilbert Sloan by Stanton Park of Mountain Home and the permit was returned to Mr. Park.

In checking the affidavit I note that you have given September, 1912, as the date upon whoch works were to be completed. This should be February 11, 1915. The permit calls for three second feet of water but I note that you have given the capacity of the works as only one second foot. If the works will carry only one second foot of water the certificate can be issued for only that amount.

I am herewith returning the affidavit, with $5.00 bill, for correction as above set forth. Am also returning the incomplete application as it has no bearing on the above numbered permit.

Very truly yours,

Herbert Wing,

Acting State Engineer.
