Permit To Appropriate Water

NO. 63-12570

Priority: February 29, 2000

Maximum Diversion Rate:

0.16 CFS

This is to certify, that HOPE HOUSE
11461 LONE STAR RD
PO BOX 1428
NAMPA ID 83653-1428

has applied for a permit to appropriate water from: GROUNDWATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

DOMESTIC	01/01 to 12/31	0.16 CFS
----------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION: NWNWNE , Sec. 30, Township 03N, Range 02W
CANYON County

PLACE OF USE: DOMESTIC

TWN RGE SEC

03N 02W 30

NWNE

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of application of water to beneficial use shall be submitted on or before May 1, 2005.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
6. Two points of diversion are located within the NWNWNE, S30, T3N, R2W.
7. Domestic use is for residents and staff at a children's home and associated lawn irrigation of less than 1/2 acre.

1. Name of Applicant Hope House Phone 466-4673
Mailing address 11461 Lone Star Road, P.O. Box 1428, Nampa ID. 83653-1428
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is Township 3N Range 2W Sec. 30 in the NW 1/4, NW 1/4, NE 1/4, Govt. Lot _____, B.M., Canyon County; additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.16 for Domestic purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.16 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Well: 6" cased, 250-foot proposed depth to serve Hope House (childrens home) residents & staff
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
 - d. Is ground water with a temperature of greater than 85°F being sought? No
 - e. If well is already drilled, when? No; Drilling firm _____
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in KW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. see attached - use to be 0.14 cfs domestic
 - e. Other; describe fully. and 0.02 cfs for irrigation

MICROFILM

Subject: MORE INFO

Per Applicant: Hope House was incorporated in 1980. There are two existing wells serving 65 people and facility lawns. Because of high nitrate levels in the shallow wells, applicant proposes to replace one of the wells with a deeper well for primary domestic use and use the other well for lawn irrigation.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12570

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

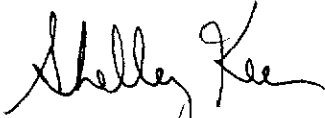

MICROFILMED

APR 27 2000

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley Keen".

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).
(Signature)

MICROFILMED

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of; or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

MEMORANDUM

TO: File 63-12570

FROM: Sharla

DATE: April 19, 2000

RE: Telecon

On this date I spoke with Roger Dittus of United Water Idaho. He is the person assisting Hope House with the filing. The front of the application form indicates a 250 ft proposed well to serve residents and staff. This describes the NEW well they plan to drill to replace their well #2. Lori Graves indicated in comments that there are two existing wells and that plans were to replace one of the wells for primary domestic use and the other for lawn irrigation. The accompanying map also shows three wells. Mr. Dittus told me that the intent was for a permit listing two points of diversion for use by the children's home and lawn irrigation (60 x 200 feet = < 0.3 acres) but that perhaps the way he wrote the front of the application, it wasn't very clear.

The advertising did not specifically say two wells, however, it did state that development was completed prior to 11/87 for the home and associated lawns (which is true based on the two existing wells). The description of the domestic use on the front of the application did indicate domestic and irrigation; the comments indicate one well to be used for the home and one for irrigation. Mr. Dittus said that when the new well is drilled, the old well #2 will be abandoned.

The permit should contain a remark stating there are two points of diversion within the legal description given. One final note is that Hope House does have a water right license (63-11494B) for irrigating 3 acres to the north of Hope House (across Lone Star Rd in Section 19). Mr. Dittus said those three acres are a "farm" that Hope House runs.

To: Mr. Steve Lester, Idaho Dept. Of Water Resources
From: Roger Dittus
Subject: Hope House, Application to Appropriate Water

I am writing to you on behalf of Hope House, is a home for children located west of Nampa, ID in the NW $\frac{1}{4}$, NW $\frac{1}{4}$, NE $\frac{1}{4}$ of Section 30, T3N, R2W (see Figure 1). Hope House was incorporated as a non-profit organization in 1980 and there are 65 full time residents which includes children, educators and counselors. The wells serving Hope House produce water that have Nitrate as N levels near or above EPA's Maximum Contaminant Level of 10mg/l (9mg/l to 11 mg/l).

