## License and Certificate of Water Right

Water License No. 8895  
 Water District No. 12- A.

Amount 10 sec ft.  
 Priority 7/7/13

THIS IS TO CERTIFY that **UNITED STATES RECLAMATION SERVICE**  
 of **Boise, Idaho**, made application for a permit to appropriate the  
 public waters of the State of Idaho, dated **August 16**, 19 **12**; that Permit No. **8895**  
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of **10**  
 second feet, was issued thereunder on **January 7**, 19 **14**, showing that said works  
 were completed on the **11th** day of **November**, 19 **13**; and that on the **5th**  
 day of **November**, 19 **18**,

### UNITED STATES RECLAMATION SERVICE

of **Boise**, State of **Idaho**, made proof to the satisfaction of the  
 State Engineer of Idaho, of a right to the use of the waters of **Pipe Gulch Draw**,  
 a tributary of **Boise River**, for the purpose of **Irrigation and Domestic use.**,  
 under Use Permit No. **8895** of the State Engineer, and that said right to the use of said  
 waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the ~~State~~  
~~Commissioner of Reclamation~~ **Engineer** of Idaho and entered of record in Volume **5** of Licenses, at page **2713**, on the **2nd**  
 day of **December**, 19 **20**;

The right hereby confirmed dates from **July 7**, 19 **13**;

The Point of Diversion is located **Crossing of Riverside Canal & Pipe Gulch Ditch**  
 in the **NW ¼ SE ¼**, Sec. **16**, Tp. **4 N.**, R. **4 W.**, B. M.

**County of Canyon**  
 That the amount of water to which such right is entitled and hereby confirmed, for the purposes  
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not  
 exceed **10** cubic feet per second.

Description and location of use:

| Twp. | Range | Sec. | Forty-acre Tract | No. Acres<br>Described in Permit | No. Acres<br>Actually Irrigated |
|------|-------|------|------------------|----------------------------------|---------------------------------|
| 5 N. | 5 W.  | 28   | N½               | ---                              | 320                             |
|      |       | 29   | N½               | ---                              | 320                             |
|      |       | 20   | S½               | ---                              | 320                             |

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of  
 use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the ~~State Engineer~~ **Commissioner of Reclamation**, affixed at Boise, Idaho, this **2nd**  
 day of **December**, 19 **20**

W. G. Swendsen.  
**Commissioner of Reclamation** ~~State Engineer.~~

(SEAL)

By **S. T. Baer**,  
 Deputy

Proof of Completion of Works made November 11, 1913.

Certificate of Completion of Works issued January 7, 1914.

-----  
PERMIT NO. 8895.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:

This is to certify that United States of America by acting supervising engineer of the U. S. Reclamation Service of Boise, County of Ada, and State of Idaho, the holder of Permit No. 8895, issued upon Application No. 12993, bearing date of priority of August 16, 1912, authorizing the diversion of 10 second feet of the waters of Pipe Gulch Draw, County of Canyon, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 10 second-feet of the waters of Pipe Gulch Draw; that the point of diversion of said waters is at the crossing of Riverside Canal and Pipe Gulch ditch in the NW $\frac{1}{4}$  SE $\frac{1}{4}$  Sec. 16, T. 4 N. R. 4 W. B. M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: All of that land north and west of the Riverside canal below the point of intersection of the Riverside Canal and Pipe Gulch Draw, and bounded by the Riverside Canal, the Dixie Slough and the Boise and Snake Rivers, containing 8320 acres.

Witness my hand this 7th day of January, A. D. 1914.

F. P. KING,

State Engineer of the State of Idaho.

License issued for 10 second feet

Page # 2713

No. 12993

**APPLICATION FOR PERMIT**

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant: United States of America, acting under the provisions of the Act of Congress of June 17, 1902, known as the Reclamation Act.  
 Postoffice address: U.S. Reclamation Service, ~~County~~, Boise, County: ~~Blaine~~, Ada, State: Idaho.
- I. If applicant is a corporation, give  
 (a) Date and place of incorporation.  
 (b) The amount of capital stock.  
 (c) The amount paid in.  
 (d) Names and addresses of directors.

