BE IT KNOWN, That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

United States of America,

Applicant.

By George H. Bliss...Agent.
Acting Project Engineer U.S. Rec. Service

REMARKS. Under certain contracts between the United States and the Nampa-Meridian Irrigation District, water is to be turned from the Main South Side Government Canal into Five Mile Creek and again diverted from said creek by means of the canal herein described and dropped into the canals of the Nampa-Meridian District for the irrigation of the lands in the district which are under contract with the government. In addition to the water turned in by the United States, there is some water flowing in Five Mile Creek at certain seasons from natural causes and from seepage which it is intended to appropriate under this application, and to use the same together with other water furnished by the Government in the irrigation of the irrigable lands in the Nampa-Meridian Irrigation District.

 APPROVAL OF STATE ENGINEER

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

George H. Bliss, U.S.R.S.

c/o Earl Eby,
Boise, Idaho.

Boise, Idaho,

May 13, 1914.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works under your permit No. 4799.

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On June 17th, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Boise, before Earl Eby, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$5.00, where amount claimed does not exceed 10 second feet. Where more than 10 second feet is claimed, the fee required is 30 cents per second foot. When these have been received, together with report of the examining engineer, if everything is properly executed, Certificate of Completion of Works will issue.

Yours truly,

F.P. KING, ~~State Engineer~~

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. F. E. Weymouth,
Supervising Engineer U.S.R.S.,
Boise, Idaho.

Boise Idaho, March 3, 1914.

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 4799.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof MUST be made on or before June 18, 1914.

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

F. P. KING,

State Engineer