There are two 6"-diameter wells that supply water for domestic use in the kitchen, dormitory bathrooms, laundry room, and irrigation of lawns. In addition, water is diverted for a reservoir tank that is used for fire protection. The existing wells are approximately 100 feet and probably have surface seals to a depth of 20 feet. Wells Driller's Reports for the Hope House wells are not on file IDWR. Well #1 was completed in 1976 and well #2 was completed in the early 1980's. The well locations are shown in Figure 2. Hope House wishes to replace the #2 well with a deeper well that has a cement pressure-grout annular seal (proposed depth of 250 feet). This well will then be the primary well and the #1 well will be used only for irrigation.

Because of Hope House's non-profit status and the service it provides, several individuals and businesses have assisted with donations of materials, labor, etc. over the years. Presently, United Water Idaho is assisting Hope House various ways with their goal to have a new well on line as soon as possible. Hope House would like to obtain a water right license for their wells. A cumulative diversion rate of 0.17 cfs (0.15 domestic and 0.02 irrigation) from these diversion points is requested in the Application To Appropriate Water. No records of water use exist. Each well is presently equipped with a 35 gpm capacity pump.

For expediency, I have filled out the Application to Appropriate Water for Hope House and asked the Board of Directors to sign here, indicating their knowledge and consent for my filling out and signing the Application.

Sincerely, Roger Dittus
United Water Idaho (362-7358)

The Hope House Board Of Directors are:

Ruth Powell – Secretary and Treasurer

Michael Velvick – President

WESTERN REGION

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE
THREE ALTERNATIVES BELOW

Name of Applicant

Hope House

Mailing Address

PO Box 1428

Nampa, ID 83653-1428

Application No.
(if known)

IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

X

WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

HOPE DEVELOPMENTAL CENTER

For several years we had dreamed, planned and worked toward the establishment of a training center for our developmentally disabled young people. As a result, Hope Developmental Center opened its doors in January of 1993.

Hope Developmental Center is a state licensed Developmental Disabilities Agency. We have a wonderful staff of dedicated, caring professionals and para-professionals who are committed to God and to the people they serve. We provide services for our own young people as well as many others from our community. We are located at 3110 North Middleton Road in Nampa, (208) 463-8177.

Our goal at HDC is to help developmentally disabled young people and adults gain the skills and confidence necessary to live more independent and fulfilling lives. We understand that not everyone is able to live on their own, but we hope to give them as much independence as possible. We try to help them learn the value of money and make budgets for themselves; learn to make appointments for themselves; acquire good health, hygiene, and grooming skills; learn to make wise choices for themselves about how they use their free time; learn to make wise choices regarding friends and companions; gain and master skills in resolving conflicts and solving problems. In short, we help them learn to lead lives as normal and as independent as they are capable of leading. Every program and service we

offer is designed to stimulate people's thinking, challenge them to expand their horizons, and help them to push beyond the limits they and others have imposed on them.

HOPEFULLY YOURS

Hope House operates a thrift shop called "Hopefully Yours." It is located at 3110 N. Middleton Rd., Nampa, Idaho, (208) 466-8704. *Hopefully Yours* is run by one employee and a staff of several part-time volunteers. We accept all manner of new and used clothing and household items. We use what we can for our family and then resell what we can't use. The income from the thrift shop is enough to cover the salary of one of our school teachers. Not only does the shop help our family, but it provides good used clothing at very reasonable prices to many in our community who are experiencing difficult financial times.

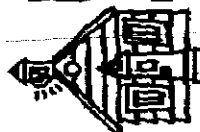

THE CHAPEL OF HOPE

Every Sunday we worship together at the Chapel of Hope, a church meeting at the Hope House. It was founded to provide Hope House, and others in our community with special needs, a place to meet together for meaningful worship. We meet each Sunday morning at 11:00 for a time of singing and a lesson which challenges us to think about Jesus and how we should respond to Him.

HOPE HOUSE HOME FOR CHILDREN

In 1973, Donnalee Velvick saw a need for a home that would benefit "hard-to-place" kids. Children with mental, physical, and emotional disabilities often "fall through the cracks" in our society. Her dream grew and developed into Hope House Home For Children, which was incorporated as a non-profit organization in 1980. As a non-profit organization, no part of the net income or donations received by Hope House goes to any member or individual in the organization and no director or officer of the organization receives compensation for their service. Hope House accepts no local, state, or federal funds, except those directly paid as benefits to particular children. The Home's main source of income is from church, individual, and business donations, and grants.