- II. The financial resources of the applicant are: (a) ~~Cash on hand~~. The receipts under the Act of Congress of June 17, 1902 (32 Stat. 388) of ~~the Reclamation Act~~  
 (b) ~~Interest on bonds~~  
 (c) ~~Other resources~~  
 (d) Other resources:

2. The quantity of water claimed is Ten (10) cubic feet per second.
3. Source of water supply: Pipe Gulch Draw.
4. Location of point of diversion: Crossing of Riverside Canal and Pipe Gulch Ditch, in the NW $\frac{1}{4}$  SE $\frac{1}{4}$ , Section 16, T. 4 N. R. 4 W. B. M.  
 County of Canyon
5. To be used for:

- I. Irrigation and domestic use: (a) Amount of land to be irrigated: acres.  
 (b) In the following legal subdivisions: To be used to supplement the water furnished by the United States from Boise River and in connection with that water to irrigate about 12,000 acres under the Riverside canal as shown on the attached map.

- II. Mining, milling, power, manufacturing, transportation or other purposes:

[a] At what point:

[b] Amount of power to be generated:

H. P. under

ft. head

[c] Is water to be returned to any stream?  
 return:

(d) If so, name stream and locate point of

6. Estimated cost of works: \$2500.00

7. Description of works for diversion:

- I. Kind of works: Five gates in Flume across Riverside Canal and about eight miles of artificial ditches above diversion flume in which water is accumulated.

- II. Dimensions of works:

[a] Height of dam feet, length of dam at top feet,

length of dam at bottom

feet. Material used in construction:

[b] Capacity of reservoir

acre feet.

[c] Size of headgate, width 5 & 4

feet,

Height 2

feet.

(d) Conduit

Flume

width at bottom 30

feet,

width at water line 30

feet,

depth of water 1.5

feet,

diameter of pipe

inches; average grade per mile is 36

feet.

Length of conduit is 56 feet miles,

and it crosses the following quarter sections: located in Sec. 16, T. 4 N. R. 4 W. B. M.

8. The time required for the completion of the construction of such work is five years.
9. Time required for the complete application of the water to the proposed use is four additional years.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

UNITED STATES OF AMERICA.

Applicant.

By George H. Bliss...

Agent.

Acting Project Engineer.

Date of first receipt at office of State Engineer 9.00 a.m. August 16, 1912.

Returned to applicant for correction September 15, 1912.

Corrected application received October 30, 1912.

### APPROVAL OF STATE ENGINEER.

The number of this permit is 8895

Recorded in Book 29 Page 8895 Approved December 14, 1912.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions.

Bond in the sum of to be filed on or before

Work to begin on or before February 12, 1913, and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before June 14, 1913.

The whole of said work to be completed on or before December 14, 1913.

Beneficial use of water appropriated in accordance herewith, to be made on or before December 14, 1917.

Witness my hand this 14th day of December, 1912.

A. E. Robinson,  
State Engineer.

#### Remarks:

Under a contract between the United States and the Riverside Irrigation Association, water is to be turned from the Deer Flat Reservoir through the Deer Flat Low Line, Golden Gate Canal, and Pipe Gulch Wasteway into the Riverside Canal at the point of crossing of wasteway and Riverside Canal. In addition to the water turned into the wasteway drain (an artificial channel constructed by the United States) there is some water flowing in this wasteway channel at certain seasons from natural causes and seepage, most of which has been accumulated by artificial drains and ditches constructed by the United States. This water it is intended to appropriate under this application and to use the same with other water furnished by the Government in the irrigation of irrigable lands under the Riverside Canal.

Time asked for in section 8 above is hereby reduced to 1 year.

A. E. Robinson,  
State Engineer.

# REPORT OF ENGINEER

This proof is for Beneficial UseIn Water District No. 12-A

1. State name of applicant and number of permit: U. S. R. S. - Permit 8895
2. State source of water supply: Pipe Gulch Draw
3. Location of point of diversion: Crossing of Riverside Canal and Pipe Gulch Draw in Sec. 16, N. 4 N., R. 4 W.
4. Describe works as they exist, giving dimensions and capacities of same:  
No structure at entrance of Pipe Draw into Riverside Canal; but in lower bank of canal, opposite intake is a wood spil-way, 40 ft. wide and six (6) ft. high.
5. State whether or not water has been turned into works of diversion: Yes.
6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): N $\frac{1}{2}$  Sec. 28, N $\frac{1}{2}$  Sec. 29, S $\frac{1}{2}$  Sec. 20, T. 5 N., R. 5 W., B.M.  
(24 - 40<sup>2</sup> at \$1 each \$24.00)
7. Submit map on enclosed plat, showing location and details of above description.
8. How many parties conduct water in this system?
9. Give names and amount of each right:
10. What large stream would the water here appropriated finally reach? Snake River.
11. Describe the various tributaries en route, from point of diversion to the principal drainage stream: Thru drains to Boise River to Snake River.

Remarks:

This examination was made on the 8 day of Apr. 19 20

### Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.