Hope House is located just west of the city limits of Nampa, Idaho. Our six homes are located on approximately 75 acres and residents live in homes according to age, gender, and ability. We provide a home for approximately 40 youths under the age of eighteen and approximately 20 disabled young

adults. Our staff consists of twelve full-time volunteers who live on the premises, as well as teachers and cooks. Hope House accepts children whom state agencies and other private homes and local organizations are unable or unwilling to care for. Our young people come to us with varying levels of mental retardation; Cerebral Palsy; visual and hearing impairments; Down Syndrome; Autism; developmental delays; Post Traumatic Stress Disorder; and seizure disorders. They come to us battered, sick, mentally bruised, terminally ill, and, in some cases, with reports of nothing more than bad behavior and stamped as incorrigible. *We believe that all youth deserve the opportunity to succeed.*

In some cases this means moving from their dysfunctional situation to live in our "structured" home. All of our young people are required to be in school and/or developmental services and/or vocational training as needed. The children and adults of Hope House — whether they stay several months or remain for years — learn to live, love, and share as a family.

Just as in a "normal size" family, all of our young people have responsibilities. The older children help our little ones and our "special needs" children to get ready for the day. Everyone is responsible for keeping their own room in order. After school, we all get together for "family meeting" where chores are assigned ranging from feeding and caring for the animals and

livestock to vacuuming, dusting, laundry, and all the other average duties a family has.

We do the same kinds of things most smaller families do, just on a larger scale. One example of this is summer vacation. Each summer the entire family loads up into a couple of buses, a van or three, and maybe a couple of cars and a pickup and heads for the hills. We spend three or four weeks exploring the outdoors in Idaho and surrounding states. We camp out under the stars in our sleeping bags, cook over an open campfire, hike, swim, and stand in a never-ending line to the outhouse.

Some of you may be wondering what it takes to keep a family like ours going for a month. We use approximately 224 gallons of milk, 88 dozen eggs, 1200 pounds of fruit, 1200 pounds of vegetables, 750 pounds of meat, 600 pounds of flour, 300 pounds of laundry detergent, 600 rolls of toilet paper, 60 tubes of toothpaste, and the list could go on and on. As you can see, we're just a family on a large scale.

Our goals are simple: to provide a safe, loving home for children and youth; to provide a non-institutional atmosphere for our developmentally delayed and disabled young people; to promote the general welfare of disabled children and adults, both in and out of our home; to provide appropriate care and training in proper social, educational,

economic, and intellectual skills; to provide for the spiritual needs of our young people; to provide for the special needs of our young people such as medical/surgical services, eye correction, counseling, physical therapy, speech and hearing services, and developmental training services; to teach basic skills such as simple cooking, doing laundry, washing dishes, sweeping floors and other household tasks; to teach personal hygiene and grooming; to teach the value of work; to work with parents willing to learn how to cope with and meet the special needs of their disabled young people so they can be reunited as a family. Some of our young people just need someone to love them and accept them, and let them know they are valuable.

We attend church together as a family and all the children who join our family, even on a temporary basis, understand that we do things as a family, with everyone participating and following house rules. Because we are a family, everyone participates in camping, swimming, bowling and other activities. Within the protection of the family, young people are encouraged to try things they may have been afraid or were too self-conscious to try. Within the protection of the family, they have the freedom to fail without being labeled a failure. The key word in all that we do is FAMILY. We are a family unit. We live, love, laugh, and worship as a

family. HOPE HOUSE IS A HOME COME TO!

HOPE CHRISTIAN ACADEMY

Many of our young people come to us up to three years behind in school. Others have been removed from school. When a child is

in a dysfunctional situation, school and education are often the last things on their mind. In our state accredited school program, each person is given the time and guidance needed to make up their lost schooling and move ahead toward graduation. Certified teachers and their aides, and the one-on-one attention they provide, give our students the edge they need to be productive in school. Hope Christian Academy has been operating since the Fall of 1984 with a total of more than 40 graduates. Many of those graduating had been labeled as failures in the public school setting because of their emotional impairment. In our setting, they were able to get the individual attention they needed. All young people deserve the opportunity to reach their highest potential. It is the goal of Hope Christian Academy to see that our young people complete school and go on to receive vocational training or go on to college so that they may be productive and successful members of their communities.
